Control of Construction of Pipe-lines

1 Cross-country pipe-lines not to be constructed without the Minister’s authority.

- (1) It shall not be lawful for works to be executed in land for the construction of a cross-country pipe-line except under an authorisation in that behalf (in this Act referred to as a “pipe-line construction authorisation”) granted by the Minister, or otherwise than along the route delineated on the map annexed to the authorisation or within such limits of lateral deviation from that route as may be specified in the authorisation, or (except with the consent of the Minister) by a person other than the one named in the application for the authorisation as he who will be the owner of the line; and if works are executed in contravention of this subsection, the person executing them shall be liable, on summary conviction, to a fine not exceeding [^{F1}level 3 on the standard scale].

^{F2}[(1A) For the purposes of this section—

- (a) the construction of a diversion to a pipe-line shall be treated as the construction of a separate pipe-line, and
 - (b) if the diversion is to a pipe-line which is the subject of a pipe-line construction authorisation but the length of that pipe-line which is being diverted has not been constructed, the construction of the diversion shall be treated as the construction of a cross-country pipe-line whatever the length of the diversion.]
- (2) The Minister, on an application for a pipe-line construction authorisation, shall have power in his discretion to grant the application or to refuse it.
- (3) The provisions of Part I of the First Schedule to this Act shall have effect with respect to the making of applications for pipe-line construction authorisations, for the purpose of securing that opportunities are afforded for the making of objections to such applications and to any modifications subject to which they may be granted and with respect to other related matters therein mentioned.
- (4) If, after a pipe-line construction authorisation has been granted, the execution of the works whose execution is authorised thereby has not been substantially begun at the expiration of twelve months from the date on which it was granted, or at the expiration of any extension of that period which the Minister may allow, the authorisation shall become of no effect, except as regards works previously executed.
- (5) The Minister shall not allow any extension under the last foregoing subsection of the time within which the execution in any land of the works whose execution is authorised by a pipe-line construction authorisation must be begun unless he is satisfied that notice of the making of the application for the extension has been given to every owner, lessee and occupier (other than tenants for a month or any period less than a month) of the land and that sufficient time has elapsed to allow every person to whom the notice was given an opportunity of making to the Minister written objection to the application.

Avoidance of Construction of superfluous Pipe-lines

9 Provisions for securing that a pipe-line is so constructed as to reduce necessity for construction of others.

(1) Where—

- (a) application is made to the Minister for the grant of a pipe-line construction authorisation for the construction of a pipe-line to be designed for the conveyance of a particular kind of thing or of things of a particular class, and
- (b) the Minister is satisfied that there is evidence of demand existing or likely to arise for the grant of such authorisations for the construction of further pipe-lines to be designed for the conveyance of that kind of thing or, as the case may be, things of that class, and
- (c) the Minister is also satisfied that the routes to be taken by the further lines will severally be, as to the whole or any part thereof, the same or substantially the same as the route or any part of the route to be taken by the line to which the application relates,

he may, if he grants the application, grant it subject to the condition that the line to be constructed pursuant to the application or any length of that line specified in the authorisation shall be so constructed as to be capable of conveying, during such period as may be so specified, not less than such quantity as may be so specified of the kind of thing in question or, as the case may be, things of the class in question.

(2) The Minister may at any time, by notice served on the owner of a pipe-line constructed pursuant to a pipe-line construction authorisation to which a condition is attached by virtue of the foregoing subsection, impose such requirements as he thinks it necessary or expedient to impose for all or any of the following purposes, namely,—

- (c) securing that the exercise of a right secured by virtue of paragraph (a) of this subsection is not prevented or impeded;

but requirements imposed for the purpose specified in paragraph (a) of this subsection shall be so framed as, in the Minister's opinion, to secure that compliance therewith will not prejudice the proper and efficient operation of the line for the purpose of the conveyance on behalf of the owner thereof, in the quantity required by him, of the kind of thing, or things of the class, which it is designed to convey.

(3) A notice served under the last foregoing subsection with reference to a pipe-line may authorise the owner thereof to recover, from persons to whom a right is secured by the notice by virtue of paragraph (a) of that subsection, payments of such amounts as may be determined in accordance with provisions in that behalf contained in the notice, being payments in consideration of that right's being secured to them.

(4) Where a pipe-line constructed pursuant to a pipe-line construction authorisation to which a condition is attached by virtue of subsection (1) of this section is constructed without conformity to that condition, the works for the construction of the line shall
