

# Energy Act 2023

## 2023 CHAPTER 52

### PART 4

#### NEW TECHNOLOGY

### CHAPTER 3

#### MISCELLANEOUS

#### *Renewable and sustainable fuel*

#### **157 Treatment of recycled carbon fuel and nuclear-derived fuel as renewable transport fuel**

After section 131C of the Energy Act 2004 insert—

#### **“131D Recycled carbon fuel and nuclear-derived fuel**

- (1) An RTF order may—
  - (a) designate as recycled carbon fuel a description of liquid or gaseous fuel which is produced wholly from waste derived from a fossil source of energy;
  - (b) designate as nuclear-derived fuel a description of liquid or gaseous fuel which is produced wholly using, or by a process powered wholly by, nuclear fuel.
- (2) Where a designation under subsection (1) is in force, the recycled carbon fuel or nuclear-derived fuel is to be treated for the purposes of this Chapter and any RTF order as renewable transport fuel.”
