2. The Council shall design and carry out the works contained in any programme made under paragraph 1 provided that the said works may be designed and carried out by the transferee authority, in accordance with the provisions of the programme, with the consent of the Council where it appears to the Council that this is expedient.

## SCHEDULE 3

Article 22

HOUSING GRANTS AND SUBSIDIES PAYABLE  
IN RESPECT OF TRANSFERRED PROPERTY

1. Nothing in article 4 shall affect grant or subsidy receivable by the Council in respect of housing accommodation transferred by this order.

2.—(1) Where there is, in respect of transferred property, loan debt outstanding and incurred before 1st April 1972, and where, for the purpose of determining any element of housing subsidy under the Housing Rents and Subsidies Act 1975, except the high costs element, payable to the Council in any year, the said property is treated by the Secretary of State as if it had not been transferred by this order, then the Council shall pay to the appropriate transferee authority in respect of the year in question a sum which bears the same relationship to the annual loan charges payable in that year on the said outstanding loan debt as that part of the total annual subsidy income of the Council for that year which is, as determined under sub-paragraph (3), for the purposes of this sub-paragraph, deemed to relate to loan debt outstanding and incurred before 1st April 1972, bears to the total annual loan charges payable in the said year by the Council on its housing revenue account in respect of loan debt outstanding and incurred before 1st April 1972.

(2) Where there is, in respect of transferred property, loan debt outstanding and incurred on or after 1st April 1972, and where, for the purposes of determining any element of housing subsidy under the Housing Rents and Subsidies Act 1975, except the high costs elements payable to the Council in any year, the said property is treated by the Secretary of State as if it had not been transferred by this order, then the Council shall pay to the appropriate transferee authority in respect of the year in question a sum which bears the same relationship to the annual loan charges payable in that year on the said outstanding loan debt as that part of the total annual subsidy income of the Council for that year which is, as determined under sub-paragraph (3), for the purposes of this sub-paragraph, deemed to relate to loan debt outstanding and incurred on or after 1st April 1972, bears to the total annual loan charges payable in the said year by the Council on its housing revenue account in respect of loan debt outstanding and incurred on or after 1st April 1972.

(3) In calculating the part of the total annual subsidy income of the Council for any year for the purposes of sub-paragraphs (1) and (2) it shall be assumed—

- (a) that the total income of the Council in that year from the elements of housing subsidy referred to in those sub-paragraphs is exclusively allocated against the loan charges incurred by the Council on its housing revenue account in that year; and
- (b) that the relationship between the said assumed amounts of subsidy and the said loan charges is such that the same relationship applied in respect of all loan charges relating to debt outstanding and incurred before 1st April 1972 and a higher relationship applies in respect of all loan charges relating to debt outstanding and incurred on or after 1st April 1972, the said relationships being either in the ratio 1:2 or in such other ratios as may be agreed between the Council and any bodies appearing to the Council to represent the transferee authorities;

provided that in assessing for the purposes of this paragraph, the total annual subsidy income of the Council for any year, no regard shall be had to any reduction of such income resulting from the demolition or disposal—

- (i) by a transferee authority, of any houses on transferred property; or
- (ii) by the Council, of any houses on property not so transferred.

The amount of any such reduction shall be allocated specifically to the authority whose houses have been so demolished or disposed.

(4) If, for the purpose of determining the Council's entitlement to one or more of the elements of housing subsidy (other than the high costs element), the Secretary of State ceases to treat any transferred property as if it had not been transferred, then the method of calculating the amount, if any, of the subsidy received by the council in respect of the remaining elements of housing subsidy which is payable to any transferee authority under this paragraph shall be such as may be agreed between the Council and any body appearing to the Council to represent transferee authorities.

(5) The Council shall pay to a transferee authority any improvement contributions or other exchequer subsidy, other than elements of housing subsidy received by the Council under the said Act of 1975, received by the Council in respect of the property transferred by this order to that authority in respect of any period after the relevant date in relation to that property.

(6) Payments by the Council to a transferee authority under this paragraph shall be of such amounts and at such times each year as may be agreed between the Council and the transferee authority.

