- (1) Subject to the provisions of this Part of this Act, any of the Ministers specified in subsection (2) of this section may, in the circumstances specified in the two next succeeding sections, acquire under the Defence Acts any land on which government war work has been done or which has been damaged by government war use.
- (2) The said Ministers are the Ministers who apart from this Part of this Act have power to acquire land under the Defence Acts, and the Minister of War Transport, the Postmaster General and the Minister of Works.

5 Works.

- (1) Where there are government war works on the land, the power of acquisition shall be exercisable if those works were constructed wholly or partly at the expense of the Crown or some other person having no interest or a limited interest in the land and, in the opinion of the Minister, either—
 - (a) the value of the works ought, by the acquisition of the land, to be preserved either for the Crown or for the said other person, his legal personal representatives or his successor in the carrying on of a trade or business in connection with the carrying on of which he incurred the expense in question; or
 - (b) the right to use the works (whether then or thereafter) ought, by the acquisition of the land, to be preserved or secured either for the Crown or for some other person having no interest or a limited interest in the land, and the case is not one where the land can be acquired under the Defence Acts apart from this Part of this Act; or
 - (c) the right to determine the use to which the works are put (whether then or thereafter) ought, by the acquisition of the land, to be secured for the Crown, and the case is not one where the land can be acquired under the Defence Acts apart from this Part of this Act.
- (2) In any such case as aforesaid the power of acquisition shall extend not merely to the site of the works but also to any contiguous or adjacent land which, in the opinion of the Minister, must be held with the site of the works if the works are to be properly utilized and maintained.

6 Depreciated land.

- (1) Whether there are government war works on the land or not, the power of acquisition shall be exercisable where the value of the land has been diminished by government war work done thereon or by damage caused by government war use thereof if, in the opinion of the Minister, it is desirable in the public interest that the land should be dealt with in a particular manner with a view to the total or partial rehabilitation thereof and the land is only likely to be dealt with in that manner if it is acquired by virtue of this Part of this Act.
- (2) In any such case as aforesaid, the power of acquisition shall extend not merely to the land the value of which has been diminished but also to any contiguous or adjacent land which, in the opinion of the Minister, must be held with the first-mentioned land if the first-mentioned land is to be properly dealt with.

 - (b) may, if there are government war works anywhere on the first-mentioned land, by order discharge wholly or partly or modify any restriction as to the user of that land or as to building thereon arising by virtue of any contract if, in his opinion, the continued existence of the restriction, or, as the case may be, the continued existence thereof without modification, would prevent the retention

(2) Where—

- (a) there are government war works on any land constructed at the expense of the person who is the owner of that land and
- (b) a Minister would have had power to acquire that land under paragraph (b) of subsection (1) of section five of this Act if that person had had no interest or only a limited interest in the land,

the Minister shall have the like power to acquire any easement over or right restrictive of the user of any other land, being an easement or right which in his opinion is essential to the full enjoyment of the first-mentioned land, as he would have had under this section if he had had power as aforesaid to acquire the first-mentioned land, and, on the transfer by the Minister of the easement or right acquired to any person having an interest in that land, the like consequences shall ensue as would have ensued if it had been conveyed to him direct by the persons from whom it was acquired by the Minister.

- (3) Any person having an interest in any land entitled to the benefit of a restriction discharged or modified under paragraph (b) of Subsection (1) of this section shall, if the value of his interest is diminished by the discharge or modification of the restriction, be entitled to receive from the Minister compensation in respect of the diminution.
- (4) The Acquisition of Land (Assessment of Compensation) Act, 1919, as amended by any subsequent enactment, shall with any necessary modifications, apply in relation to compensation under subsection (3) of this section as it applies in relation to compensation for the acquisition of a right over land. (2) If within the time so specified the Minister receives any objection in writing to the proposals or any of them, being an objection either—

- (a) by a person who appears to him to have an interest in the land; or
- (b) in a case where it appears to him that the proposals will or may affect amenities enjoyed by the public, by the local planning authority, by any local authority or by a society or body having as its object or one, of its objects the preservation of such amenities, being a society or body the character and membership of which is such that it is, in his opinion, proper that their views should be considered; or

then, unless he decides not to proceed with the proposals, he shall, not later than two months from the time so specified, refer the whole matter of the proposals to the Commission for a report, and shall not proceed to carry out the proposals until the Commission have reported to him thereon.

