168 Nutrient pollution standards to apply to certain sewage disposal works

(1) After section 96A of the Water Industry Act 1991 insert—

“96B Nutrient pollution standards to apply to certain sewage disposal works

- (1) A sewerage undertaker whose area is wholly or mainly in England must—
 - (a) in the case of each nitrogen significant plant comprised in its sewerage system—
 - (i) secure that, by the upgrade date, the plant will be able to meet the nitrogen nutrient pollution standard, and
 - (ii) on and after the upgrade date, secure that the plant meets that standard;
 - (b) in the case of each phosphorus significant plant comprised in its sewerage system—
 - (i) secure that, by the upgrade date, the plant will be able to meet the phosphorus nutrient pollution standard, and
 - (ii) on and after the upgrade date, secure that the plant meets that standard.
- (2) In carrying out the duty under subsection (1), a sewerage undertaker must consider whether nature-based solutions, technologies and facilities relating to sewerage and water could be used to meet the standard.

Status: Point in time view as at 26/12/2023. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: Levelling-up and Regeneration Act 2023 is up to date with all changes known to be in force on or before 20 April 2024. 96C Sensitive catchment areas

- (1) Where the Secretary of State considers that a habitats site that is wholly or partly in England is in an unfavourable condition by virtue of pollution from nutrients in water comprising nitrogen or compounds of nitrogen, the Secretary of State may designate the catchment area for the habitats site as a nitrogen sensitive catchment area.
- (2) Where the Secretary of State considers that a habitats site that is wholly or partly in England is in an unfavourable condition by virtue of pollution from nutrients in water comprising phosphorus or compounds of phosphorus, the Secretary of State may designate the catchment area for the habitats site as a phosphorus sensitive catchment area.
- (3) In determining—
- (a) whether a habitats site is in an unfavourable condition by virtue of pollution from nutrients comprising nitrogen, phosphorus or compounds of nitrogen or phosphorus,
 - (b) the catchment area for a habitats site, or
 - (c) whether to exercise the power in subsection (4)(e),
- the Secretary of State may take into account, in particular, advice from, or guidance published by, Natural England, the Environment Agency or the Joint Nature Conservation Committee.
- (4) A designation under subsection (1) or (2)—
- (a) must be in writing,
 - (b) must be published as soon as practicable after being made,
 - (c) takes effect—
 - (i) on the day specified in the designation, or
 - (ii) if none is specified, on the day on which it is made, (the “designation date”),
 - (d) if it takes effect after the end of the initial period, must specify the upgrade date (see section 96E(1)(b)), and
 - (e) may specify the concentration that applies to a plant (which discharges into the catchment area) in relation to a nutrient pollution standard instead of the standard concentration.
- (5) A date specified under subsection (4)(d) as the upgrade date must be at least 7 years after the designation date.

Status: Point in time view as at 26/12/2023. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: Levelling-up and Regeneration Act 2023 is up to date with all changes known to be in force on or before 20 April 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (6) Before specifying a concentration under subsection (4)(e), the Secretary of State must consult the Environment Agency.
- (7) A concentration specified under subsection (4)(e) ceases to have effect if, after the day on which the designation is made, the plant becomes an exempt plant.
- (8) A designation under this section may not be revoked; and it is immaterial for the purposes of the continued designation of an area whether subsection (1) or (2) continues to be satisfied in relation to it.
- (9) In this section “catchment area”, in relation to a habitats site, means the area where water, if released, would drain into the site.

96D Exempt sewage disposal works

- (1) A plant is exempt in relation to a nutrient pollution standard if—
 - (a) it has a capacity of less than a population equivalent of 2000 when the designation of the associated catchment area takes effect,

This is subject to subsection (2).

