GOVERNMENT ANNUITIES

The Government Annuity Tables Order 1975

<i>Made - - - -</i>	21st April 1975
<i>Laid before Parliament</i>	6th May 1975
<i>Coming into Operation</i>	27th May 1975

Whereas it appears to the Treasury that the annuity tables in force for the purposes mentioned in section 33(3) of the Finance Act 1962(a) have ceased to be appropriate or sufficient for calculating the sum for which an annuity might have been purchased when the average price of £100 $2\frac{1}{2}$ per cent. Consolidated Stock is less than £19 $\frac{1}{4}$:

Now, therefore, the Treasury, in exercise of the powers conferred on them by section 33(4) of the Finance Act 1962 and of all other powers enabling them in that behalf, hereby make the following Order:—

1. This Order may be cited as the Government Annuity Tables Order 1975, and shall come into operation on 27th May 1975.
2. The Interpretation Act 1889(b) shall apply for the interpretation of this Order as it applies for the interpretation of an Act of Parliament.
3. For the Tables set out in Schedule 1 to the Government Annuity Tables Order 1974(c) (which show the purchase price of an annuity when the average price of £100 $2\frac{1}{2}$ per cent. Consolidated Stock is less than £19 $\frac{1}{4}$ but not less than £14 $\frac{1}{2}$) there shall be substituted the Tables set out in Schedule 1 to this Order (which show the purchase price of an annuity when the average price of £100 $2\frac{1}{2}$ per cent. Consolidated Stock is less than £19 $\frac{1}{4}$ but not less than £14).
4. The rules observed in framing the new tables substituted by article 3 above are set out in Schedule 2 to this Order.

James A. Dunn,
Donald R. Coleman,
Two of the Lords Commissioners
of Her Majesty's Treasury.

21st April 1975.

(a) 1962 c. 44.

(b) 1889 c. 63.

(c) S.I. 1974/1935 (1974 III, p. 6663).

Article 3

SCHEDULE 1

Tables showing the sum for which an immediate life annuity of £1, payable quarterly, could have been bought under Part II of the Government Annuities Act 1929 (c. 29) if the power to grant such annuities had not been terminated by section 33(1) of the Finance Act 1962 (c. 44).

In the tables below "age last birthday" means the age in completed years, at the time of the notional purchase of the annuity, of the person upon whose life the annuity is to depend.

TABLE C.401

Cost of an immediate life annuity of £1, payable quarterly, when the average price of £100 of 2½ per cent. Consolidated Stock is £14 or between 14 and £14 ¹/₈

SCHEDULE 2

Rules observed in framing the new tables set out in Schedule 1

The tables set out in Schedule 1 to this Order are based on an investigation into the mortality of life office annuitants during the period 1921-1948 by the Joint Continuous Mortality Investigation Committee of the Institute of Actuaries and the Faculty of Actuaries and published in their *Journal* and *Transactions* respectively. Subsequently the rates of mortality for ages 20 and above, allowing for improvement of mortality related to an annuity purchased in 1955, together with monetary functions at various rates of interest were published on behalf of the Institute and Faculty in a series of separate volumes entitled "The $\alpha(55)$ tables for annuitants". The tables set out in Schedule 1 have been adapted from the $\alpha(55)$ tables to allow for the payment of quarterly instalments of annuity; no loading has been added to provide for any expenses that might have been incurred by the National Debt Commissioners in connection with the grant and payment of each annuity if the Commissioners were to resume the granting of such annuities.

The rates of mortality at ages below 20 have been calculated by reference to the relationship between the mortality of life office annuitants above that age and that of the population of England and Wales in 1950-52; the latter was investigated by the Government Actuary in a report dated 13th September 1956 and published as a Stationery Office publication.

EXPLANATORY NOTE

(This Note is not part of the Order.)

Section 33 of the Finance Act 1962 terminated the power to grant annuities under the Government Annuities Act 1929 except in special cases, but the government annuity tables, which had been used primarily to calculate these annuities, and were also used to determine certain other payments, were kept in force, and the Treasury were given power to add and substitute new tables.

The tables set out in Schedule 1 to the Government Annuity Tables Order 1974, which apply when the average price of £100 $2\frac{1}{2}$ per cent. Consolidated Stock is less than £19 $\frac{1}{4}$ but not less than £14 $\frac{1}{2}$, have been found to give rise to certain anomalies, and accordingly this Order substitutes for them the tables set out in Schedule 1 to this Order. At the same time new tables are added to apply when the average price of £100 $2\frac{1}{2}$ per cent. Consolidated Stock is less than £14 $\frac{1}{2}$ but not less than £14.
