# SCHEDULE 1

Regulations 2 and 4

# PART I

# LIST OF PRESCRIBED DISEASES AND THE OCCUPATIONS FOR WHICH THEY ARE PRESCRIBED

Prescribed disease or injury	Occupation
A. Conditions due to physical agents	Any occupation involving:
[ <sup>F1</sup> A1. Leukaemia (other than chronic lymphatic leukaemia) or cancer of the bone, female breast, testis or thyroid.]	[ <sup>F1</sup> Exposure to electro-magnetic radiations (other than radiant heat) or to ionising particles where the dose is sufficient to double the risk of the occurrence of the condition.]
A2. <sup>F2</sup> Cataract.	[ <sup>F3</sup> Frequent or prolonged exposure to radiation from red-hot or white-hot material.]
A3. Dysbarism, including decompression sickness, barotrauma and osteonecrosis.	Subjection to compressed or rarefied air or other respirable gases or gaseous mixtures.
A4. [ <sup>F4</sup> Task-specific focal dystonia of the hand or forearm.]	[ <sup>F4</sup> Prolonged periods of handwriting, typing or other repetitive movements of the fingers, hand or arm.]
A5. Subcutaneous cellulitis of the hand <sup>F5</sup>	Manual labour causing severe or prolonged friction or pressure on the hand.
A6. Bursitis or subcutaneous cellulitis arising at or about the knee due to severe or prolonged external friction or pressure at or about the knee <sup>F6</sup>	Manual labour causing severe or prolonged external friction or pressure at or about the knee.
A7. Bursitis or subcutaneous cellulitis arising at or about the elbow due to severe or prolonged external friction or pressure at or about the elbow <sup>F7</sup>	Manual labour causing severe or prolonged external friction or pressure at or about the elbow.
A8. Traumatic inflammation of the tendons of the hand or forearm, or of the associated tendon sheaths.	Manual labour, or frequent or repeated movements of the hand or wrist.
A9. <sup>F8</sup>	F8
[ <sup>F9</sup> A10. Sensorineural hearing loss amounting to at least 50 dB in each ear, being the average	[ <sup>F10</sup> Any occupation involving:
of hearing losses at 1, 2 and 3 kHz frequencies, and being due in the case of at least one ear to occupational noise (occupational deafness).]	The use of, or work wholly or mainly in the immediate vicinity of the use of, a—
Regulation 3 (S.I. 2003/2190) amendments shall not apply to a period of assessment which relates to a claim which is made before the commencement date (22nd September 2003).	(a) band saw, circular saw or cutting disc to cut metal in the metal founding or forging industries, circular saw to cut products in the manufacture of steel, powered (other than hand powered) grinding tool on metal (other

Prescribed disease or injury	Occupation than sheet metal or plate metal), pneumatic percussive tool on metal, pressurised air arc tool to gouge metal, burner or torch to cut or dress steel based products, skid transfer bank, knock out and shake out grid in a foundry, machine (other than a power press machine) to forge metal including a machine used to drop stamp metal by means of closed or open dies or drop hammers, machine to cut or shape or clean metal nails, or plasma spray gun to spray molten metal;
	(b) pneumatic percussive tool:- to drill rock in a quarry, on stone in a quarry works, underground, for mining coal, for sinking a shaft, or for tunnelling in civil engineering works;
	(c) vibrating metal moulding box in the concrete products industry, or circular saw to cut concrete masonry blocks;
	(d) machine in the manufacture of textiles for:- weaving man-made or natural fibres (including mineral fibres), high speed false twisting of fibres, or the mechanical cleaning of bobbins;
	(e) multi-cutter moulding machine on wood, planing machine on wood, automatic or semi- automatic lathe on wood, multiple cross-cut machine on wood, automatic shaping machine on wood, double-end tenoning machine on wood, vertical spindle moulding machine (including a high speed routing machine) on wood, edge banding machine on wood, bandsawing machine (with a blade width of not less than 75 millimetres) on wood, circular sawing machine on wood including one operated by moving the blade towards the material being cut, or chain saw on wood;
	(f) jet of water (or a mixture of water and abrasive material) at a pressure above 680 bar, or jet channelling process to burn stone in a quarry;
	(g) machine in a ship's engine room, or gas turbine for:- performance testing on a test bed, installation testing of a replacement engine in an aircraft, or acceptance testing of an Armed Service fixed wing combat aircraft;

Prescribed disease or injury	Occupation (h) machine in the manufacture of glass containers or hollow ware for:- automatic moulding, automatic blow moulding, or automatic glass pressing and forming;
	<i>(i)</i> spinning machine using compressed air to produce glass wool or mineral wool;
	(j) continuous glass toughening furnace;
	( <i>k</i> ) firearm by a police firearms training officer; or
	( <i>l</i> ) shot-blaster to carry abrasives in air for cleaning.]
	$[I^{F10}(a)]^{F11}$ the use of powered (but not hand powered) grinding tools $[I^{F12}$ metal (other than sheet metal or plate metal) $]^{F13}$ or work wholly or mainly in the immediate vicinity of those tools whilst they are being so used; or]
	(b)[ <sup>F11</sup> the use of pneumatic percussive tools on metal, or work wholly or mainly in the immediate vicinity of those tools whilst they are being so used; or]
	<i>(c)</i> [ <sup>F11</sup> the use of pneumatic percussive tools for drilling rock in quarries or underground or in mining coal, [ <sup>F14</sup> or in sinking shafts or for tunnelling in civil engineering works] or work wholly or mainly in the immediate vicinity of those tools whilst they are being so used; or]
	( <i>J<sup>F15</sup>ca</i> ) the use of pneumatic percussive tools on stone in quarry works, or work wholly or mainly in the immediate vicinity of those tools whilst they are being so used; or]
	(d) [ <sup>F11</sup> work wholly or mainly in the immediate vicinity of plant (excluding power press plant) engaged in the forging (including drop stamping) of metal by means of closed or open dies or drop hammers; or]
	(e) $[^{F11}$ work in textile manufacturing where the work is undertaken wholly or mainly in rooms or sheds in which there are machines engaged in weaving man-made or natural