- (2) The Secretary of State may designate a plant as not being exempt in relation to a nutrient pollution standard, unless—
 - (a) the plant has a capacity of less than a population equivalent of 250, and
 - (b) the designation takes effect after the designation of the associated catchment area takes effect.
- (3) A designation under subsection (1)(b) or (2)—
 - (a) must be in writing,

 - (c) takes effect—
 - (i) on the day specified in the designation, or
 - (ii) if none is specified, on the day on which it is made.
- (4) A designation under subsection (2) that takes effect after the designation of the associated catchment area takes effect must specify the upgrade date (see section 96E(2)(a)).
The upgrade date must be at least 7 years after the designation under subsection (2) takes effect.

- (10) The regulations must specify or provide for determining the upgrade date (see section 96E(2)(b)) in relation to any plant that ceases, by virtue of the regulations, to be an exempt plant in relation to a standard after the designation of the associated catchment area takes effect.
The upgrade date must be at least 7 years after the plant ceases to be exempt in relation to the standard.
- (11) The regulations may provide for the Secretary of State to specify the concentration that applies to a plant that ceases, by virtue of the regulations, to be an exempt plant in relation to a nutrient pollution standard instead of the standard concentration; and, if such provision is made, the regulations must—
 - (a) require that the Secretary of State consult the Environment Agency before specifying a concentration;
 - (b) provide for any specified concentration to cease to have effect if, after the day on which the plant ceases to be an exempt plant, the plant again becomes an exempt plant.
- (12) A designation under subsection (2) in relation to a plant and a nutrient pollution standard is of no effect if the plant ceases, by virtue of regulations under subsection (8), to be exempt in relation to the standard before, or at the same time as, the designation would otherwise take effect.
- (13) In this section “population equivalent” has the meaning given by regulation 2(1) of the Urban Waste Water Treatment (England and Wales) Regulations 1994 (S.I. 1994/2841).
- (14) References in this section to the designation of an associated catchment area are to its designation as a sensitive catchment area.

96E Upgrade date

- (1) The upgrade date, in relation to a nutrient significant plant, is, unless subsection (2) or (3) applies—

- (3) Where the associated catchment area has ceased to be a catchment permitting area and a date has been specified under section 96H(4)(c), that date is the upgrade date.
- (4) “The initial period” means the period of 3 months beginning with the date on which the Levelling-up and Regeneration Act 2023 is passed.
- (5) References in this section to the designation of an associated catchment area are to its designation as a sensitive catchment area.

96F Nutrient pollution standards

- (1) A nitrogen significant plant meets the nitrogen nutrient pollution standard if—
 - (a) where the associated catchment area is not a catchment permitting area (see section 96G), the concentration of total nitrogen in treated effluent that the plant discharges is not more than—
 - (i) 10 mg/l, or

Changes to legislation: Levelling-up and Regeneration Act 2023 is up to date with all changes known to be in force on or before 20 April 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (3) Where the Secretary of State makes a designation under subsection (1), the Environment Agency must—
- (a) review the environmental permits for the plants that discharge treated effluent into the catchment permitting area that are—
 - (i) nutrient significant plants, and
 - (ii) such other plants that the Environment Agency considers appropriate (including such plants within an area that may be determined by the Environment Agency), and
 - (b) impose conditions on those permits relating to nutrients in treated effluent discharged by those plants—
 - (i) under Chapter 3 of Part 2 of the Environmental Permitting (England and Wales) Regulations 2016, and
 - (ii) for the relevant purpose.
- (4) The “relevant purpose” is ensuring that, on and after the applicable date, the overall effect on the habitats site associated with the catchment permitting area of nutrients in treated effluent discharged by all the plants that discharge treated effluent into the catchment permitting area is less significant or the same as the overall effect on the site of nutrients in treated effluent that would be discharged by those plants if—
- (a) the standard concentration applied to nutrient significant plants, and
 - (b) the nutrient significant plants were (on that basis) meeting the nutrient pollution standard on and after the applicable date.
- (5) For that purpose, a condition imposed on an environmental permit in pursuance of subsection (3)(b) may, in particular—
- (a) require, or have the effect of requiring, that the concentration of nutrients in treated effluent discharged by a plant is higher or lower than, or equal to, the standard concentration;
 - (b) relate to any or all of the plants mentioned in subsection (3)(a), including the concentration of nutrients in treated effluent discharged by those plants.
- (6) In subsection (4)—
- (a) the “applicable date” means—
 - (i) where the designation under section 96C(1) or (2) of the area that is the catchment permitting area takes effect during the initial period, 1 April 2030, or
 - (ii) where that designation takes effect after the initial period, the date specified under section 96C(4)(d) in that designation;
 - (b) a habitats site is “associated” with a catchment permitting area if water released into the area would drain into the site.
- (7) The duty in subsection (3) applies in relation to the grant of an environmental permit for a plant that discharges (or will discharge) treated effluent into the catchment permitting area as if—
- (a) paragraph (a) were omitted, and
 - (b) in paragraph (b)—
 - (i) for “those permits” there were substituted “the permit”;
 - (ii) for “those plants” there were substituted “the plant”;

