EXPLANATORY NOTE

(This Note is not part of the Regulations.)

Under section 38 of the National Health Service Act 1946 Executive Councils were required to make arrangements for the supply to persons receiving general dental services of drugs and medicines prescribed by regulations. Section 23 of the Health Services and Public Health Act 1968 amended this section so as to provide for the supply to such persons of drugs and medicines included in a list for the time being approved for the purposes of the said section 38 by the Secretary of State. Under section 44(1)(b) of the Act of 1946 charges could be imposed, if it was established that the repair or replacement of dental appliances was necessitated by lack of care by the person supplied. Section 39 of the Act of 1968 amended this section so as to apply it where there was an act or omission of the person supplied, or, if he was under 16 years of age, of the person having charge of him.

These regulations amend the National Health Service (General Dental Services) Regulations 1967 and the National Health Service (General Medical and Pharmaceutical Services) Regulations 1966 in consequence of the above-mentioned amendments. They also provide for a new scale of remuneration for salaried dental practitioners, provide that copies of the dental list are to be sent to the Secretary of State only on request by him, make minor amendments to the conditions with respect to materials used by dental practitioners and make other minor amendments.