(4) Where objection to the proposals or any of them is made to the Commission on the ground that the proposals or any of them are not in accordance with national or local interests or requirements as to planning or amenities and the Commission, though not satisfied that the objection should be upheld, are of opinion that it is substantial, the Commission shall notify the Minister of Town and Country Planning accordingly and shall, before reporting to the Minister who made the proposals, consider any information or representations put before them by or on behalf of the Minister of Town and Country Planning.

- (b) that those premises in substance owe their existing character, so far as the buildings and structures thereon are concerned, to government war work; and
- (c) that in the interests of an orderly transition from war conditions to peace conditions it is expedient that the ability t of the Crown to dispose of the premises, together with all necessary easements and other rights over and in relation to other land, should be established without delay,

- (b) if the easement or right is proposed to be acquired under subsection (2) of section seven of this Act,

nevertheless proceed with the acquisition of the easement or right on that ground, if he thinks fit to do so, but, save as aforesaid, the Minister shall not proceed with the acquisition of an easement or right which the Commission report ought not to be acquired.

- (1) Where land is proposed to be acquired on the ground that the value of works ought to be preserved, the Commission may, if they think fit, report that all or any part of the land ought not to be acquired if, within a time specified in the report, any person interested in the land pays to the Minister in respect of the value of the works a sum specified in the report or, if the report so provides, a sum determined by arbitration under terms of reference so specified:

Provided that the right of any person interested in the land to pay a sum determined by arbitration as aforesaid shall not be exercisable unless, within such time as may be specified in the report, he gives notice in writing to the Minister that he requires that amount to be determined by arbitration.

- (2) In considering proposals for the acquisition of land on the ground that the value of works ought to be preserved, the Commission shall have particular regard to—
 - (a) the cost of the works;
 - (b) the financial advantage, if any, which would accrue to any objector if the land were not acquired; and
 - (c) the degree of loss or hardship which any objector would sustain if the land were acquired.
- (3) In considering proposals for the acquisition of land on the ground that it is desirable in the public interest that the whole or some part thereof should be dealt with in a particular manner with a view to the total or partial rehabilitation thereof, the Commission shall have particular regard to—
 - (a) the practicability or otherwise of restoring the land to the condition in which it was before the government war work thereon was done or, as the case may be, the damage caused by the government war use thereof was caused, and the cost of the restoration, if it is practicable;
 - (b) the desirability or otherwise of dealing with the land or, as the case may be, the part of the land, otherwise than by restoring it, and in particular any question which arises as to amenities enjoyed or to be enjoyed by members of the public; and
 - (c) the degree of loss or hardship which any- objector would sustain if the land were acquired.
- (4) In considering proposals involving the acquisition of a dwelling-house, or the whole or part of a building occupied with, or park or garden of, a dwelling-house, or any easement over or right restrictive of the user of a dwelling-house or a building occupied therewith or the garden or park thereof, or involving the discharge or modification of any restriction enuring for the benefit of land which includes a dwelling-house, the Commission shall consider the nature and extent of the interest which any objector has in the dwelling-house and (notwithstanding anything in the preceding provisions of this section) if they are of opinion that his interest in the dwelling-house is, in all the circumstances, to be considered as a substantial one, shall report that the carrying out of the proposals (so far as they relate to the said matters) ought not to be proceeded with unless, in their opinion, either—
 - (a) the carrying out of the proposals (so far as they relate to the said matters) is necessary in order to preserve something which is of substantial value to the community; or
 - (b) in the case of the acquisition of the whole or a part of a building occupied with a dwelling-house or of a garden or park, or an easement over or right restrictive of the user of a dwelling-house, building occupied with a dwelling-house, garden or park, or of the discharge or modification of a restriction,

Status: This is the original version (as it was originally enacted).

the proposals can be carried out without seriously affecting the amenity or convenience of the dwelling-house:

Provided that this subsection shall not apply in relation to any dwelling-house the construction of which was government war work.

- (5) Where the proposals are for the acquisition of any land under section five of this Act and—
- (a) the land to be acquired consists of or includes the whole or any part of a common, open space or fuel or field garden allotment; and
 - (b) the Commission are of opinion that the works in question are not both substantial and permanent in their nature,

the Commission shall, notwithstanding anything in the preceding provisions of this section, report that the proposals, so far as they relate to land consisting of or forming part of the common, open space or fuel or field garden allotment, shall not be proceeded with.