Status: Point in time view as at 26/12/2023. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: Levelling-up and Regeneration Act 2023 is up to date with all changes known to be in force on or before 20 April 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

(iii) for “Chapter 3” there were substituted “Chapter 2”.

- (8) It is for the Environment Agency to determine the overall effect on a habitats site of nutrients in treated effluent.
- (9) Regulations made by the Secretary of State may specify how such determinations are to be made.
- (10) In this section “nutrients”, in relation to an area designated under—
 - (a) section 96C(1), means nutrients in water comprising nitrogen or compounds of nitrogen;
 - (b) section 96C(2), means nutrients in water comprising phosphorus or compounds of phosphorus.

- (3) A designation under section 96G(1)—
 - (a) if made before the time that the designation under section 96C(1) or (2) takes effect, takes effect at the same time as that designation;

 - (c) may be revoked.
- (4) A revocation under subsection (3)(c)—
 - (a) takes effect—
 - (i) on the day specified in the revocation, or
 - (ii) if none is specified, on the day on which it is made;

ADDITIONAL COMPENSATION WHERE SECTION 14A APPLIED

Directions for additional compensation

- 1 (1) This paragraph applies if—
 - (a) an interest in land has been acquired further to a compulsory purchase order, and
 - (b) the order directed that compensation was to be assessed in accordance with section 14A.

Status: Point in time view as at 26/12/2023. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: Levelling-up and Regeneration Act 2023 is up to date with all changes known to be in force on or before 20 April 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

(2) The confirming authority must, on an application by an eligible person, make a direction for additional compensation if it appears to the confirming authority that the following conditions are met.

(3) Those conditions are—

- (a) that the statement of commitments has not been fulfilled,
- (b) either—
 - (i) that the period of 10 years beginning with the date on which the compulsory purchase order became operative has expired, or
 - (ii) that there is no longer any realistic prospect of the statement of commitments being fulfilled within that period, and
- (c) that the initial direction would not have been confirmed on the basis of a statement of commitments reflecting what has in fact been done with the project land since its acquisition.

(4) In sub-paragraph (3)—

“the statement of commitments” means the statement of commitments submitted in connection with the compulsory purchase order under section 15A(3) of the Acquisition of Land Act 1981 (and if the statement was amended after its submission, means the statement as amended);

“the initial direction” means the direction referred to in sub-paragraph (1)(b) (and that direction was “confirmed” when the compulsory purchase order was confirmed with the inclusion of the direction);

“the project land” means the land treated as the project land for the purposes of the statement of commitments;

and that statement is “fulfilled” if what is done with that land after its acquisition is materially in accordance with the statement.

(5) The effect of a direction for additional compensation is that each eligible person may make a claim to the acquiring authority for any additional compensation in respect of the acquisition payable to the person under this Schedule.

(6) A person is an “eligible person” for the purposes of this Schedule if the person was entitled to compensation in respect of the acquisition (and see also paragraph 4(1)).

Amount of additional compensation

- 2 (1) Additional compensation in respect of an acquisition is payable to an eligible person only if, in relation to that person, the alternative amount is greater than the original amount.