Prescribed disease or injury	<i>Occupation</i> (including mineral) fibres or in the high speed false twisting of fibres; or]
	(f) the use of, or work wholly or mainly in the immediate vicinity of, machines engaged in cutting, shaping or cleaning metal nails; or
	(g) the use of, or work wholly or mainly in the immediate vicinity of, plasma spray guns engaged in the deposition of metal; or
	( <i>h</i> ) the use of, or work wholly or mainly in the immediate vicinity of, any of the following machines engaged in the working of wood or material composed partly of wood, that is to say: multi-cutter moulding machines, planing machines, automatic or semi-automatic lathes, multiple cross-cut machines, automatic shaping machines, double-end tenoning machines, vertical spindle moulding machines (including high speed routing machines), edge banding machines, bandsawing machines with a blade width of not less than 75 millimetres and circular sawing machines in the operation of which the blade is moved towards the material being cut; or
	( <i>i</i> ) the use of chain saws in forestry[ <sup>F16</sup> ; or
	( <i>j</i> ) air arc gouging or work wholly or mainly in the immediate vicinity of air arc gouging; or
	( <i>k</i> ) the use of band saws, circular saws or cutting discs for cutting metal in the metal founding or forging industries, or work wholly or mainly in the immediate vicinity of those tools whilst they are being so used; or
	( <i>l</i> ) the use of circular saws for cutting products in the manufacture of steel, or work wholly or mainly in the immediate vicinity of those tools whilst they are being so used; or
	( <i>m</i> ) the use of burners or torches for cutting or dressing steel based products, or work wholly or mainly in the immediate vicinity of those tools whilst they are being so used; or
	( <i>n</i> ) work wholly or mainly in the immediate vicinity of skid transfer banks; or

	2
Prescribed disease or injury	<i>Occupation</i> ( <i>o</i> ) work wholly or mainly in the immediate vicinity of knock out and shake out grids in foundries; or
	( <i>p</i> ) mechanical bobbin cleaning or work wholly or mainly in the immediate vicinity of mechanical bobbin cleaning; or
	<i>q</i> ) the use of, or work wholly or mainly in the immediate vicinity of, vibrating metal moulding boxes in the concrete products industry; or
	(r) the use of, or work wholly or mainly in the immediate vicinity of, high pressure jets of water or a mixture of water and abrasive material in the water jetting industry (including work under water); or
	( <i>s</i> ) work in ships' engine rooms; or
	( <i>t</i> ) the use of circular saws for cutting concrete masonry blocks during manufacture, or work wholly or mainly in the immediate vicinity of those tools whilst they are being so used; or
	( <i>u</i> ) burning stone in quarries by jet channelling processes, or work wholly or mainly in the immediate vicinity of such processes; or
	<ul> <li>(v) work on gas turbines in connection with—</li> <li>(i) performance testing on test bed;</li> <li>(ii) installation testing of replacement engines in aircraft;</li> <li>(iii) acceptance testing of Armed Service fixed wing combat planes; or</li> </ul>
	<ul> <li>(w) the use of, or work wholly or mainly in the immediate vicinity of—</li> <li>(i) machines for automatic moulding, automatic blow moulding or automatic glass pressing and forming machines used in the manufacture of glass containers or hollow ware;</li> </ul>
	<ul> <li>(ii) spinning machines using compressed air to produce glass wool or mineral wool;</li> </ul>
	(iii) continuous glass toughening furnaces.]]
A11. Episodic blanching, occurring throughout the year, affecting the middle or proximal phalanges or in the case of a thumb the proximal phalanx, of—	<i>(a)</i> the use of hand-held chain saws [ <sup>F18</sup> in forestry][ <sup>F18</sup> on wood]; or

# Prescribed disease or injury

(a) [<sup>F17</sup>Intense blanching of the skin, with a sharp demarcation line between affected and non-affected skin, where the blanching is cold-induced, episodic, occurs throughout the year and affects the skin of the distal with the middle and proximal phalanges, or distal with the middle phalanx (or in the case of a thumb the distal with the proximal phalanx), of—

- (i) in the case of a person with 5 fingers (including thumb) on one hand, any 3 of those fingers, or
- (ii) in the case of a person with only 4 such fingers, any 2 of those fingers, or
- (iii) in the case of a person with less than 4 such fingers, any one of them or, as the case may be, the one remaining finger,

where none of the person's fingers was subject to any degree of cold-induced, episodic blanching of the skin prior to the person's employment in an occupation described in the second column in relation to this paragraph, or

(b) significant, demonstrable reduction in both sensory perception and manipulative dexterity with continuous numbness or continuous tingling all present at the same time in the distal phalanx of any finger (including thumb) where none of the person's fingers was subject to any degree of reduction in sensory perception, manipulative dexterity, numbness or tingling prior to the person's employment in an occupation described in the second column in relation to this paragraph,

where the symptoms in paragraph (a) or paragraph (b) were caused by vibration.

(a)[<sup>F17</sup>in the case of a person with 5 fingers (including thumb) on one hand, any 3 of those fingers, or

(b) in the case of a person with only 4 such fingers, any 2 of those fingers, or

(c) in the case of a person with less than 4 such fingers, any one of those fingers or, as the case may be, the one remaining finger (vibration white finger).]]

[<sup>F19</sup>A12. Carpal tunnel syndrome.]

## Occupation

(b) the use of hand-held rotary tools in grinding or in the sanding or polishing of metal, or the holding of material being ground, or metal being sanded or polished, by rotary tools; or

Any occupation involving:

(c) the use of hand-held percussive metalworking tools, or the holding of metal being worked upon by percussive tools, in riveting, caulking, chipping, hammering, fettling or swaging; or

*(d)* the use of hand-held powered percussive drills or hand-held powered percussive hammers in mining, quarrying, demolition, or on roads or footpaths, including road construction; or

(e) the holding of material being worked upon by pounding machines in shoe manufacture.