3.—(1) If at any time after the coming into operation of this order in the opinion of the Council or of any transferee authority, being a London borough council, circumstances arise (other than the passing of an enactment) which significantly affect the arrangements contained in this Schedule, the Council or the authority (as the case may be) may notify the transferee authorities which are London borough councils or the Council and the other transferee authorities which are London borough councils (as the case may be) that the said arrangements should be reviewed.

(2) On the giving (or receiving) of a notification under sub-paragraph (1) the Council in consultation with any transferee authority which gave the said notification and with any body appearing to the Council to represent transferee authorities which are London borough councils shall review the said arrangements and other arrangements may be agreed or in default of agreement determined by the Secretary of State.

## SCHEDULE 4

Article 23

### PAYMENTS IN RESPECT OF NET REVENUE COST OF TRANSFERRED PROPERTY

## PART I

### PROVISIONS APPLYING TO A TRANSFEREE AUTHORITY WHICH IS A LONDON BOROUGH

1.—(1) Subject to paragraph 5, in respect of the financial year 1980/81 the Council shall pay to each transferee authority the net cost (if any) for that year in respect of the property transferred by this order to the transferee authority;

provided that notwithstanding the provisions of paragraph 3(1) the net cost for the purpose of this paragraph shall be calculated also to take account of:—

- (a) those dates not later than 31st March 1981 which may as respects property to which this order relates be the relevant date for its transfer,
- (b) any particular circumstances affecting the housing, assets and liabilities of the Council immediately before the relevant date which are agreed between the Council and any body appearing to the Council to represent transferee authorities to have a significant effect on the housing assets and liabilities of transferee authorities after the relevant date, and

- (c) the costs agreed to have been reasonably incurred by any transferee authority arising from the initial assumption by such an authority of repair, maintenance or management of the property transferred to them by this order although no such said costs as aforesaid shall be so taken into account insofar as they may arise after a date six months following the relevant date in respect of any such property.

(2) Subject to paragraph 5, in respect of the financial year 1981/82 and each succeeding year thereafter the Council shall pay to each transferee authority the net cost (if any) in respect of the property transferred by this order to that transferee authority.

(3) If so requested by a transferee authority, the Council shall pay to that authority in any year a sum equal to the cost falling upon the rate fund of that authority of granting rent rebates under the Housing Finance Act 1972 to tenants of property transferred to that authority by this order.

2. Payments under this Schedule shall be made by the Council in such instalments and at such times each year as shall be agreed between the Council and the transferee authority;

provided that sums paid by the Council to a transferee authority under paragraph 1(3) shall be fully reimbursed to the Council by the transferee authority either by means of deductions from payments made by the Council under paragraph 1(1) and (2) or, if no such payments are due from the Council, or if any such deductions are insufficient to achieve such reimbursement, by means of payments to the Council from the housing revenue account of the transferee authority.

3.—(1) In this Schedule ‘net cost’ for any year and in respect of any property means an amount comprising the loan charges less any grants or subsidies (other than rent rebate subsidy) attributable to such property in that year and payable to the transferee authority direct or to that authority by the Council pursuant to Schedule 3 to this order, plus the costs of management and maintenance as defined in sub-paragraph (2) less the rent as so defined; provided that in this sub-paragraph subsidies shall be calculated so as—

- (a) to take account of any change consequential upon the operation of this order in the amount of the high costs element of subsidy receivable by a transferee authority pursuant to the Housing Rents and Subsidies Act 1975; but
- (b) to take no account of any reduction in subsidy resulting from the demolition or disposal by a transferee authority of any houses on the transferred property.

(2) In this paragraph—

“loan charges” mean the liabilities assumed by the transferee authority in respect of the year in question under article 20;

“costs of management and maintenance” means, for the financial year 1980/81, the estimated amount of those costs in respect of the transferred property as determined by the Council on the basis that the property transferred by this order had not been so transferred, but taking into account also the matters set out in paragraph 4, and, in respect of subsequent years, that amount as varied by any increase specified from time to time by the Secretary of State for the purpose of calculating the high costs element of housing subsidy under the Housing Rents and Subsidies Act 1975; and

“rents” means, for the financial year 1980/81, all the estimated income deducting subsidies (other than rent rebate subsidy) and also deducting rate fund contributions in respect of the transferred property as determined by the Council on the basis that the property transferred by this order had not been so transferred, and, in respect of subsequent years, the amount of that income as varied by any increase in rents determined from time to time by the Secretary of State for the purpose of calculating the said high costs element of housing subsidy.