Status: Point in time view as at 26/12/2023. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: Levelling-up and Regeneration Act 2023 is up to date with all changes known to be in force on or before 20 April 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (2) The amount payable is the difference between the two amounts.
- (3) The “original amount” is the amount of compensation awarded or agreed to be paid to the person in respect of the acquisition.
- (4) The “alternative amount” is the amount of compensation that would have been assessed as due to the person in respect of the acquisition had compensation been assessed without the application of section 14A.
- (5) If the original amount was agreed, the relevant valuation date for the purposes of the assessment imagined under sub-paragraph (4) is the date on which the agreement was concluded.
- (6) In relation to the determination of an amount of additional compensation under this Schedule, section 17(2)(b) applies as if its reference to the amount of compensation were to the amount of additional compensation.
- (7) A certificate issued under section 17 (or 18) after the award or agreement referred to in sub-paragraph (3) is to have effect for the purposes of the assessment imagined under sub-paragraph (4) as if it had been issued before that assessment.
- (8) Any amount of compensation that is or would be attributable to disturbance, severance or injurious affection is to be ignored for the purposes of sub-paragraphs (3) and (4).

Time limit for application for direction

- 3 An application under paragraph 1(2) may not be made after the expiry of the period of 13 years beginning with the date on which the compulsory purchase order became operative.

Mortgages

- 4 (1) For the purposes of this Schedule an “eligible person” includes a person who would have been entitled to compensation in respect of the acquisition but for the existence of a mortgage (but the mortgage is in that case still to be taken into account in determining the original and alternative amounts under paragraph 2).
- (2) An amount agreed or awarded to be paid to a mortgagee under section 15 or 16 of the Compulsory Purchase Act 1965 in respect of the acquisition is to be treated for the purposes of this Schedule as compensation in respect of the acquisition.
- (3) The reference in sub-paragraph (2) to an amount paid under section 15 or 16 of the Compulsory Purchase Act 1965 (“the applicable section”) includes an amount paid under section 52ZA or 52ZB of the Land Compensation Act 1973

Status: Point in time view as at 26/12/2023. This version of this Act contains provisions that are not valid for this point in time.

and taken into account by virtue of section 52ZC(7)(d) of that Act for the purposes of the applicable section.

- (4) Additional compensation payable under this Schedule to a person in the person's capacity as a mortgagee (or to a person exercising rights of a mortgagee) is to be applied towards the discharge of the sums secured by the mortgage.
- (5) If there is no remaining sum secured by the mortgage, the additional compensation that would be payable as described in sub-paragraph (4) is instead payable to the person who is an eligible person by virtue of the interest that was subject to the mortgage.
- (6) If the additional compensation that would be payable as described in sub-paragraph (4) exceeds the total of the remaining sums secured by the mortgage, the amount of the excess is instead payable to the person who is an eligible person by virtue of the interest that was subject to the mortgage.

Successors-in-title

- 5 (1) This paragraph applies if, had the compensation to which an eligible person was entitled in respect of the acquisition remained unpaid, the right to be paid it would now vest in some other person (assuming that it remained enforceable and any obligations in respect of the right had been complied with).
- (2) If the eligible person is still alive or in existence, the rights that the eligible person would have under this Schedule are exercisable by the other person and not by the eligible person.
- (3) If the eligible person is no longer alive or in existence, the rights that the eligible person would have under this Schedule if that person were still alive or in existence are exercisable by the other person.
- (4) The right exercisable by the other person under sub-paragraph (2) or (3) is subject to any restriction, condition or other incident to which the right vested in that person as imagined under sub-paragraph (1) would be subject.
- (5) Additional compensation paid to the other person by virtue of sub-paragraph (2) or (3) must be dealt with by the person in any way in which the person would have to deal with compensation paid to that person further to the right vested in that person as imagined under sub-paragraph (1).
- (6) If a person is an eligible person by virtue of paragraph 4(1), the reference in sub-paragraph (1) to compensation to which the person was entitled is to be read as a reference to the compensation to which the person would have been entitled but for the mortgage.

Status: Point in time view as at 26/12/2023. This version of this Act contains provisions that are not valid for this point in time.