12 Overriding provision as to purchase of certain commons and open spaces.

Where proposals for the acquisition of land under this Part of this Act include proposals for the acquisition of land which consists of or includes the whole or any part of a common or open space, the Minister shall not, in pursuance of those proposals, acquire, or serve notice to treat for the acquisition of, any part of that common or open space unless each House of Parliament resolves that the proposals, so far as they relate to that common or open space, ought to be proceeded with:

Provided that this section shall not apply where the Minister of Agriculture and Fisheries, in the case of a common, or the Minister of Town and Country Planning, in the case of an open space not being a common, certifies that other land, not being less in area and being equally advantageous to the public, is to be provided in lieu of the common or open space or part of a common or open space which is proposed to be acquired.

13 Agricultural land.

In considering whether the conditions necessary for the exercise of any powers exercisable by virtue of this Part of this Act are fulfilled, any work done on any land possession of which has been taken for agricultural purposes by the Minister of Agriculture and Fisheries or by the War Agricultural Executive Committee as defined by section thirty of the Agriculture (Miscellaneous War Provisions) Act, 1940, being work done in the course of the cultivation of that land or work done wholly or mainly for the improvement of that land for agricultural purposes, shall not be treated as government war work.

14 Duration of powers under Part II.

- (1) The powers conferred by this Part of this Act shall only be exercisable if the relevant agreement to buy, notice to treat or order has been made or served before the expiration of two years from the end of the war period, or if notice of proposals for the exercise of those powers has been published in accordance with the provisions of this Part of this Act before the expiration of two years from the end of the war period.

- (2) Without prejudice to the provisions of subsection (1) of this section, any right to acquire land by virtue of this Part of this Act which arises by reason of anything done on land while in the possession of a Minister or of a person who is occupying or using it under the authority of a Minister shall not be available when the land on which the thing was done is no longer in the possession of any Minister or any such person:

Provided that this subsection shall not apply where an undertaking given under this Part of this Act to take steps for the rehabilitation of land is not carried out.

- (3) Notwithstanding anything in the preceding provisions of this section, the power to discharge or modify any restriction as to the user of land or as to building thereon may, where the land is being acquired by virtue of this Part of this Act, be exercised at any time so long as notice of proposals in that behalf is published in accordance with the provisions of this Part of this Act, or the order is made, before the completion of the acquisition of the land.

- (d) land, which, at the date of the notice to treat, is, by virtue of an exercise of emergency powers, in the possession of or in use for the purposes of a drainage board, is compulsorily acquired by that board,

and, subject to the adaptations specified in this Part of this Act, shall also have effect where compensation is payable on the discharge or modification of a restriction under Part II of this Act or on the acquisition under the Defence Acts of an easement over or right restrictive of the user of land.

41 Elimination of value due to government war work, and &c.

- (1) Subject to the provisions of this section, in assessing the compensation such adjustment shall be made therein (so far as it depends on the value or changes in the value of any land) as is necessary to offset any increase or diminution of the compensation attributable directly or indirectly to, or to a combination of, any of the following factors, that is to say—
- (a) any damage occurring to the land acquired or any contiguous or adjacent land while the land acquired was, during the war period, in the possession of a Minister or of a person occupying or using it under the authority of a Minister;
 - (b) any work done at any time since the beginning of the war period on the land acquired or any contiguous or adjacent land by or by arrangement with a Minister or the acquiring authority or combination of authorities or in the exercise of emergency powers;
 - (c) any prohibition or restriction imposed in the exercise of emergency powers on the doing of any work on the land acquired or on any contiguous or adjacent land:

Provided that, in assessing any compensation for injurious affection of land other than the land acquired, account may, notwithstanding anything in this subsection, be taken of the actual state and circumstances of the land acquired as existing at the date of the notice to treat in so far as they may be expected to persist after the purchase.

- (2) Subject to the provisions of this section, where any such work as is mentioned in paragraph (b) of subsection (1) thereof was done wholly or partly at the expense of, or in pursuance of an agreement with, any person having an interest in the land acquired, any increase of value attributable to the expenditure incurred by, or consideration moving from, that person shall, notwithstanding anything in the said subsection (1), be taken into account in assessing the compensation payable in respect of that interest.
- (3) Where, in connection with any previous proposal to acquire any of the land acquired, a payment in respect of the value of any works has been made to a Minister under Part II of this Act in pursuance of a report of the Commission, any increase of value attributable to the construction of the works shall, notwithstanding anything in subsection (1) of this section, be taken into account in assessing any compensation payable in respect of the land.
- (4) Paragraph (b) of subsection (1) of this section shall not apply to work done, under such circumstances that a payment of cost of works falls to be made in respect thereof, for making good war damage, unless that war damage is such damage as is mentioned in paragraph (a) of that subsection:

Provided that where the work done included alterations or additions and the cost thereof was greater than the permissible amount in relation to a payment of cost of works, such deduction, if any, as may be just shall be made from the compensation in respect of the additional value, if any, of the land ascribable to the excess.