4. The matters which shall be taken into account in arriving at an amount of costs of management and maintenance in paragraph 3 shall be—

- (a) the needs of transferee authorities after 1st April 1980 for office and other accommodation ancillary to the management and maintenance of property transferred by this order and the amounts of such accommodation so transferred;
- (b) the costs agreed to have been incurred by transferee authorities or any of them upon the operation of the provisions of Schedule 1 to this order; and
- (c) any steps taken by the Council in conjunction with persons in their employment and affected by this order to facilitate the reduction of potential costs of repair, maintenance or management of property transferred by this order.

5.—(1) If, as a consequence of the disposal by a transferee authority of any property transferred to that authority by this order, the transferee authority is in receipt of any capital sum, that sum shall first be applied to offset the loan debt (if any) outstanding in respect of that property.

(2) Except in the case of a disposal or appropriation falling within sub-paragraph (3), where a transferee authority disposes of, or appropriates, any property transferred to that authority by this order, then an amount (provided that it is not a negative sum) representing the part of the payment to be made to that authority by the Council under this paragraph which (as determined by the Council in consultation with the said transferee authority) relates to the said property shall be deducted from the total of any amount payable to that authority under this paragraph in any period from the end of the financial year in which the sale or appropriation took place.

- (a) (3) (a) Where a transferee authority disposes of, or appropriates, any property transferred to that authority by this order and the disposal price or appropriation value is below the amount of the loan debt outstanding on that property at the time of the disposal or appropriation, then, provided the amount of any residual loan charges payable in respect of the said property in any year is equal to or less than an amount which represents the part of the payment to be made to that authority by the Council under this Schedule relating to the said property and which would have been payable had the disposal or appropriation not taken place, the Council shall be liable for the said residual loan charges.
- (b) In this paragraph “residual loan charges” means such part of loan charges (which part shall be determined by the Council in consultation with the transferee authority) payable in respect of the property in question as would remain to be met after either the application of any annual mortgage payments made to the transferee authority in respect of the property or by the application of any capital sum received by the transferee authority in respect of the property.

(4) A transferee authority shall provide the Council with sufficient details of the disposal or appropriation of any property transferred to that authority by this order to enable the adjustments described in sub-paragraphs (2) and (3) to be made.

6.—(1) If at any time after the coming into operation of this order in the opinion of the Council or of any transferee authority circumstances arise (other than the passing of an enactment) which significantly affect the terms contained in this Part of this Schedule, the Council or the authority (as the case may be) may notify the transferee authorities or the Council and the other transferee authorities (as the case may be) that the said terms should be reviewed.

(2) On the giving (or receiving) of a notification under sub-paragraph (1) the Council in consultation with any transferee authority which gave the said notification and with any body appearing to the Council to represent transferee authorities shall review the said terms and other terms may be agreed or in default of agreement determined by the Secretary of State.

7.—(1) At the expiry of a period of five years from the coming into operation of this order the Council shall, in consultation with the transferee authorities (or with any body appearing to the Council to represent those authorities), review the arrangements set out in this Part of this Schedule

in the light of the need of any transferee authority, at the time of the review, to continue to receive the payments made by the Council under this Part of this Schedule or under any relevant enactment passed since the coming into operation of this order; and other arrangements may be agreed or in default of agreement settled by arbitration under article 25.

(2) At the expiry of each period of five years succeeding the period referred to in sub-paragraph (1) the Council may, and, if so requested by a transferee authority or any body appearing to the Council to represent transferee authorities, shall carry out a further review of the arrangements set out in this Part of this Schedule; and the provisions of sub-paragraph (1) shall apply in respect of a review under this sub-paragraph as they apply to the review under that sub-paragraph.

