1972 No. 1413

ANIMALS

DISEASES OF ANIMALS

The Diseases of Animals (Approved Disinfectants) Order 1972*Made* - - - 19th September 1972*Coming into Operation* 10th October 1972

The Minister of Agriculture, Fisheries and Food in exercise of the powers vested in him by sections 1(1), 20(viii) and (ix) and 85(1) of the Diseases of Animals Act 1950(a) (as read with the Transfer of Functions (Animal Health) Order 1955(b)) and all other powers enabling him in that behalf as respects the alteration by this order of the Tuberculosis Order 1964(c), the Secretary of State in exercise of the powers vested in him by the before mentioned provisions and all other powers enabling him in that behalf as respects the alteration by this order of the Tuberculosis (Scotland) Order 1964(d), and (save for such alterations as aforesaid) the Minister of Agriculture, Fisheries and Food and the Secretary of State acting jointly, in exercise of the powers vested in them under sections 1(1), 11(vi) and (vii), 20(viii) and (ix), 50(1) and 85(1) of the Diseases of Animals Act 1950 (as read with the Transfer of Functions (Animal Health) Order 1955) and all other powers enabling them in that behalf, hereby order as follows:—

Citation, extent and commencement

1. This order, which may be cited as the Diseases of Animals (Approved Disinfectants) Order 1972 shall apply to Great Britain and shall come into operation on 10th October 1972.

Interpretation

2.—(1) In this order, unless the context otherwise requires, the following expressions have the meanings hereby respectively assigned to them—

“the Act” means the Diseases of Animals Act 1950;

“dilution rate” means the number of parts of water with which one part of an approved disinfectant is to be diluted;

“general order” means an order made under the Act by the Minister of Agriculture, Fisheries and Food or by the Secretary of State or by the said Minister and the Secretary of State acting jointly (other than this order or an order hereinafter defined as a special disease order) or an order or regulation of a local authority made thereunder;

“inspector” has the meaning assigned to it by section 84(4) of the Act;

“the Minister” means the Minister of Agriculture, Fisheries and Food and the Secretary of State acting jointly;

“Schedule” means the Schedule to this order;

(a) 1950 c. 36. For change of title of the Minister see S.I. 1955/554 (1955 I, p. 1200).

(b) S.I. 1955/958 (1955 I, p. 1184). (c) S.I. 1964/1151 (1964 II, p. 2634).

(d) S.I. 1964/1109 (1964 II, p. 2463).

“special disease order” means an order specifically referred to in the heading of Part I, Part II or Part III of the Schedule.

(2) The Interpretation Act 1889(a) applies to the interpretation of this order as it applies to the interpretation of an Act of Parliament, and as if this order and the orders hereby revoked were Acts of Parliament.

References to disinfectants in special disease orders and general orders

3.—(1) For the purposes of this order, and subject to the provisions of paragraph (4) of this article, an approved disinfectant means a disinfectant for the time being listed as approved by the Minister (in respect of any special disease order or a general order) in column 1 of any Part of the Schedule.

(2) In any special disease order any reference to a disinfectant or an approved disinfectant shall be construed as a reference to any disinfectant for the time being listed in column 1 of the Part of the Schedule in the heading of which specific reference is made to the special disease order.

(3) In any general order any reference to a disinfectant or an approved disinfectant shall be construed as a reference to a disinfectant for the time being listed in column 1 of Part IV of the Schedule.

(4) An approved disinfectant listed in the Schedule shall remain an approved disinfectant until deleted from the Schedule by subsequent order of the Minister.

Dilution

4. An approved disinfectant shall be used for the purposes of any order specified in the heading of any part of the Schedule only when diluted with water at the dilution rate specified in respect of that disinfectant in column 2 of the same part of the Schedule.

Provided always that the dilution rate so specified in respect of any approved disinfectant may be varied at any time for any particular act or acts of disinfection by notice given under Article 6 of this order.

Testing of Disinfectants

5.—(1) The Minister may test any disinfectant submitted to him by any person for the purpose of having such disinfectant listed as approved in the Schedule in respect of—

- (a) the efficacy of such disinfectant for use under the provisions of any special disease order or general order in respect of which approval of the disinfectant is sought; and
- (b) the physical stability of such disinfectant when diluted, and the identity and the amount of its active constituents.

(2) For the purpose of conducting the tests specified in paragraph (1) of this Article, the Minister may require such samples as he considers necessary of any disinfectant and its ingredients submitted to him to be supplied by the person submitting the disinfectant, together with such information concerning the said disinfectant and its ingredients as the Minister may require, and an application for the listing of any disinfectant as approved for the purposes of this order shall be made in a form prescribed by the Minister.