- 6
- (1) The relevant authority may by regulations provide for additional compensation payable on a claim under paragraph 1(5) to include (in addition to any amount payable under paragraph 2) an amount to make good qualifying losses.
 - (2) “Qualifying losses” are financial losses shown to have been suffered by an eligible person, or a person entitled to exercise the rights of the eligible person under paragraph 5, as a result of the compensation initially payable to the eligible person in respect of the acquisition being of the original amount rather than the alternative amount.
 - (3) In the case of an eligible person who is so by virtue of an interest that was subject to a mortgage, the reference in subparagraph (2) to compensation payable to the eligible person is to be taken to include compensation payable to the mortgagee of that interest.
 - (4) Regulations under this paragraph may limit the qualifying losses in respect of which additional compensation is payable under the regulations by reference to—

- (1) For the purposes of section 119 (and this section) a lease (the “new lease”) is a “connected replacement lease” if—
 - (a) the new lease is a lease of a single dwelling in a relevant building,
 - (b) the tenant under the new lease is liable to pay a service charge,
 - (c) the new lease was granted on or after 14 February 2022,
 - (d) the new lease replaces—
 - (i) one other lease, which is a qualifying lease (whether under section 119(2) or (3A)), or
 - (ii) two or more other leases, at least one of which is a qualifying lease (whether under section 119(2) or (3A)), and

Status: Point in time view as at 26/12/2023. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: Levelling-up and Regeneration Act 2023 is up to date with all changes known to be in force on or before 20 April 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (e) there is continuity in the property let.
- (2) For the purposes of subsection (1)(d), the new lease replaces another lease if—
- (a) the term of the new lease begins during the term of the other lease, and the new lease is granted in substitution of the other lease, or
 - (b) the term of the new lease begins at the end of the term of the other lease (regardless of when the lease is granted).
- (3) For the purposes of subsection (2)(a), the circumstances in which the new lease is granted in substitution of another lease include circumstances where—
- (a) the new lease is granted by way of a surrender and regrant of the other lease (including a deemed surrender and regrant, whether deemed under an enactment or otherwise);
 - (b) the new lease is granted under—
 - (i) section 24 of the Landlord and Tenant Act 1954 (renewed business leases),
 - (ii) section 14 of, or Schedule 1 to, the Leasehold Reform Act 1967 (extension of leases of houses), or
 - (iii) section 56 of the Leasehold Reform, Housing and Urban Development Act 1993 (extension of leases of flats),in a case where that provision of that Act applies by virtue of the other lease.
- (4) For the purposes of subsection (1)(e) there is continuity in the property let if—
- (a) the newly let property is exactly the same as the already let property,
 - (b) the newly let property consists of some or all of the already let property, together with other property (whether or not that other property was previously let) (a “property combination”), or
 - (c) the newly let property consists of some, but not all, of the already let property (but no other property) (a “property reduction”).
- (5) But there is no continuity in the property let by virtue of a property reduction if, as respects any lease in the relevant chain of qualifying leases, there was continuity in the property let by virtue of a property combination.
- (6) For that purpose, the “relevant” chain of qualifying leases is the chain of qualifying leases of which the new lease would be part were it a connected replacement lease.
- (7) For the purposes of subsection (1)(e) there is also continuity in the property let if the new lease is granted to rectify any error in the lease, or any lease, which the new lease replaces.
- (8) Where a dwelling is at any time on or after 14 February 2022 let under two or more leases to which subsection (1)(a) and (b) apply, any of the leases which is superior to any of the other leases is not a connected replacement lease.
- (9) For the purposes of sections 122 to 125 and Schedule 8, all of the leases in a chain of qualifying leases are to be treated as a single qualifying lease which has a term that—
- (a) began when the term of the initial qualifying lease in that chain began, and