## PART II

### PROVISIONS APPLYING TO A TRANSFEREE AUTHORITY WHICH IS A DISTRICT COUNCIL

1. Subject to paragraphs 8 and 9, in respect of the financial year 1980/81 the Council shall pay to each transferee authority the forecast net revenue cost (if any) for that year in respect of the property transferred by this order to the transferee authority;

provided that notwithstanding the provisions of paragraph 6(1) the forecast net revenue cost shall be calculated also to take account of:—

- (a) those dates not later than 31st March 1981 which may as respects property to which this order relates be the relevant date for its transfer;
- (b) any particular circumstances affecting the housing assets and liabilities of the council immediately before the relevant date which are agreed between the Council and any body appearing to the Council to be representative of transferee authorities to have a significant effect on the housing assets and liabilities of transferee authorities after the relevant date; and
- (c) the costs agreed to have been reasonably incurred by any transferee authority arising from the initial assumption by such an authority of repair, maintenance or management of the property transferred to them by virtue of this order although no such said costs as aforesaid shall be so taken into account insofar as they may arise after a date six months following the relevant date in respect of any such property.

2. Subject to paragraphs 8 and 9, in respect of each of the financial years 1981/82, 1982/83, 1983/84 and 1984/85, the Council shall pay to each transferee authority the forecast net revenue cost (if any) in respect of the property transferred by this order to that transferee authority provided that notwithstanding the provisions of paragraph 6(1) the forecast net revenue cost shall be calculated also to take account of the liabilities of the transferee authority in respect of the years concerned arising from article 20(b).

3. Subject to paragraphs 8 and 9, in respect of the financial year 1985/86 the Council shall pay to any transferee authority such fraction or percentage of the forecast net revenue cost (if any) as may be agreed between the Council and any body appearing to the Council to be representative of the transferee authorities in respect of such property as may be transferred to that authority by this order on a relevant date later than 1st April 1980;

provided that notwithstanding the provisions of the said paragraph 6(1) the forecast net revenue cost shall be calculated also to take account of the liabilities of the transferee authority in respect of the periods concerned arising from article 20(b).

4. In addition to the payments referred to in paragraphs 1 to 3, and if so requested by a transferee authority, the Council shall pay to that authority in any year a sum equal to the cost falling upon the

rate fund of that authority of granting rent rebates under the Housing Finance Act 1972 to tenants of property transferred to that authority by virtue of this order.

5. Subject to paragraph 11, from 1st April 1985, and if so requested by a transferee authority, the Council shall pay to such an authority such sums as may be agreed between that authority and the Council as respects matters to which paragraph 7(a) relates.

6.—(1) For the purpose of this Schedule, ‘forecast net revenue cost’ in respect of the transferred property means an amount (if any) to be determined by the Council in consultation with the appropriate transferee authority, which is derived from deducting the rents and subsidies (less the modified rent rebate subsidy) attributable to that property in the financial year 1980/81, from the loan charges and the costs of management and maintenance payable in respect of that property in the said period; provided that in this sub-paragraph subsidies shall be calculated so as:—

- (a) to take account of any change consequential upon the operation of this order in the amount of the high costs element of subsidy receivable by a transferee authority pursuant to the Housing Rents and Subsidies Act 1975; but
- (b) to take no account of any reduction in subsidy resulting from the demolition or disposal by a transferee authority of any houses on the transferred property.

(2) In this paragraph—

“loan charges” means the liabilities assumed by the transferee authority in respect of the financial year 1980/81 under paragraphs (a) and (b) of article 20 together with the liabilities in respect of the loan debt met directly by the Council in respect of the period (if any) between 1st April 1980 and the relevant dates; and

“costs of management and maintenance” means the estimated amount of those costs in the financial year 1980/81 as determined by the Council on the basis that the property transferred by this order had not been so transferred but taking into account also the matters set out in paragraph 7; and

“rents” means all the estimated income, deducting subsidies (other than the modified rent rebate subsidy) and also deducting rate fund contributions, in respect of the transferred property as determined by the Council on the basis that the property transferred by this order had not been so transferred.

7. The matters which shall be taken into account in arriving at an amount of costs of management and maintenance in paragraph 6 shall be—

- (a) any arrangements which may be made between the Council and any transferee authority or a body appearing to represent transferee authorities relating to the expenditure arising from the employment by a transferee authority of persons previously in the employment of the Council; and
- (b) any steps taken by the Council in conjunction with persons in their employment who are affected by this order to facilitate the reduction of potential costs of repair maintenance or management of property transferred by virtue of this order.