- (5) Where the land acquired or any contiguous or adjacent land consists of or includes the whole or any part of a hereditament which has suffered war damage, and a payment falls to be made under the War Damage Act, 1943, in respect of that damage—
 - (a) paragraph (a) of subsection (1) of this section shall not apply to so much of that damage as has not been made good at the date of the notice to treat; and
 - (b) where section seventeen of the War Damage Act, 1943 (which provides that value payments in the case of requisitioned land are to be computed by reference to the state of the land before the requisition) applies, subsection (1) of this section shall not apply to any change (whether for the better or the worse) occurring in the hereditament in question which, under the said section seventeen, affects the amount of the value payment.
- (6) In the last two preceding subsections, expressions have the same meanings as they have for the purposes of Part I of the War Damage Act, 1943.
- (7) The preceding provisions of this section shall not apply in relation to any such supplement to compensation as is provided for in Part II of the Town and Country Planning Act, 1944, but, in considering whether, in the case of any interest in land, any such supplement can be made and, if so, what can and should be the amount thereof, any changes in the land attributable directly or indirectly to, or to a combination of, any of the factors mentioned in subsection (1) of this section shall, to such extent as is reasonable in the case of that interest, be left out of account.
- (8) The preceding provisions of this section shall apply to compensation for the acquisition of an easement or restrictive right or for the discharge or modification of a restriction subject to the following adaptations, that is to say—
 - (a) for the references to the land acquired there shall be substituted references to the land the value of which is diminished by the acquisition, discharge or modification; and
 - (b) the proviso to subsection (1) shall not apply; and
 - (c) the last preceding subsection shall not apply, and for the purposes of Part II of the Town and Country Planning Act, 1944, the compensation shall be treated as if it were compensation for damage sustained, within the period of five years from the commencement of that Act, by reason of land being injuriously affected by the execution of works,

42 Adjustment where compensation paid or payable under Compensation (Defence) Act, 1939, or otherwise.

- (1) Such adjustment shall be made in any compensation to which this Part of this Act applies as may be just having regard to any payment of, or right to, compensation by reason of the exercise of emergency powers.
- (2) Any such adjustment may, if the arbitrator thinks fit, take the form of a direction that the compensation to which this Part of this Act applies which is payable to any person shall be wholly or partly -conditional on his relinquishing, to such extent as is specified in the direction,' any right to compensation by reason of the exercise of emergency powers.

Status: This is the original version (as it was originally enacted).

43 Forfeitures.

Where by reason of the exercise of emergency powers any interest in land has become or might become forfeited or liable to forfeiture, any compensation to which this Part of this Act applies shall be determined as if no such forfeiture or liability to forfeiture had arisen or might arise.

44 Repeal of certain provisions of Agriculture (Miscellaneous Provisions) Acts, 1941 and 1943.

Subsections (3) and (4) of section nine of the Agriculture (Miscellaneous Provisions) Act, 1941, paragraph 3 of the Fourth Schedule to that Act, and paragraphs 3 and 4 of the Second Schedule to the Agriculture (Miscellaneous Provisions) Act, 1943 (being provisions applicable to compulsory purchases of land under those Acts which are rendered superfluous by the provisions of Part II of the Town and Country Planning Act, 1944, and this Part of this Act), are hereby repealed.

PART IX

45 Increase in rental compensation under s. 2 of Compensation (Defence) Act, 1939.

- (1) Where, before the passing of this Act, possession has been taken of any land in the exercise of emergency powers and the compensation payable in respect, thereof under paragraph (a) of subsection (1) of section two of the Compensation (Defence) Act, 1939, has (whether by agreement or otherwise) been determined by reference to a level of rental Values which is both—
- (a) less than that obtaining in respect of comparable land on the thirty-first day of March, nineteen hundred and thirty-nine; and
 - (b) less than the level of rental values obtaining in respect of comparable land on the appointed day,

any compensation payable under the said paragraph in respect of the taking of possession of the land which accrues on or after -the appointed day shall be determined by reference to the level of rental values obtaining in respect of comparable land on the said thirty-first day of March or that obtaining in respect thereof on the appointed day, whichever is the lower, and the compensation shall be determined accordingly:

Provided that this section shall not apply in relation to any land unless, not later than six months after the appointed day or after the end of the period for which possession of the land is retained in the exercise of emergency powers, whichever is the later, a person who, as at some date not earlier than the appointed day, would be entitled to occupy the land but for the fact that possession thereof is or was so retained, gives notice in such form and manner and to such authority as may be prescribed by rules made by the Treasury under the said Act that he desires that this section should apply in relation to the land.