(a)[<sup>F20</sup>The use, at the time the symptoms first 6 develop, of hand-held powered tools whose

Prescribed disease or injury	<i>Occupation</i> internal parts vibrate so as to transmit that vibration to the hand, but excluding those tools which are solely powered by hand; or
	(b) repeated palmar flexion and dorsiflexion of the wrist for at least 20 hours per week for a period or periods amounting in aggregate to at least 12 months in the 24 months prior to the onset of symptoms, where "repeated" means once or more often in every 30 seconds.]
	[ <sup>F20</sup> [ <sup>F19</sup> The use of hand-held powered tools whose internal parts vibrate so as to transmit that vibration to the hand, but excluding those which are solely powered by hand.]]
[ <sup>F21</sup> A13. Osteoarthritis of the hip.]	[ <sup>F21</sup> Work in agriculture as a farmer or farm worker for a period of, or periods which amount in aggregate to, 10 years or more.]
[ <sup>F22</sup> A14. Osteoarthritis of the knee.]	[ <sup>F22</sup> Work underground in a coal mine for a period of, or periods which amount in aggregate to, at least 10 years in any one or more of the following occupations:
	(a) before 1st January 1986 as a coal miner; or
	<ul> <li>(b) on or after 1st January 1986 as a—</li> <li>(i) face worker working on a non- mechanised coal face;</li> <li>(ii) development worker;</li> <li>(iii) face-salvage worker;</li> <li>(iv) conveyor belt cleaner; or</li> <li>(v) conveyor belt attendant.</li> </ul>
	"A non-mechanised coal face" means a coal face without either powered roof supports or a power loader machine which simultaneously cuts and loads the coal or without both.]
	[ <sup>F23</sup> Work wholly or mainly fitting or laying carpets or floors (other than concrete floors) for a period of, or periods which amount in aggregate to, 20 years or more.]
B. Conditions due to biological agents	
[ <sup>F24</sup> B1. Anthrax.]	(a) $[^{F24}$ Contact with anthrax spores, including contact with animals infected by anthrax; or
	(b) handling, loading, unloading or transport of animals of a type susceptible to infection with

Prescribed disease or injury	Occupation
	anthrax or of the products or residues of such animals.]
B2. Glanders.	Contact with equine animals or their carcases.
B3. Infection by leptospira.	( <i>a</i> ) Work in places which are, or are liable to be, infested by rats, field mice or voles, or other small mammals; or
	(b) work at dog kennels or the care or handling of dogs; or
	<i>(c)</i> contact with bovine animals or their meat products or pigs or their meat products.
[ <sup>F25</sup> B4. Ankylostomiasis.]	[ <sup>F25</sup> Contact with a source of ankylostomiasis.]
B5. Tuberculosis.	Contact with a source of tuberculous infection.
B6. Extrinsic allergic alveolitis (including farmer's lung).	Exposure to moulds or fungal spores or heterologous proteins by reason of employment in:—
	<i>(a)</i> agriculture, horticulture, forestry, cultivation of edible fungi or malt-working; or
	(b) loading or unloading or handling in storage mouldy vegetable matter or edible fungi; or
	(c) caring for or handling birds; or
	(d) handling bagasse [ $^{F26}$ or
	<i>(e)</i> work involving exposure to metalworking fluid mists.]
B7. Infection by organisms of the genus	Contact with—
brucella.	( <i>a</i> ) animals infected by brucella, or their carcases or parts thereof, or their untreated products; or
	(b) laboratory specimens or vaccines of, or containing, brucella.
[ <sup>F27</sup> B8A. Infection by hepatitis A virus.]	[ <sup>F27</sup> Contact with raw sewage.]
[ <sup>F27</sup> B8B. Infection by hepatitis B or C virus.]	[ <sup>F27</sup> Contact with—]
	$I^{F27}(a)$ human blood or human blood products; or]
	$I^{F27}(b)$ any other source of hepatitis B or C virus.]

Prescribed disease or injury	Occupation
B9. Infection by Streptococcus suis.	Contact with pigs infected by Streptococcus suis, or with the carcases, products or residues of pigs so infected.
[ <sup>F28</sup> B10. ( <i>a</i> ) Avian chlamydiosis]	[ <sup>F28</sup> Contact with birds infected with chlamydia psittaci, or with the remains or untreated products of such birds.]
[ <sup>F28</sup> B10. (b) Ovine chlamydiosis]	[ <sup>F28</sup> Contact with sheep infected with chlamydia psittaci, or with the remains or untreated products of such sheep.]
[ <sup>F28</sup> B11. Q fever.]	[ <sup>F28</sup> Contact with animals, their remains or their untreated products.]
[ <sup>F29</sup> B12. Orf.]	[ <sup>F29</sup> Contact with sheep, goats or with the carcasses of sheep or goats.]
[ <sup>F29</sup> B13. Hydatidosis.]	[ <sup>F29</sup> Contact with dogs.]
[ <sup>F30</sup> B14. Lyme disease.]	[ <sup>F30</sup> Exposure to deer or other mammals of a type liable to harbour ticks harbouring Borrelia bacteria.]
[ <sup>F30</sup> B15. Anaphylaxis.]	[ <sup>F30</sup> Employment as a healthcare worker having contact with products made with natural rubber latex.]
C. Conditions due to chemical agents	
<ul> <li>[F<sup>31</sup>C1.</li> <li>(a) Anaemia with a haemoglobin concentration of 9g/dL or less, and a blood film showing punctate basophilia;</li> </ul>	The use or handling of, or exposure to the fumes, dust or vapour of, lead or a compound of lead, or a substance containing lead.
(b) peripheral neuropathy;	
(c) central nervous system toxicity.]	
[ <sup>F32</sup> C2. Central nervous system toxicity characterised by parkinsonism.]	The use or handling of, or exposure to the fumes, dust or vapour of, manganese or a compound of manganese, or a substance containing manganese.
[ <sup>F33</sup> C3.	[ <sup>F33</sup> Work involving the use or handling of, or exposure to, white phosphorus.
(a) Phossy Jaw.	
(b) Peripheral polyneuropathy or peripheral polyneuropathy with pyramidal involvement of the central nervous system, caused by organic compounds of phosphorus which inhibit the enzyme neuropathy target esterase.]	Work involving the use or handling of, or exposure to, organic compounds of phosphorus.]

