EXPLANATORY NOTE

(This Note is not part of the Regulations.)

These Regulations, which come into operation on 1 July 1982, amend the Outward Processing Relief Regulations 1979, in order to provide for the application in the United Kingdom of the provisions of Commission Directive 81/952/EEC (OJ L347, 3.12.1981, p. 32). This Directive establishes uniform rules to be applied in calculating the amount of relief to be granted under Regulation 4(1) of the 1979 Regulations, where either a single or several kinds of compensating product are obtained as a result of processing either a single or several kinds of temporarily exported goods. The amount of the relief is to be calculated according to the quantity of the exported goods used in the production of the compensating products which are reimported, or, when this is not appropriate, according to the value of those products as compared with the total value of all the compensating products obtained.