8. Where, for any transferee authority, the sum resulting from the calculation specified in paragraphs 1, 2, 3 and 6 is a negative amount the Council shall not be liable to make any payment to that authority under paragraphs 1, 2 and 3 but the authority shall pay to the Council in respect of each of the periods specified in paragraphs 1, 2 and 3 the amount of the sums represented in the form of the negative amount so calculated in relation to those periods in those paragraphs.

9.—(1) If, as a consequence of the disposal by a transferee authority of any property transferred to that authority by this order, the transferee authority is in receipt of any capital sum, that sum shall be retained by the transferee authority;

provided that the sum shall first be applied to offset the loan debt (if any) outstanding in respect of that property.

(2) In the case of a transferee authority to whom payments are made by the Council under paragraphs 1, 2 and 3, but except in the case of a disposal or appropriation falling within sub-paragraph (3), where the transferee authority in question disposes of, or appropriates, any transferred property, then an amount (provided it is not a negative sum) representing the part of the payment to be made to that authority by the Council under paragraph 1, 2 or 3 which relates to the said property shall be deducted from the total amount payable to that authority under the said paragraphs in any period from the end of the financial year in which the sale or appropriation took place.

(a) (3) (a) Where a transferee authority, to whom payments are made by the Council under paragraphs 1, 2 or 3, disposes of, or appropriates, any transferred property and the disposal price or appropriation value is less than the loan debt outstanding on that property at the time of the disposal or appropriation, then, provided the residual loan charges payable in respect of the said property in any of the periods specified in paragraphs 1, 2 or 3 are equal to or less than an amount representing the part of the payment to be made to that authority by the Council under this Schedule which, as determined by the Council, relates to the said property and which would have been payable had the disposal or appropriation not taken place, the said residual loan charges shall replace the said amount in the payment to be made to that authority under this Schedule.

(b) In this sub-paragraph and in sub-paragraph (5), “residual loan charges” means such part of the loan charges (which part shall be determined by the Council) payable in respect of the property in question as would remain to be met after either the application of any annual mortgage payments made to the transferee authority in respect of the property or by the application of any capital sum received by the transferee authority in respect of the property.

(4) In the case of the transferee authority by whom payments are made to the Council under paragraph 8 but except in the case of a disposal or appropriation falling within sub-paragraph (5), where the transferee authority in question disposes of, or appropriates any transferred property then any amount (provided it is not a negative sum) which, as determined by the Council, had been taken into account in respect of that property in calculating the forecast net revenue cost for the purpose of this Schedule shall be added to the total of any amount payable by that authority in any of the periods specified in paragraph 3, commencing after the end of the financial year in which the disposal or appropriation takes place.

(5) Where a transferee authority, by whom payments are made to the Council under paragraph 8, disposes of, or appropriates, any transferred property and the disposal price or appropriation value is below the amount of the loan debt outstanding on that property at the time of the disposal or appropriation, then, provided the amount of any residual loan charges payable in respect of the said property in any of the periods specified in paragraph 8 is equal to or less than the amount which, as determined by the Council, had been taken into account in respect of that property in calculating the forecast net revenue cost for the purposes of this Schedule, the said residual charges shall replace the said amount taken into account in any payment by that authority under this Schedule.

(6) A transferee authority shall provide the Council with sufficient details of the disposal or appropriation of any property transferred to that authority by this order to enable the adjustments described in sub-paragraphs (2), (3), (4) and (5) to be made.

**10.** Payments under this Schedule shall be made by or to the Council in such instalments and at times in each year as shall be agreed between the Council and the transferee authority;

provided that sums paid by the Council to a transferee authority under paragraph 4 shall be fully reimbursed to the Council by the transferee authority either by means of deductions from payments made by the Council under paragraphs 1, 2 and 3, or, if no payments are due from the Council under

paragraphs 1, 2 and 3, or if any such deductions are insufficient to achieve such reimbursement, by means of payments to the Council from the housing revenue account of the transferee authority.

**11.** Not later than 31st March 1985 the Council shall, in consultation with the transferee authorities (or with any body appearing to the Council to represent those authorities), review the arrangements set out in this Part of this Schedule for the purpose of considering the need of any transferee authority to receive, or to continue to receive, payments from the Council in respect of the transferred property; and where it is agreed between the Council and any transferee authority in consequence of the said review that the financial needs in respect of the transferred property are such that payments should be made to that authority, the Council shall make such payments for such a period and on such terms and conditions as may be agreed.