Prescribed disease or injury	Occupation
[ <sup>F34</sup> C4. Primary carcinoma of the bronchus or lung.]	[ <sup>F34</sup> Exposure to the fumes, dust or vapour of arsenic, a compound of arsenic or a substance containing arsenic.]
[ <sup>F35</sup> C5A. Central nervous system toxicity characterised by tremor and neuropsychiatric disease.]	[ <sup>F35</sup> Exposure to mercury or inorganic compounds of mercury for a period of, or periods which amount in aggregate to, 10 years or more.]
[ <sup>F35</sup> C5B. Central nervous system toxicity characterised by combined cerebellar and cortical degeneration.]	[ <sup>F35</sup> Exposure to methylmercury.]
[ <sup>F36</sup> C6. Peripheral neuropathy]	[ <sup>F36</sup> The use or handling of, or exposure to, carbon disulphide (also called carbon disulfide).]
[ <sup>F37</sup> C7. Acute non-lymphatic leukaemia.]	[ <sup>F37</sup> Exposure to benzene.]
C8. <sup>F38</sup>	F38
C9. <sup>F39</sup>	F39
C10. <sup>F40</sup>	F40
C11. <sup>F41</sup>	F41
[ <sup>F42</sup> C12.	[ <sup>F42</sup> Exposure to methyl bromide (also called
(a) Peripheral neuropathy;	bromomethane).]
(b) central nervous system toxicity.]	
[ <sup>F43</sup> C13. Cirrhosis of the liver.]	[ <sup>F43</sup> Exposure to chlorinated naphthalenes.]
C14. <sup>F44</sup>	F44
C15. <sup>F45</sup>	F45
[ <sup>F46</sup> C16.	[ <sup>F46</sup> Exposure to the dust of gonioma kamassi.]
(a) Neurotoxicity;	
(b) cardiotoxicity.]	
[ <sup>F47</sup> C17. Chronic beryllium disease.]	[ <sup>F47</sup> Inhalation of beryllium or a beryllium compound.]
[ <sup>F48</sup> C18. Emphysema.]	[ <sup>F48</sup> Inhalation of cadmium fumes for a period of, or periods which amount in aggregate to, 20 years or more.]
[ <sup>F49</sup> C19.	[ <sup>F49</sup> Exposure to acrylamide.]
(a) Peripheral neuropathy; monomer.	
(b) central nervous system toxicity.]	

Prescribed disease or injury	Occupation
C20. Dystrophy of the cornea	[ <sup>F50</sup> Exposure to quinone or hydroquinone.]
[ <sup>F51</sup> C21. Primary carcinoma of the skin.]	[ <sup>F51</sup> Exposure to arsenic or arsenic compounds, tar, pitch, bitumen, mineral oil (including paraffin) or soot.]
<ul><li>[<sup>F52</sup>C22.</li><li>(<i>a</i>) Primary carcinoma of the mucous membrane of the nose or paranasal sinuses;</li></ul>	[ <sup>F52</sup> Work before 1950 in the refining of nickel involving exposure to oxides, sulphides or water-soluble compounds of nickel.]
(b) primary carcinoma of the bronchus or lung.]	
[ <sup>F53</sup> C23. Primary neoplasm of the epithelial lining of the urinary tract.]	<i>I<sup>F53</sup>(a)</i> The manufacture of 1-naphthylamine, 2-naphthylamine, benzidine, auramine, magenta or 4-aminobiphenyl (also called biphenyl-4-ylamine);
	(b) work in the process of manufacturing methylene-bis-orthochloroaniline (also called MbOCA) for a period of, or periods which amount in aggregate to, 12 months or more;
	<i>(c)</i> exposure to 2-naphthylamine, benzidine, 4-aminobiphenyl (also called biphenyl-4- ylamine) or salts of those compounds otherwise than in the manufacture of those compounds;
	<i>(d)</i> exposure to orthotoluidine, 4-chloro-2- methylaniline or salts of those compounds; or
	(e) exposure for a period of, or periods which amount in aggregate to, 5 years or more, to coal tar pitch volatiles produced in aluminium smelting involving the Soderberg process (that is to say, the method of producing aluminium by electrolysis in which the anode consists of a paste of petroleum coke and mineral oil which is baked <i>in situ</i> ).]
C24. $(a)$ [ <sup>F54</sup> Angiosarcoma of the liver; or	[ <sup>F54</sup> Exposure to vinyl chloride monomer in the
<i>(b)</i> osteolysis of the terminal phalanges of the fingers; or	manufacture of polyvinyl chloride.
<i>(c)</i> sclerodermatous thickening of the skin of the hand; or	
(d) liver fibrosis,	
due to exposure to vinyl chloride monomer.	

