

Energy Act 2023

2023 CHAPTER 52

PART 9

ENERGY SMART APPLIANCES AND LOAD CONTROL

CHAPTER 3

LICENSING OF LOAD CONTROL

247 Load control: supplemental

- (1) A modification under [section 245](#) of part of a standard condition of a licence does not prevent any other part of the condition from continuing to be regarded as a standard condition for the purposes of Part 1 of the Gas Act 1986 or Part 1 of the Electricity Act 1989.
- (2) Where the Secretary of State makes modifications under [section 245\(1\)\(b\)](#) or [\(e\)](#) of the standard conditions of a licence of any type, the GEMA must—
 - (a) make the same modification of those standard conditions for the purposes of their incorporation in licences of that type granted after that time, and
 - (b) publish the modification.
