10.— (1) In relation to development within any of the categories 2 to 4 specified in the table in Part II of this Schedule, the area of gross floor space to be created by the development shall be ascertained by external measurement of the floor space, whether or not it is to be bounded (wholly or partly) by external walls of a building.

(2) In relation to development within category 2 specified in the said table, where the area of gross floor space to be created by the development exceeds 75 sq metres and is not an exact multiple of 75 sq metres, the area remaining after division of the total number of square metres of gross floor space by the figure of 75 shall be treated as being 75 sq metres.

(3) In relation to development within category 3 specified in the said table, where the area of gross floor space exceeds 540 sq metres and the amount of the excess is not an exact multiple of 75 sq metres, the area remaining after division of the number of square metres of that excess area of gross floor space by the figure of 75 shall be treated as being 75 sq metres.

11.— (1) Where an application or a deemed application relates to development consisting of or including the erection of a building or buildings which it is proposed to use in part for residential purposes and in part for other purposes, the provisions of the following subparagraph shall apply for the purpose of calculating the amount of the fee payable in respect of the application or deemed application.

(2) An assessment shall be made of the total amount of gross floor space which is to be created by the development and which it is proposed to use for purposes other than residential purposes (hereafter in this paragraph referred to as “the non-residential floor space”), and the sum payable in respect of the non-residential floor space to be created by the development (calculated in accordance with the table in Part II of this Schedule) shall be added to the sum payable in respect of the number of dwellinghouses to be created by the development (calculated in accordance with the table in Part II of this Schedule):

Provided that, where any of the buildings is to contain floor space which it is proposed to use for the purposes of providing common access or common services or facilities for persons occupying or using that building for residential purposes and for persons occupying or using it for non-residential purposes

(such floor space being hereafter referred to as "common floor space"), the amount of non-residential floor space shall be assessed, in relation to that building, as including such proportion of the common floor space as the amount of non-residential floor space in the building bears to the total amount of gross floor space in the building to be created by the development.

**12.** Where an application or deemed application relates to development which is within more than one of the categories specified in the table set out in Part II of this Schedule—

- (a) an amount shall be calculated, in accordance with the provisions of this Schedule, in respect of the development which is within each such category (subject to the provisions of paragraph 11 above, where the development to which the application or deemed application relates includes a building or buildings to which subparagraph (1) of that paragraph applies); and
- (b) the highest of the amounts so calculated shall be taken as the amount of the fee payable in respect of all of the development to which the application or deemed application relates.

**13.** In the case of an application for planning permission which is deemed to have been made by virtue of section 88B(3) of the 1971 Act where the breach (or breaches) of planning control alleged in the relevant enforcement notice does not (or do not) relate solely to one use of land or the carrying out of one type of operation, paragraph 12 above shall not apply: but

- (a) an amount shall be calculated, in accordance with the provisions of this Schedule, in respect of each use of land or type of operation to which the relevant enforcement notice relates (subject to the provisions of paragraph 11 above, where the relevant enforcement notice relates to a building or buildings to which subparagraph (1) of that paragraph applies); and
- (b) the highest of the amounts so calculated shall be taken as the amount of the fee payable in respect of the deemed application.

**14.** In the case of an application for planning permission which is deemed to have been made by virtue of section 88B(3) of the 1971 Act, references in this Schedule to the development to which an application relates shall be construed as references to the use of land or the operations (as the case may be) to which the relevant enforcement notice relates, references to the amount of floor space or the number of dwellinghouses to be created by the development shall be construed as references to the amount of floor space or the number of dwellinghouses to which that enforcement notice relates, and references to the purposes for which it is proposed that floor space be used shall be construed as references to the purposes for which floor space was stated to be used in the enforcement notice.

## EXPLANATORY NOTE

*(This Note is not part of the Regulations.)*

These Regulations consolidate, with amendments, the Town and Country Planning (Fees for Applications and Deemed Applications) Regulations 1981 and the Town and Country Planning (Fees for Applications and Deemed Applications) (Amendment) Regulations 1982. They make provision for the payment of fees to local planning authorities in respect of applications made under Part III of the Town and Country Planning Act 1971 for planning permission for development or for approval of matters reserved by an outline planning permission and in respect of applications for consent for the display of advertisements; and for the payment of fees to the Secretary of State in respect of applications for planning permission which are deemed to have been made, by virtue of the provisions of section 88B(3) or 95(6) of the Act of 1971, in connection with an appeal against an enforcement notice or in connection with an application for an established use certificate.