24A. Raynaud's phenomenon due to exposure to vinyl chloride monomer.]       Exposure to vinyl chloride monomer in the manufacture of polyvinyl chloride before 1st January 1984.]         C25. [ <sup>FSS</sup> Vitiligo.]       [ <sup>FSS</sup> The use or handling of, or exposure to, paratertiary-butylphenol (also called 4- <i>tert</i> - butylphenol), paratertiary-butylcatechol (also called 4- <i>tert</i> -butylphenol). [ amylphenol (also called 4- <i>benzyloxphenol</i> ) or mono-butyl ether of hydroquinone (also called 4-butoxyphenol). ]         [ <sup>FSG</sup> C26.       [ <sup>FST</sup> The use or handling of, or exposure to, carbon tetrachloride (also called 4-benzyloxphenol) or mono-butyl ether of hydroquinone (also called 4-butoxyphenol). ]         [FSGC27. [ <sup>FS9</sup> Liver toxicity.]]       [ <sup>FST</sup> The use or handling of, or exposure to, trichloromethane).]         (b) kidney toxicity.]]       [ <sup>FST</sup> The use or handling of, or exposure to, trichloromethane).]         [FSC29. [ <sup>FS2</sup> Liver toxicity.]]       [ <sup>FST</sup> The use or handling of, or exposure to, trichloromethane (also called chloroform).]         [FSC29. [ <sup>FS2</sup> Deripheral neuropathy.]]       [ <sup>FST</sup> The use or handling of, or exposure to, chromic acid, chromates or dichromates.]]         (b) ulceration of the mucous membrane or the epidermis.]       [ <sup>FS4</sup> The use or handling of, or exposure to, chromic acid, chromates or dichromates.]]         (b) ulceration of the nasal cavity or associated air sinuses (nasal carcinoma).]       [ <sup>FS4</sup> The use or handling of, or exposure to, diacetyl (also called butanedione or 2,3- butanedione) in the manufacture of inorganic chromates; or (b) food flavouring containing diacetyl; or (c) food to which food flavouring containing diacetyl is added.	Prescribed disease or injury	Occupation
paratertiary-butylphenol (also called 4-terr-butylphenol), paratertiary-butylcatechol), paratertiary-butyletatechol), paratertiary-butyletatechol), paratertiary-butyletatechol, para-amylphenol (also called 4-terr-butylphenol) isomers), hydroquinone (also called 4-terr-butylphenol).         [#55]C26.       [#57]The use or handling of, or exposure to, carbon tetrachloride (also called 4-berzyloxyphenol)         [#57](a) Liver toxicity;       [#57]The use or handling of, or exposure to, carbon tetrachloride (also called theory).         [#57](a) Liver toxicity.]]       [#57]The use or handling of, or exposure to, tricholromethane (also called chloroform).]         [#60]       [#63]C20. [#64]Dermatitis;         [#64]C20. [#64]Dermatitis;       [#64]The use or handling of, or exposure to, n-hexane or n-butyl methyl ketone.]         [#64]C20. [#64]Dermatitis;       [#64]The use or handling of, or exposure to, chromic acid, chromates or dichromates.]]         (b) ulceration of the mucous membrane or the epidermis.]       [#64]The use or handling of, or exposure to, diacetyl (also called butanedione or 2, 3-butanedione) in the manufacture of—		manufacture of polyvinyl chloride before 1st
f <sup>F37</sup> (a) Liver toxicity;       to, carbon tetrachloride (also called tetrachloromethane).]         (b) kidney toxicity.]]       [ <sup>F89</sup> C27. [ <sup>F39</sup> Liver toxicity.]]       [ <sup>F89</sup> The use or handling of, or exposure to, trichloromethane (also called chloroform).]         F60        F60          [ <sup>F64</sup> C29. [ <sup>F62</sup> Peripheral neuropathy.]]       [ <sup>F64</sup> The use or handling of, or exposure to, n-hexane or n-butyl methyl ketone.]       [ <sup>F64</sup> C30. (a)] <sup>F64</sup> Dermatitis;         [ <sup>F63</sup> C30. (a)] <sup>F64</sup> Dermatitis;       [ <sup>F64</sup> The use or handling of, or exposure to, chromic acid, chromates or dichromates.]]         (b) ulceration of the mucous membrane or the epidermis.]       [ <sup>F65</sup> The use or handling of, or exposure to, diacetyl (also called butanedione or 2,3-butanedione) in the manufacture of—	C25. [ <sup>F55</sup> Vitiligo.]	paratertiary-butylphenol (also called 4- <i>tert</i> - butylphenol), paratertiary-butylcatechol (also called 4- <i>tert</i> -butylcatechol), para- amylphenol (also called <i>p</i> -pentyl phenol isomers), hydroquinone, monobenzyl ether of hydroquinone (also called 4-benzyloxyphenol) or mono-butyl ether of hydroquinone (also
(b) kidney toxicity.]]       [F <sup>59</sup> C27. [F <sup>59</sup> Liver toxicity.]]       [F <sup>59</sup> The use or handling of, or exposure to, trichloromethane (also called chloroform).]         F60       F60       F60         [F <sup>61</sup> C29. [F <sup>62</sup> Peripheral neuropathy.]]       [F <sup>62</sup> The use or handling of, or exposure to, n-hexane or n-butyl methyl ketone.]         [F <sup>63</sup> C30. (a) [ <sup>F64</sup> Dermatitis;       [F <sup>64</sup> The use or handling of, or exposure to, chromic acid, chromates or dichromates.]]         (b) ulceration of the mucous membrane or the epidermis.]       [F <sup>65</sup> The use or handling of, or exposure to, diacetyl (also called butanedione or 2,3-butanedione) in the manufacture of—		to, carbon tetrachloride (also called
[F58C27. [F59Liver toxicity.]][F59The use or handling of, or exposure to, trichloromethane (also called chloroform).]F60F60[F61C29. [F62Peripheral neuropathy.]][F62The use or handling of, or exposure to, n-hexane or n-butyl methyl ketone.][F63C30. (a) set out in Part II of this Schedule;		Any occupation—
(b) specified in regulation $2(h)(ii)$		
		(b) specified in regulation 2(b)(ii).
D2. Byssinosis. Any occupation involving:	D2. Byssinosis.	

Prescribed disease or injury	<i>Occupation</i> Work in any room where any process up to and including the weaving process is performed in a factory in which the spinning or manipulation of raw or waste cotton or of flax, or the weaving of cotton or flax, is carried on.
D3. Diffuse mesothelioma (primary neoplasm of the mesothelium of the pleura or of the pericardium or of the peritoneum).	[ <sup>F66</sup> Exposure to asbestos, asbestos dust or any admixture of asbestos at a level above that commonly found in the environment at large.]
D4. [ <sup>F67</sup> Allergic rhinitis which is due to exposure to any of the following agents—	[ <sup>F67</sup> Exposure to any of the agents set out in column 1 of this paragraph.]
(a) isocyanates;	
(b) platinum salts;	
(c) fumes or dusts arising from the manufacture, transport or use of hardening agents (including epoxy resin curing agents) based on phthalic anhydride, tetrachlorophthalic anhydride, trimellitic anhydride or triethylenetetramine;	
( <i>d</i> ) fumes arising from the use of rosin as a soldering flux;	
(e) proteolytic enzymes;	
( <i>f</i> ) animals including insects and other arthropods used for the purposes of research or education or in laboratories;	
(g) dusts arising from the sowing, cultivation, harvesting, drying, handling, milling, transport or storage of barley, oats, rye, wheat or maize, or the handling, milling, transport or storage of meal or flour made therefrom;	
( <i>h</i> ) antibiotics;	
( <i>i</i> ) cimetidine;	
( <i>j</i> ) wood dust;	
(k) ispaghula;	
( <i>l</i> ) castor bean dust;	
( <i>m</i> ) ipecacuanha;	
( <i>n</i> ) azodicarbonamide;	
	13