- (b) ends when the term of the current connected replacement lease in that chain ends.
- (10) The Secretary of State may by regulations make provision about the meaning of “connected replacement lease” (including provision changing the meaning).
- (11) The provision that may be made in regulations under this section includes—
- (a) provision which amends this section;
 - (b) provision which has retrospective effect.
- (12) Provision in regulations under this section made by virtue of section 168(2)
- (a) (consequential provision etc) may (in particular) amend this Act.
- (13) In this section—
- “already let property”, in relation to a new lease, means the property let by the lease or leases which the new lease replaces;
- “chain of qualifying leases” means—
- (a) an initial qualifying lease which is the preceding qualifying lease in relation to a connected replacement lease (the “first replacement lease”),
 - (b) the first replacement lease, and
 - (c) any other connected replacement lease if the preceding qualifying lease in relation to it is—
 - (i) the first replacement lease, or
 - (ii) any other connected replacement lease which is in the chain of qualifying leases;
- and a chain of qualifying leases may accordingly consist of different leases at different times (if further connected replacement leases are granted);
- “current connected replacement lease”, in relation to a particular time, means a connected replacement lease during the term of which that time falls;

 - (i) the new lease replaces, and
 - (ii) is a qualifying lease.
- (14) The definitions in section 119(4) also apply for the purposes of this section.”
- (4) In section 168(6)(a) (affirmative procedure for regulations), after “74,” insert “119A,”.

Direction that assumptions are not to apply

- 85C (1) The assumptions in regulations 85A(2) and 85B(2) do not apply in relation to a particular plant and a particular nutrient pollution standard if the Secretary of State so directs.
- (2) A direction under this regulation may be made in relation to a plant and a standard only if the Secretary of State is satisfied—
- (a) where the plant is a non-catchment permitting area plant, that the plant will not be able to meet the standard by the upgrade date;
 - (b) where the plant is a catchment permitting area plant—
 - (i) that the plant will not be able to meet the standard by the applicable date, or
 - (ii) that the first effect described in paragraph (4) will, on the applicable date, be more significant than the second effect described in that paragraph.
- (3) The Secretary of State may revoke a direction under this regulation if satisfied—
- (a) where the plant is a non-catchment permitting area plant, that the plant will meet the standard by the upgrade date;
 - (b) where the plant is a catchment permitting area plant—
 - (i) that the plant will meet the standard by the applicable date, or
 - (ii) that the first effect described in paragraph (4) will, on the applicable date, be the same or less significant than the second effect described in that paragraph.
- (4) For the purposes of paragraphs (2)(b) and (3)(b)—
- (a) the “first effect” is the overall effect on the habitats site associated with the catchment permitting area of nutrients in treated effluent discharged by all plants that discharge into the area;
 - (b) the “second effect” is the overall effect on the site of nutrients in treated effluent that would be discharged by all plants that discharge into the area if—
 - (i) the upgrade date that applied to nutrient significant plants that discharge into the area was the same as the applicable date,
 - (ii) the standard concentration (of nutrients) applied to those nutrient significant plants, and
 - (iii) those nutrient significant plants were (on that basis) meeting the nutrient pollution standard on the applicable date.
- (5) In deciding whether to make a direction under this regulation in relation to a plant and a standard, the Secretary of State may, in particular, have regard—
- (a) where the plant is a non-catchment permitting area plant, to when the plant can be expected to meet the standard;
 - (b) where the plant is a catchment permitting area plant, to when—
 - (i) the plant can be expected to meet the standard, and

Status: Point in time view as at 26/12/2023. This version of this Act contains provisions that are not valid for this point in time.

- (ii) the sewerage undertaker for the plant can be expected to be in compliance with conditions in the environmental permit for the plant imposed in pursuance of section 96G(3)(b) of the Water Industry Act 1991.
- (6) Before making or revoking a direction under this regulation, the Secretary of State must consult—
 - (a) the Environment Agency,
 - (b) Natural England,
 - (c) the Water Services Regulation Authority,
 - (d) any local planning authority who it appears to the Secretary of State would be affected by the direction or revocation,
 - (e) the sewerage undertaker whose sewerage system includes the plant, and
 - (f) any other persons that the Secretary of State considers appropriate.
- (7) A direction or revocation under this regulation—
 - (a) is to be made in writing, and
 - (b) takes effect—
 - (i) on the day specified in the direction or revocation, or
 - (ii) if none is specified, on the day on which it is made.
- (8) As soon as practicable after making or revoking a direction under this regulation, the Secretary of State must—
 - (a) notify—
 - (i) the Environment Agency,
 - (ii) Natural England,
 - (iii) every local planning authority who appears to the Secretary of State to be affected by the direction or revocation, and
 - (iv) any other persons that the Secretary of State considers appropriate, and
 - (b) publish the direction or revocation.