Application of Approved Disinfectants

6.—(1) An inspector may, in respect of any act of disinfection required to be carried out under any special disease order or any general order, by notice served on the person by whom disinfection is to be carried out, specify the mode of disinfection to be adopted, including in particular the dilution rate at which the approved disinfectant is to be applied.

(2) The requirements contained in any such notice shall (except where the notice otherwise provides) be in addition to and not in derogation of the requirements of this order or of the orders referred to in paragraph (1) of this Article.

(3) Failure by a person on whom any such notice is served to comply with the requirements thereof shall be an offence against the Act.

Labelling

7. Every container in which any approved disinfectant is sold or offered or exposed for sale which is marked with any label, statement or other indication that the disinfectant contained is an approved disinfectant shall in addition be clearly marked with a label in a form approved by the Minister and including such particulars as the Minister may require, including—

- (a) if the approved disinfectant is listed in column 1 of Part IV of the Schedule, a statement that the use of the approved disinfectant is authorised in respect of general orders made under the Act, and a statement of the dilution rate specified in the Schedule as appropriate in the case of general orders;
- (b) if the approved disinfectant is listed in column 1 of any other Part of the Schedule, the name of the special disease order for the purposes of which the use of the approved disinfectant is authorised, and the dilution rate specified in the Schedule as appropriate in the case of such special disease order;
- (c) in the case of an approved disinfectant tested in accordance with the provisions of Article 5 of this order, a statement that the approved disinfectant contained is of the same quality and composition as the sample submitted to the Minister under the provisions of Article 5 aforesaid.

Sampling of Disinfectants

8. Where under any special disease order or general order the use of a disinfectant or of an approved disinfectant is required, the person using the disinfectant shall if so required by an inspector, furnish him with a sample of the disinfectant used, or permit him to take such sample, and so furnish the inspector with all such particulars as may be reasonably required as to the name and composition of the disinfectant used.

Offences

9. If any person falsely marks or causes or permits to be falsely marked any container of disinfectant with a label, statement or other indication that the disinfectant contained therein is an approved disinfectant for the purpose of this order or has been listed as approved by the Minister in this Order, or (being an approved disinfectant so listed after the Minister has tested a sample of it under the provisions of Article 5 hereof) is of the same quality and composition as the said sample submitted to the Minister, he shall be guilty of an offence against the Act.

Revocation

10. The Diseases of Animals (Approved Disinfectants) Order 1970(a) and the Diseases of Animals (Approved Disinfectants) (Amendment) Order 1972(b) are hereby revoked.

Transitional Provisions

11. Notwithstanding the preceding provisions of this order, it shall be lawful until 16th August 1973 to use for the purposes of any special disease order or general order in which a reference to a disinfectant or an approved disinfectant occurs any disinfectant previously listed in Part I, II, III or IV of the Schedule to the Diseases of Animals (Approved Disinfectants) Order 1970 which it was lawful to use for such purposes immediately before the coming into operation of this order.

In Witness whereof the Official Seal of the Minister of Agriculture, Fisheries and Food is hereunto affixed on 13th September 1972.

(L.S.)

J. M. L. Prior,

Minister of Agriculture, Fisheries and Food.

Gordon Campbell,

Secretary of State for Scotland.

19th September 1972.

SCHEDULE

PART I

Disinfectants approved by the Minister in respect of the Foot-and-Mouth Disease Order of 1928, as amended (c) and the Foot-and-Mouth Disease (Infected Areas Restrictions) Order of 1938(d) as amended(e).

EXPLANATORY NOTE

(This Note is not part of the Order.)

This order revokes and re-enacts with amendments the Diseases of Animals (Approved Disinfectants) Order 1970 (as amended by the Diseases of Animals (Approved Disinfectants) (Amendment) Order 1972).

The order sets out in the Schedule separate lists of disinfectants approved by the Minister and the Secretary of State in relation to orders under the Diseases of Animals Act 1950 dealing with Foot-and-Mouth Disease, Fowl Pest and Tuberculosis and other orders under that Act which require the use of an approved disinfectant, and provides that references in any such order to the use of an approved disinfectant are to be taken as references to the disinfectants listed in the Schedule as approved in relation to the order concerned.

The rate at which an approved disinfectant is to be diluted with water in general circumstances is also specified, but provision is made for this rate to be varied in particular cases by written notice given by an inspector of the Minister or of the local authority.

Other provisions include a requirement for containers marked as containing an approved disinfectant to carry a label with particulars of the dilution rate at which the disinfectant is to be used in general circumstances and the special or general disease orders in relation to which the use of the disinfectant is approved etc.