Prescribed disease or injury (o) animals including insects and other arthropods or their larval forms, used for the purposes of pest control or fruit cultivation, or the larval forms of animals used for the purposes of research or education or in laboratories;	Occupation
(p) glutaraldehyde;	
(q) persulphate salts or henna;	
( <i>r</i> ) crustaceans or fish or products arising from these in the food processing industry;	
(s) reactive dyes;	
( <i>t</i> ) soya bean;	
( <i>u</i> ) tea dust;	
( <i>v</i> ) green coffee bean dust;	
(w) fumes from stainless steel welding.]	
(x)[ <sup>F68</sup> products made with natural rubber latex.]	
D5. Non-infective dermatitis of external origin ( <sup>F69</sup> excluding dermatitis due to ionising particles or electro-magnetic radiations other than radiant heat).	Exposure to dust, liquid or vapour or any other external agent [ <sup>F70</sup> except chromic acid, chromates or bi- chromates,] capable of irritating the skin (including friction or heat but excluding
	ionising particles or electro-magnetic radiations other than radiant heat).
D6. Carcinoma of the nasal cavity or associated air sinuses (nasal carcinoma).	( <i>a</i> ) Attendance for work in or about a building where wooden goods are manufactured or repaired; or
	(b) attendance for work in a building used for the manufacture of footwear or components of footwear made wholly or partly of leather or fibre board; or
	<i>(c)</i> attendance for work at a place used wholly or mainly for the repair of footwear made wholly or partly of leather or fibre board.
D7. Asthma which is due to exposure to any of the following agents:—	Any occupation involving:
( <i>a</i> ) isocyanates;	Exposure to any of the agents set out in column 1 of this paragraph.

Status: This revised version has been created from an electronic version contributed by Westlaw which was originally derived from the printed publication. **Read more** (See end of Document for details)**Changes to legislation:** There are currently no known outstanding effects for the The Social Security (Industrial Injuries) (Prescribed Diseases) Regulations 1985. (See end of Document for details)

*Prescribed disease or injury* (*b*) platinum salts;

Occupation

(c) fumes or dusts arising from the manufacture, transport or use of hardening agents (including epoxy resin curing agents) based on phthalic anhydride, tetrachlorophthalic anhydride, trimellitic anhydride or triethylenetetramine;

(*d*) fumes arising from the use of rosin as a soldering flux;

(e) proteolytic enzymes;

(*f*) [<sup>F71</sup>animals including insects and other arthropods used for the purposes of research or education or in laboratories]

(g) dusts arising from the sowing, cultivation, harvesting, drying, handling, milling, transport or storage of barley, oats, rye, wheat or maize, or the handling, milling, transport or storage of meal or flour made therefrom

 $[^{F72}(h)$  antibiotics;

(i) cimetidine;

(*j*) wood dust;

(*k*) ispaghula;

(*l*) castor bean dust;

(*m*) ipecacuanha;

(*n*) azodicarbonamide]

[<sup>F73</sup>(*o*) animals including insects and other arthropods or their larval forms, used for the purposes of pest control or fruit cultivation, or the larval forms of animals used for the purposes of research, education or in laboratories;]

(p) [<sup>F73</sup>glutaraldehyde;]

(q) [ $^{F73}$  persulphate salts or henna;]

(*r*) [ $^{F73}$  crustaceans or fish or products arising from these in the food processing industry;]

Prescribed disease or injury	Occupation
(s) [ <sup>F73</sup> reactive dyes;]

Regulations 2, 4, 38 and 40

# PART II

# OCCUPATIONS FOR WHICH PNEUMOCONIOSIS IS PRESCRIBED

- 1. Any occupation involving—
  - (a) the mining, quarrying or working of silica rock or the working of dried quartzose sand or any dry deposit or dry residue of silica or any dry admixture containing such materials (including any occupation in which any of the aforesaid operations are carried out incidentally to the mining or quarrying of other minerals or to the manufacture of articles containing crushed or ground silica rock);
  - (b) the handling of any of the materials specified in the foregoing sub-paragraph in or incidental to any of the operations mentioned therein, or substantial exposure to the dust arising from such operations.

2. Any occupation involving the breaking, crushing or grinding of flint or the working or handling of broken, crushed or ground flint or materials containing such flint, or substantial exposure to the dust arising from any of such operations.

**3.** Any occupation involving sand blasting by means of compressed air with the use of quartzose sand or crushed silica rock or flint, or substantial exposure to the dust arising from sand and blasting.

**4.** Any occupation involving work in a foundry or the performance of, or substantial exposure to the dust arising from, any of the following operations:—

- (a) the freeing of steel castings from adherent siliceous substance;
- (b) the freeing of metal castings from adherent siliceous substance-
  - (i) by blasting with an abrasive propelled by compressed air, by steam or by a wheel; or
  - (ii) by the use of power-driven tools.

5. Any occupation in or incidental to the manufacture of china or earthenware (including sanitary earthenware, electrical earthenware and earthenware tiles), and any occupation involving substantial exposure to the dust arising therefrom.

**6.** Any occupation involving the grinding of mineral graphite, or substantial exposure to the dust arising from such grinding.

7. Any occupation involving the dressing of granite or any igneous rock by masons or the crushing of such materials, or substantial exposure to the dust arising from such operations.

**8.** Any occupation involving the use, or preparation for use, of a grindstone, or substantial exposure to the dust arising therefrom.

