(2) For the purpose of determining the value of the property of a scheme—

- (a) it shall be assumed that any units which the trustee is under an obligation to create or cancel have been created or cancelled, as the case may be, that the trustee has paid or, as the case may be, has received the consideration for those units and that all other things required to be done in consequence thereof were done;
- (b) where the trustee has not done something in consequence of a creation or cancellation of units which he is required to do, it shall be assumed that that thing was done;
- (c) subject to paragraph (3), where agreements are in existence for the unconditional sale or purchase of property on behalf of the scheme which have not been completed it shall be assumed that they were completed at that time and that everything required to be done in accordance with their terms was done;

 - (i) a reasonable estimate by the manager of the total amount of any claims for repayment of any taxation levied on capital (including capital gains) or on income accrued before the relevant time; and
 - (ii) a sum representing any interest or dividends accrued but not received or receivable; and
 - (f) in determining the value in the base currency of any property which would otherwise be valued in a currency other than the base currency, the value shall, unless the manager and the trustee agree that it is in the interests of participants and potential participants that a different rate should be used, in which case the value shall be converted at the rate agreed between them, be converted at a rate of exchange which represents the average of the highest and the lowest rates of exchange quoted, at the relevant time, for conversion of that currency into the base currency on the market on which the manager would normally deal if he wished to make such a conversion.
- (3) For the purposes of paragraph (2)(c), an agreement shall not be regarded as one for the unconditional sale or purchase of property if either—

- (i) in a case in which margin would be received for the account of the scheme if the contract were to be closed out at the relevant time, the amount of margin which would be receivable if the contract were closed out at that time on the best terms then available on an approved options and futures market on which contracts of that kind are traded less an estimated amount of such fiscal charges, commission and other charges as would be payable if the contract being valued were then closed out, calculated on the basis that the commission and charges payable were the least that could reasonably be expected to be paid in order to close out the contract; and
- (ii) in a case in which margin would be payable out of the property of the scheme if the contract were to be closed out at the relevant time, a negative amount equal to the total of the amount of margin which would be payable if the contract were closed out at that time on the best terms then available on an approved options and futures market on which contracts of that kind are traded and an estimated amount of such fiscal charges, commission and other charges as would

be payable if the contract being valued were then closed out, calculated on the basis that the commission and charges payable were the least that could reasonably be expected to be paid in order to close out the contract.

(2) Subject to the provisions of paragraph (4), the manager shall take all reasonable steps and exercise all due diligence to avoid the property of the scheme being invested in contravention of whichever is applicable of regulation 17, 18, 20 or 23.

(3) Subject to the provisions of paragraph (4), the trustee shall take all reasonable steps and exercise all due diligence to exercise such degree of supervision over the manager's operation of the scheme as is appropriate with a view to ensuring that the manager fulfils the duties imposed on him by paragraphs (1) and (2).

(4) The manager shall not be subject to the duty imposed by paragraph (2) and the trustee shall not be subject to the duty imposed by paragraph (3) insofar as it relates to the manager's duty under paragraph (2) during whichever is the shorter of the period of six months beginning with the first date after the scheme is authorised on which persons are invited to become participants in the scheme and the period beginning with that date and ending on the first date on which the value of the property of the scheme exceeds £1 million, but the trustee and the manager shall each take all reasonable steps and exercise all due diligence during whichever is shorter of those periods to ensure that the property of the scheme is invested with the aim of spreading risk and in a manner which is consistent with the manner in which the property must be invested at the end of the relevant period.

(5) In the application of paragraph (4) to a scheme which is treated as an authorised unit trust scheme by virtue of paragraph 9 of Schedule 15 to the Act, references to the date on which persons are invited to become participants in the scheme shall be construed as references to the date upon which it became authorised under section 17 of the Prevention of Fraud (Investments) Act 1958⁽⁶⁾ or, as the case may be, under section 16 of the Prevention of Fraud (Investments) Act (Northern Ireland) 1940⁽⁷⁾.

⁽⁶⁾ 1958 c. 45.

⁽⁷⁾ 1940 c. 9 (N.I.).

Duties of manager and trustee in the event of inadvertent breach of investment limits

6.—(1) If the property of a scheme is, for reasons beyond the control of the manager or trustee, at any time invested in contravention of these Regulations, or, if the property of an authorised securities scheme is, by virtue of circumstances of the kind described in regulation 16(2) or 19, invested otherwise than in accordance with regulation 16(1) or, as the case may be, regulation 17 or 18, the manager shall take such steps as are necessary to ensure that sufficient of the property of the scheme is sold so that the property is invested in a manner which complies with these Regulations, or, as the case may be, with that regulation, as soon as is reasonably practicable having regard to the interests of participants in the scheme and, in any event, within the period of six months beginning with the date upon which the manager becomes aware that the property was invested in contravention of these Regulations or, as the case may be, otherwise than in accordance with regulation 16(1), 17 or 18.

