- the authority may prepare a scheme (hereinafter referred to as a “works scheme”) for the carrying out of the work.
- (2) A works scheme shall—

- (3) The coast protection charge payable by reference to any such interest shall not exceed the amount by which the value of the interest immediately after the time at which the works provided for by the scheme have been completed, calculated on the assumption that those works will in future be maintained without expense to the person entitled to the interest in question, is greater than the value of that interest would then be if the works had not been undertaken:

Provided that, if any of the work provided for by the scheme is carried out at the expense of the person entitled to the interest, the coast protection charge shall not exceed the said amount reduced by the reasonable cost of the carrying out thereof.

- (4) A works scheme which provides for the levying of coast protection charges shall either—
- (a) specify the persons by whom such charges are to be paid, the amount of the charge to be paid by each person and the interest in land by reference to which the charge is levied upon him; or
 - (b) state that the authority by whom the scheme is prepared will, within such period after the completion of the work as may be specified in the scheme, determine the interests in land by reference to which coast protection charges are to be levied and, in the case of each of those interests, the amount of the charge leviable in respect thereof;

- (7) Any dispute arising in connection with a works scheme as to whether a charge under the scheme exceeds the amount permitted by subsection (3) of this section shall be determined by arbitration; and if on any such arbitration it is determined that the charge exceeds that amount, the charge shall be reduced accordingly and the scheme and any notice served thereunder shall have effect as if the amount of the charge expressed therein were the amount permitted by the said subsection (3) as determined on the arbitration.