9. Any occupation involving—

- (a) the working or handling of asbestos or any admixture of asbestos;
- (b) the manufacture or repair of asbestos textiles or other articles containing or composed of asbestos;
- (c) the cleaning of any machinery or plant used in any foregoing operations and of any chambers, fixtures and appliances for the collection of asbestos dust;
- (d) substantial exposure to the dust arising from any of the foregoing operations.
- 10. Any occupation involving—
  - (a) work underground in any mine in which one of the objects of the mining operations is the getting of any mineral;
  - (b) the working or handling above ground at any coal or tin mine of any minerals extracted therefrom, or any operation incidental thereto;
  - (c) the trimming of coal in any ship, barge, or lighter, or in any dock or harbour or at any wharf or quay;
  - (d) the sawing, splitting or dressing of slate, or any operation incidental thereto.

11. Any occupation in or incidental to the manufacture of carbon electrodes by an industrial undertaking for use in the electrolytic extraction of aluminium from aluminium oxide, and any occupation involving substantial exposure to the dust arising therefrom.

12. Any occupation involving boiler scaling or substantial exposure to the dust arising therefrom.

# SCHEDULE 2

Regulation 11

# MODIFICATIONS OF CHAPTERS IV AND VI OF PART II OF THE ACT IN THEIR APPLICATION TO BENEFIT AND CLAIMS TO WHICH THESE REGULATIONS APPLY

In Chapters IV and VI of Part II of the Act references to accidents shall be construed as references to prescribed diseases and references to the relevant accident shall be construed as references to the

relevant disease and references to the date of the relevant accident shall be construed as references to the date of onset of the relevant disease.

# SCHEDULE 4

Regulation 43

# PRESCRIBED DISEASES AND RELEVANT DATES OF THE PURPOSES OF REGULATION 43

Description of disease or injury	Relevant date
A3. Dysbarism, including decompression sickness, barotrauma and osteonecrosis.	Except in the case of a person suffering from decompression sickness employed in any occupation involving subjection to compressed or rarefied air, 3rd October 1983.
A11. Episodic blanching, occurring throughout the year, affecting the middle or proximal phalanges or in the case of a thumb the proximal phalanx, of—	1st April 1985.
( <i>a</i> ) in the case of a person with 5 fingers (including thumb) on one hand, any 3 of those fingers, or	
(b) in the case of a person with only 4 such fingers, any 2 of those fingers, or	
(c) in the case of a person with less than 4 such fingers, any one of those fingers or, as the case may be, the one remaining finger (vibration white finger).	
B1. Anthrax.	In the case of a person employed in an occupation involving the loading and unloading or transport of animal products or residues, 3rd October 1983
B3. Infection by leptospira.	( <i>a</i> ) In the case of a person employed in an occupation in places which are or are liable to

Description of disease or injury	<i>Relevant date</i> be infested by small mammals other than rats, field mice or voles, 3rd October 1983;
	( <i>b</i> ) in the case of a person employed in an occupation in any other place mentioned in the second column of paragraph B3 of Part I of Schedule 1 above, 7th January 1980.
B5. Tuberculosis.	In the case of a person employed in an occupation involving contact with a source of tuberculous infection, not being an employment set out in the second column of paragraph 38 of Part I of Schedule 1 to the old regulations, 3rd October 1983.
B6. Extrinsic allergic alveolitis (including farmer's lung).	In the case of a person suffering from extrinsic allergic alveolitis, not being farmer's lung, employed in any occupation set out in the second column of paragraph B6 of Part I of Schedule 1 above, or in the case of a person suffering from farmer's lung, employed in any occupation involving exposure to moulds or fungal spores or heterologous proteins by reason of employment in cultivation of edible fungi or maltworking, or loading or unloading or handling in storage edible fungi or caring for or handling birds, 3rd October 1983.
B7. Infection by organisms of the genus brucella.	In the case of a person suffering from infection by organisms of the genus brucella, not being infection by Brucella abortus, or employed in an occupation set out in the second column of paragraph B7 of Part I of Schedule 1 above, not being an occupation set out in the second column of paragraph 46 of Part I of Schedule 1 to the old regulations, 3rd October 1983.
B8. Viral hepatitis.	In the case of a person employed in any occupation involving contact with human blood or human blood products, or contact with a source of viral hepatitis, 3rd December 1984.
B9. Infection by Streptococcus suis.	3rd October 1983.
B10. [ <sup>F88</sup> (a) Avian chlamydiosis]	[ <sup>F88</sup> 9th August 1989]
B10. [ <sup>F88</sup> (b) Ovine chlamydiosis]	[ <sup>F88</sup> 9th August 1989]
B11. [ <sup>F88</sup> Q fever]	[ <sup>F88</sup> 9th August 1989]
C3. Poisoning by phosphorus or an inorganic compound of phosphorus or poisoning due to the anti-cholinesterase or pseudo anti- cholinesterase action of organic phosphorus compounds.	In the case of a person suffering from poisoning by an inorganic compound of phosphorus or poisoning due to the pseudo anti-cholinesterase action of organic phosphorus compounds, 3rd October 1983.