(2) Forthwith upon the trustee becoming aware that circumstances of a kind described in paragraph (1) have arisen, he shall take such steps as are necessary to ensure that the manager fulfils the duty imposed on him by that paragraph.

Duties of manager and trustee in the event of other breaches of investment limits

7.—(1) If, at any time, the property of a scheme is invested in contravention of these Regulations otherwise than in a case to which regulation 5(4) applies or by virtue of circumstances of the kind described in regulation 6, the manager shall, forthwith upon becoming aware of the contravention, take such steps as are necessary to ensure that the property of the scheme is invested in a manner which complies with these Regulations.

(2) Forthwith upon the trustee becoming aware that circumstances of the kind described in paragraph (1) have arisen, he shall take such steps as are necessary to ensure that the manager fulfils the duty imposed on him by that paragraph.

PART IV

INVESTMENT AND BORROWING POWERS

Hedging

8.—(1) Subject to the provisions of paragraphs (2) to (10) and notwithstanding any other provision of these Regulations, the property of a scheme may be used in hedging transactions.

(2) No transaction shall be regarded as a hedging transaction for the purposes of this regulation unless—

- (a) the transaction is one which may reasonably be regarded as economically appropriate to the reduction or elimination of risk arising in the management of the scheme by virtue of fluctuations in the price of investments comprised in the property of the scheme or by reason of fluctuations in interest or exchange rates;
- (b) any instrument used in the transaction is one which, by virtue of the relationship between fluctuations in its price and fluctuations in the price of the property or any part of the property of the scheme or fluctuations in interest or exchange rates, may reasonably be regarded as an instrument which may appropriately be used in order to reduce or eliminate risk arising with respect to the property or the relevant part of it from such fluctuations; and
- (c) the purpose of the transaction is the reduction or elimination of risk and not speculation, and, for these purposes, a transaction shall not be regarded as one for the reduction or elimination of risk if, having regard to other hedging transactions which have been entered into in relation to the property or any part of it, it is unreasonable to consider that risk continues to arise of a kind for which the instrument may appropriately be used.

(3) No hedging transaction shall be entered into at any time at which the total value, calculated in accordance with these Regulations, of all cash and other property paid, transferred or deposited by way of premium or initial margin which may reasonably be regarded as attributable to any obligation or right then arising under a hedging transaction which is not closed out would, if added to the amount of any premium or initial margin payable in respect of the proposed transaction, exceed 10% in value of the property of the scheme.

(4) Except in the case of an instrument which is utilised to hedge against fluctuations in exchange rates, no instrument shall be utilised by virtue of this regulation unless it is either a traded option or an instrument other than a traded option being an instrument which is traded on or under the rules of an approved options and futures market and which is an instrument relating to property with respect to which, or to an index or other factor by reference to which, instruments of that kind have been so traded for a period of at least six months.

(5) Subject to paragraph (6), no hedging transaction under which an obligation to receive or deliver property does arise or may arise at the option of some person other than the trustee, acting in his capacity as such, shall be entered into unless the transaction is covered and, for the purposes of this paragraph, a transaction shall be regarded as covered only if—

- (a) in the case of a transaction under which an obligation to deliver property does or may arise, the property of the scheme includes either—
 - (i) property sufficient to enable that obligation together with any other similar obligation incurred in relation to the scheme with respect to property of the same kind to be discharged; or
 - (ii) rights to acquire property sufficient to enable that obligation and any other similar obligation incurred in relation to the scheme with respect to property of the same kind to be discharged; and
- (b) in the case of a transaction under which an obligation to receive property does or may arise, the property of the scheme includes either—
 - (i) cash or near cash, which is not otherwise taken into account for the purposes of paragraph (7) or for the purposes of regulation 15 or 32(1)(c), sufficient to enable that obligation and all similar obligations incurred in relation to the scheme to be discharged; or
 - (ii) rights to dispose of the property should the obligation to acquire it arise.

(6) For the purposes of paragraph (5), the property of a scheme shall be regarded as including property sufficient to enable the discharge of an obligation arising under a hedging transaction which is a contract for differences if the property includes property or rights to acquire property, which, by virtue of the correlation between that property and the property, index or other factor by reference to which any amount payable under the hedging transaction is to be calculated, may reasonably be considered to be sufficient to enable the obligation to be discharged.