- (2) In this section the expression " the appointed day " means such day (not later than the end of the war period) as the Treasury may appoint.

Status: This is the original version (as it was originally enacted).

46 Effect on compensation of reservation of rights under Part VI.

Where any land is in the possession of a Minister or of a person occupying or using it under the authority of a Minister and the Minister by a notice served in accordance with the provisions of Part VI of this Act reserves his rights thereunder to remove works constructed or things placed on, over or below the surface of the land or to do other work for the purpose of restoring the land

- (a) on the land ceasing to be in the possession of a Minister or person occupying or using it under the authority of a Minister,; compensation shall not be payable under paragraph (b) of subsection (1) of section two of the Compensation (Defence) Act, 1939, in respect of the damage, if any, done to the said land; but
- (b) the provisions of section three of the said Act shall apply as if the damage had been damage to the land by work done thereon in the exercise of emergency powers while it was not in the possession of a Minister or person occupying or using it under the authority of a Minister.

47 Compensation under s. 2 of Compensation (Defence) Act, 1939, for removal of fixed machinery or plant.

Where the damage in respect of which a sum falls, or would but for this section fall, to be paid under paragraph (b) of subsection (1) of section two of the Compensation (Defence) Act, 1939, consists wholly or in part of the removal of fixed machinery or plant, such reduction, if any, in that compensation shall be made as may appear to the General Claims Tribunal to be just having regard to the way in which the machinery or plant has in fact been dealt with, the likelihood of the machinery or plant being in fact replaced on the land and the reasonableness of replacing it thereon, and any other circumstances which , may appear to the Tribunal to be relevant:

Provided that nothing in this section shall authorise the making of any reduction if the making thereof would be inconsistent with any provision of any such agreement as is mentioned in section fifteen of the said Act.

48 Successive works to be dealt with as one.

- (1) For the purposes of section three of the Compensation (Defence) Act, 1939, the doing on any land of work to which that section applies, or would apply if the annual value of the land were diminished by reason of the doing of the work, shall be treated as a single operation with the doing of any other such work (whether before or after) except—

Provided that the power to vary awards conferred by this subsection shall not apply to any award made before the passing of this Act in respect of any land, unless (whether before or after the passing of this Act) further work to which the said section three

applies has been done on that land since the doing thereon of the latest work to which any such award relates.

- (2) Where during the war period any works have been constructed or other thing placed in, on or over any land by or by arrangement with a Minister otherwise than in the exercise of emergency powers, then, unless it has been expressly agreed that the Crown is to have no interest in the works or thing so constructed or placed, or the works or thing have or has been so constructed or placed in the exercise of powers conferred by any Act, the preceding subsection shall have effect as if the construction or placing were work done on the land in the exercise of emergency powers.

49 Lump sum compensation under s. 3 of Compensation (Defence) Act, 1939.

Subsection (6) of section three of the Compensation (Defence) Act, 1939 (which directs that in assessing compensation under that section it shall be assumed that the land cannot be restored to the condition in which it would be but for the doing of the work) shall not apply, and shall be deemed never to have applied, to compensation under subsection (4) thereof (which provides for the payment of a lump sum where the land is not restored by the Crown).

50 Definition of work done on land.

no Minister, local authority or combination of local authorities shall, by reason only of the construction of the works, be entitled as against that person, or as against any successor in title of his to any interest in that land to which he was entitled when the agreement was made, to acquire the land or any interest in or rights over that land compulsorily under Part II or Part V of this Act, if the acquisition thereof would defeat that provision of that agreement.

(3) Where, whether before or after the commencement of this Act and in connection with the construction of any government war works on any land, an undertaking in writing that the works shall be removed or the land restored has, whether during, before or after the time of the construction thereof, been given by or on behalf of any Minister to any society or body concerned with the preservation of amenities enjoyed by the public or to any local authority, no Minister, local authority or combination of local authorities shall, by reason only of the construction of the works, be entitled to acquire the land or any interest in or rights over that land under Part II or Part V of this Act without the consent of that society or body or authority.