Description of disease or injury	Relevant date
C18. Poisoning by cadmium.	In the case of a person employed in an occupation involving exposure to cadmium dust, 3rd October 1983.
C23. Primary neoplasm (including papilloma, carcinoma-in-situ and invasive carcinoma) of the epithelial lining of the urinary tract (renal pelvis, ureter, bladder and urethra).	In the case of a person employed in an occupation involving work in a building in which methylene-bis-orthochloroaniline is produced for commercial purposes, 3rd October 1983.
<ul><li>C24. (<i>a</i>) Angiosarcoma of the liver;</li><li>(<i>b</i>) osteolysis of the terminal phalanges of the fingers;</li></ul>	( <i>a</i> ) In the case of a person suffering from angiosarcoma of the liver or osteolysis of the terminal phalanges of the fingers, 21st March 1977;
(c) non-cirrhotic portal fibrosis.	( <i>b</i> ) in the case of a person suffering from non- cirrhotic portal fibrosis, 3rd October 1983.
C25. Occupational vitiligo.	15th December 1980
[ <sup>F89</sup> C26 Damage to the liver or kidneys due to exposure to Carbon Tetrachloride. ]	[ <sup>F89</sup> 4th January 1988]
[ <sup>F89</sup> C27 Damage to the liver or kidneys due to exposure to Trichloromethane (Chloroform). ]	[ <sup>F89</sup> 4th January 1988]
C28. [ <sup>F89</sup> Central nervous system dysfunction and associated gastro-intestinal disorders due to exposure to Chloromethane (Methyl Chloride).]	[ <sup>F89</sup> 4th January 1988]
[ <sup>F89</sup> C29 Peripheral neuropathy due to exposure to n-hexane or methyl n-butyl ketone.]	[ <sup>F89</sup> 4th January 1988]
D3. Diffuse mesothelioma.	In the case of a person suffering from primary neoplasm of the pericardium, 3rd October 1983.
D6. Carcinoma of the nasal cavity or associated air sinuses (nasal carcinoma).	In the case of a person employed in an occupation involving attendance for work in or about a building where wooden goods (other than wooden furniture) are manufactured or where wooden goods are repaired, 3rd October 1983.
D7. Occupational asthma.	$I^{F99}(a)$ In the case of a person suffering from asthma due to exposure to any of the following agents:—
	(i) isocyanates;
	(ii) platinum salts;
	(iii) fumes or dusts arising from the manufacture, transport or use of hardening agents (including epoxy resin curing agents) based on phthalic anhydride,

Description of disease or injury	<i>Relevant date</i> tetrachlorophthalic anhydride, trimellitic anhydride or triethylenetetramine;
	(iv) fumes arising from the use of rosin as a soldering flux;
	(v) proteolytic enzymes;
	(vi) animals or insects used for the purposes of research or education or in laboratories;
	(vii) dusts arising from the sowing, cultivation, harvesting, drying, handling, milling, transport or storage of barley, oats, rye, wheat or maize, or the handling, milling, transport or storage of meal or flour made therefrom,
	29th March 1982;
	<i>(b)</i> In the case of a person suffering from asthma due to exposure to any of the following agents:—
	(i) animals including insects and other arthropods used for the purposes of research or education or in laboratories;
	(ii) antibiotics;
	(iii) cimetidine;
	(iv) wood dust;
	(v) ispaghula;
	(vi) castor bean dust;
	(vii) ipecacuanha;
	(viii) azodicarbonamide,
	1st September 1986.]
D8. Primary carcinoma of the lung where there is accompanying evidence of one or both of the following:—	1st April 1985.
( <i>a</i> ) asbestosis;	

(*b*) bilateral diffuse pleural thickening.

Description of disease or injury	Relevant date	
D9. Bilateral diffuse pleural thickening.	1st April 1985.	
[ <sup>F79</sup> D10. lung cancer]	[ <sup>F79</sup> 1st April 1987]

## SCHEDULE 5

Regulation 44

# TRANSITIONAL PROVISIONS REGARDING DATES OF DEVELOPMENT AND DATES OF ONSET

**1.** In this Schedule the "date of development" has the meaning attributed to it by regulations 5, 6, 7 and 56 of the old regulations.

**2.** Where a claim for benefit has been made before 6th April 1983, a date of development shall be determined and regulation 16 of the old regulations shall apply as if the old regulations were still in force.

**3.** Where a claim for benefit is made after 5th April 1983 and a date of onset is determined which is before 6th April 1983, regulation 16 of the old regulations shall apply as if the old regulations were still in force.

4. Where in pursuance of a claim made before 6th April 1983 a date of development has been determined and an award of benefit has been made these regulations shall have effect in relation to that claim and any subsequent claim made by or on behalf of the same person in respect of the same disease (except where under regulation 7 the disease is treated as having been contracted afresh) as if references to the date of onset were references to that date of development.

**5.** Subject to paragraph 6, where a claim for injury benefit for a day falling or a period beginning before 6th April 1983 is made after 5th April 1983 and no date of development or date of onset which can be treated as such for the purposes of that claim has already been determined, for the purpose only of determining the date on which the injury benefit period (if any) is to begin, a date of development shall be determined, so however that if it is later than 5th April 1983 no injury benefit period shall begin and injury benefit shall not be payable.

6. There shall be no entitlement, in the following cases, to benefit for any day which is earlier than the date specified:—

(a) in the case of a person who is or has been suffering from

(i) viral hepatitis	2nd February 1976
(ii) angiosarcoma of the liver	21st March 1977
(iii) osteolysis of the terminal phalanges of the fingers	21st March 1977

(iv) carcinoma of the nasal cavity or associated air sinuses (nasal carcinoma)	8th August 1979
(v) occupational vitiligo	15th December 1980
[ <sup>F91</sup> "(vi) occupational asthma arising otherwise than as described at (vii) below	29th March 1982;]
[ <sup>F91</sup> (vii) Occupational asthma which is due to exposure to antibiotics, cimetidine, wood dust, ispaghula, castor bean dust, ipecacuanha or azodicarbonamide	1st September 1986;]

- (b) in the case of a person who is or has been suffering from byssinosis but who has not been employed in employed earner's employment in any occupation mentioned in regulation 2(c) of the old regulations for a period or periods (whether before or after 5th July 1948) amounting in the aggregate to 5 years: 6th April 1979;
- (c) in the case of a person who is or has been suffering from infection by leptospira but neither is nor has been either incapable of work or suffering from a loss of faculty as a result of infection by—
  - (i) leptospira icterohaemorrhagiae in the case of a person employed in employed earner's employment in any occupation involving work in places which are, or are liable to be, infested by rats, or
  - (ii) leptospira canicola in the case of a person employed in employed earner's employment in any occupation involving work at dog kennels or the care or handling of dogs: 7th January 1980.

**F91** Sch. 5(6)(vi)(vii) substituted for Sch.5(6)(vi) (1.9.1986) by The Social Security (Industrial Injuries and Adjudication) Miscellaneous Amendments Regulations 1986 (S.I. 1986/1374), regs. 1, **2(4)** 

## SCHEDULE 6