The alterations of substance to the provisions of the former Regulations made by these Regulations are as follows:—

- (a) all fees are increased by approximately 7%: the charges in respect of applications and deemed applications to which a flat-rate charge of £22 applied under the former Regulations are raised to £24, flat-rate charges of £44 are raised to £47 and, where the fee payable in respect of an application or deemed application is based on a scale of charges, the scale rates are increased from £22 per unit and £44 per unit to £24 per unit and £47 per unit respectively; maximum charges are increased by the same proportion (the maximum which applies to outline applications for planning permission being raised from £1,100 to £1,175, the maximum which applies to detailed applications and deemed applications relating to the erection of buildings and to applications and deemed applications relating to the erection of plant or machinery or to the use of buildings as dwellinghouses being raised from £2,200 to £2,350, the maximum which applies in relation to the carrying out of mining operations or the use of land for the disposal of refuse or waste materials being raised from £3,300 to £3,600, and the maximum which applies in relation to the carrying out of any other operations being raised from £220 to £240); and the fees in respect of applications for consent for the display of advertisements are raised from £11 and £44 to £12 and £47 respectively;
- (b) the exemption from the requirement for the payment of a fee which was given by regulation 4 of the former Regulations in respect of applications and deemed applications made in relation to the alteration of dwellinghouses in which disabled persons are resident has been extended to cover cases where the alteration is carried out for the benefit of a disabled person who is proposing to take up residence in the dwellinghouse and to cover applications and deemed applications relating to works of alteration to public buildings which are carried out for the sole purpose of providing means of access for disabled persons (regulation 4);
- (c) the exemption given by regulation 5 of the former Regulations in respect of applications and deemed applications relating to development which is within Schedule 1 to the General Development Order (but which is not permitted by that Order because of the existence of an article 4 direction or because of the terms of a condition imposed on a grant of planning permission) is modified so as to include applications and deemed applications relating to the continuation of a use or the retention of a

building or works without complying with a condition imposed on a grant of planning permission which prohibits or restricts development which is within the said Schedule (regulation 5);

- (d) the exemption given by regulation 6 of the former Regulations in respect of applications and deemed applications relating to the continuation of a use or the retention of a building or works for which temporary planning permission has been given is removed; and such applications and deemed applications have been included in former category 10 in the table in Part II of Schedule 1 to the Regulations (now category 11), with the result that a flat-rate charge of £47 is payable in respect of them;
- (e) a new regulation is included in the Regulations, giving an exemption in respect of applications for planning permission or for approval of reserved matters which are made for the purpose of obtaining permission or approval for a modified proposal: the application must be made within 12 months after the granting of planning permission or the giving of approval (as the case may be) and must be made by the same applicant (regulation 6);
- (f) the provisions contained in regulation 8 of the former Regulations relating to fees for deemed applications have been amended to provide for the refunding of the fee paid in respect of an application deemed to be made in connection with an enforcement notice, in the event of the Secretary of State's allowing the appeal against the enforcement notice on the ground that the notice is invalid or defective (regulation 8(11));
- (g) the provisions contained in regulation 9 of the former Regulations (fees for applications for consent for advertisements) have been amended in relation to applications for consent for the display of advertisements on parking meters, litter bins or bus shelters within a specified area (under the modified provisions one fee is payable in respect of all such advertisements covered by the application); there is a new provision that a concessionary fee of half the normal fee is payable in respect of applications for consent for the display of advertisements made by or on behalf of parish councils and community councils; and there is a new provision giving exemption from the requirement for the payment of a fee in a case where an application is made by the same applicant, in respect of the display of advertisements of the same description on the same site, following the withdrawal of an application or refusal of consent (regulation 9(5), (6), (9) and (10));
- (h) a new paragraph has been added to Part I of Schedule 1 to the Regulations, providing that a fee of one-half of the normal amount shall be payable in respect of an application made or deemed to be made by or on behalf of a parish council or a community council (paragraph 2);
- (i) the provisions formerly contained in paragraph 4 of Part I of Schedule 1 relating to the amount of the fee payable in respect of an application for approval of details have been replaced by a paragraph which provides that once the total of the fees paid in respect of applications for approval of reserved matters under a particular outline planning permission have reached an amount equal to the full amount of the fee payable (in accordance with the provisions of the Schedule) in respect of an application for approval of all of the matters reserved by the outline planning permission, in relation to the whole of the land covered by that permission, all subsequent applications for approval of the matters reserved by that outline planning permission shall be subject to a flat rate charge of £47 (paragraph 5);

- (j) a new paragraph has been added to Part I of Schedule 1, relating to applications made or deemed to be made in respect of development of land which straddles the boundary between two district planning authorities or two London borough councils: it provides that the total amount of the fees payable in respect of the applications shall not exceed one-and-a-half times the amount which would be payable in respect of a single application for the whole development (or, where the applications relate to a county matter and all of the land is in the same county, shall not exceed the amount which would be payable in respect of such an application) (paragraph 6);
- (k) a new paragraph has been added to Part I of Schedule 1 to provide for payment of a special rate of fee where applications relating to several alternative proposals are submitted to the local planning authority by the same applicant on the same date (the fee being a sum calculated by taking the amount of the highest fee payable in respect of any of the alternative proposals and adding to it half of the total of the fees payable in respect of the other alternative proposals) (paragraph 7);
- (l) development consisting of the erection of glasshouses on agricultural land is placed in a separate category in the table in Part II of Schedule 1 to the Regulations, with a different rate of fee from those applying to other buildings: no fee is payable where the building contains not more than 465 sq metres of floor space, and a fee of £280 is payable in other cases (category 4);
- (m) the former category 9 in the table in Part II of Schedule 1 (now category 10), relating to the use of land for the disposal of refuse or waste materials, has been extended to include the use of land for the deposit of material remaining after minerals have been extracted from land and the use of land for the open storage of minerals.

Some minor drafting amendments have also been made.