- “phosphorus nutrient pollution standard”;
- “plant”;
- “sensitive catchment area”;
- “sewerage system”, in relation to a sewerage undertaker;

Status: Point in time view as at 26/12/2023. This version of this Act contains provisions that are not valid for this point in time.

Changes to legislation: Levelling-up and Regeneration Act 2023 is up to date with all changes known to be in force on or before 20 April 2024. “standard concentration”;

“treated effluent”;

“upgrade date”.

(2) In regulations 85A to 85C and this regulation—

“catchment permitting area plant” means a nutrient significant plant that discharges (or will discharge) treated effluent into a catchment permitting area;

“non-catchment permitting area plant” means a nutrient significant plant that discharges (or will discharge) treated effluent into a sensitive catchment area other than a catchment permitting area.

(3) For the purposes of regulations 85A and 85B, “outperformance” by a plant, which is a non-catchment permitting area plant and in relation to a nutrient pollution standard, occurs where—

(a) the plant meets the standard before the upgrade date, or

(b) the total nitrogen concentration (in the case of a nitrogen significant plant), or total phosphorus concentration (in the case of a phosphorus significant plant), in treated effluent that it discharges is less than the concentration specified in section 96F(1)(a)(i) or (2)(a)(i), under section 96C(4)(e) or 96D(5) or by virtue of regulations made under section 96D(11) (as the case may be) of the Water Industry Act 1991 that applies to the plant.

(5) For the purposes of regulation 85C(4)—

(a) a habitats site is “associated” with a catchment permitting area if water released into the area would drain into the site;

(b) “nutrients”—

(i) in relation to an area designated under section 96C(1) of the Water Industry Act 1991, means nutrients comprising nitrogen or compounds of nitrogen;

(ii) in relation to an area designated under section 96C(2) of that Act, means nutrients comprising phosphorus or compounds of phosphorus.”

- (4) In paragraph (1) “relevant decision” means—
- (a) a decision whether to give effect to a land use plan, or
 - (b) a decision whether to modify or revoke a neighbourhood development plan.
- (5) In this regulation “relevant assessment”, in relation to a land use plan, means—

- 110B(1) The assumptions in regulation 110A(2) do not apply in relation to a particular plant and a particular nutrient pollution standard if the Secretary of State so directs.
- (2) A direction under this regulation may be made in relation to a plant and a standard only if the Secretary of State is satisfied—
- (a) where the plant is a non-catchment permitting area plant, that the plant will not be able to meet the standard by the upgrade date;
 - (b) where the plant is a catchment permitting area plant—
 - (i) that the plant will not be able to meet the standard by the applicable date, or
 - (ii) that the first effect described in paragraph (4) will, on the applicable date, be more significant than the second effect described in that paragraph.

 - (i) the upgrade date that applied to nutrient significant plants that discharge into the area was the same as the applicable date,
 - (ii) the standard concentration (of nutrients) applied to those nutrient significant plants, and
 - (iii) those nutrient significant plants were (on that basis) meeting the nutrient pollution standard on the applicable date.
- (5) In deciding whether to make a direction under this regulation in relation to a plant and a standard, the Secretary of State may, in particular, have regard—
- (a) where the plant is a non-catchment permitting area plant, to when the plant can be expected to meet the standard;
 - (b) where the plant is a catchment permitting area plant, to when—
 - (i) the plant can be expected to meet the standard, and
 - (ii) the sewerage undertaker for the plant can be expected to be in compliance with conditions in the environmental permit for the plant imposed in pursuance of section 96G(3)(b) of the Water Industry Act 1991.