(7) No option shall be purchased unless the property of the scheme includes cash or near cash which is not taken into account for the purpose of paragraph (5)(b)(i) or for the purposes of regulation 15 or 32(1)(c) and which is sufficient to enable the payment of that premium and all other premia then payable including, in the case of an option which is a margined contract purchased for the scheme, the amount of any premium which will become payable unless the option is sold.

(8) No hedging transaction under which an obligation to receive property does or may arise shall be entered into unless the obligation could be discharged at the time the transaction is effected without contravening any provision of these Regulations.

(9) No instrument relating to currency shall be utilised in order to hedge against fluctuations in exchange rates unless the instrument relates to the base currency or to a currency in which the property or any part of it is then denominated.

(10) None of the provisions of paragraphs (2) to (9) shall prevent an instrument being utilised in order to close out a hedging transaction.

(11) If, at any time after a hedging transaction has been entered into, circumstances arise which have the effect that, having disregarded all obligations and rights arising under hedging transactions which have been closed out, the transaction could not then be entered into except in contravention of any provision of this regulation, the manager shall forthwith upon becoming aware of that fact take such steps as are necessary to ensure that the provisions of this regulation are complied with either by closing out the transaction or by providing cover for it or otherwise and the trustee shall, forthwith upon becoming aware of the contravention, take such steps as are necessary to ensure that the manager fulfils that duty.

(12) In the application of this regulation to a money market fund, paragraph (2)(a) shall have effect as if the reference in that paragraph to investments included reference to such cash, deposits, loans or bills of exchange as are comprised in the property of the fund.

Restriction of investment powers exercisable in relation to authorised unit trust schemes

9.—(1) Subject to the provisions of these Regulations, the property of a scheme which is not a money market fund shall consist of transferable securities.

(2) Units in a collective investment scheme which has the characteristics described in section 78(6) of the Act or which is treated as having those characteristics by virtue of that provision may not be acquired for a scheme which is neither a Government and other public securities fund nor a money market fund, unless the manager is under a duty to pay into the property of the scheme—

- (a) before the close of business on the fourth business day next after the agreement to buy the units, the maximum amount of any preliminary charge which may be made by the issuer of the units or, if the manager knows the price at which units in the relevant scheme would have been created at the relevant time, the difference between that price and the price he paid for the units if that price is greater than the creation price; and
- (b) before the close of business on the fourth business day next after the agreement to sell the units, the amount of any charge which is made by the issuer on redemption of units.

(3) The property of a scheme, other than cash or near cash or property held for the purpose of hedging transactions, shall not consist only of units in a single scheme or recognised scheme unless the first scheme is a relevant pension scheme.

(4) Paragraph (2) shall apply in the case of the manager of a scheme which is either a Government and other public securities fund or a money market fund as if the periods specified in paragraph (2)(a) and (b) were periods ending with the close of business on the business day next after the agreement to buy or, as the case may be, to sell the units in question.

efficient management of the scheme in accordance with its object or for other purposes which may reasonably be regarded as ancillary to the object of the scheme.

Ability of authorised securities scheme to invest in open-ended collective investment schemes

12. The property of an authorised securities scheme shall not include units in a collective investment scheme which has the characteristics described in section 78(6) of the Act or is treated as having those characteristics by virtue of that provision unless the scheme is either—

 - (iii) the terms of which restrict investment in units in other collective investment schemes to investment in units in schemes of a kind described in this regulation and prohibit more than 5% in value of the property of the scheme consisting of such units.

Limitation on amount which may be invested under regulation 12

13. Subject to regulation 14, not more than 5% in value of the property of an authorised securities scheme shall consist of units in collective investment schemes of the kind described in regulation 12.

Limitation on investment in schemes managed by manager or associated company

14. None of the property of an authorised securities scheme shall consist of units in another collective investment scheme which is managed or operated by the manager of the former scheme or by another company in the same group as the manager or which is managed or operated by any person who is a controller of the manager or of whom the manager is a controller unless—

- (a) the deed or other instrument constituting the latter scheme states that its object is investment in a particular geographic area or economic sector; and
- (b) both the deed constituting the former scheme and its scheme particulars clearly state that property of the scheme may be invested in such units.

Limitation on investment in instruments conferring rights to subscribe and investment in nil paid or partly paid securities

(5) The trustee shall take all reasonable steps and exercise all due diligence to exercise such degree of supervision over the manager's operation of the scheme as is appropriate with a view to ensuring that the manager fulfils the duties imposed on him by paragraphs (3) and (4).

- (c) in any case other than a case in which the cost of acquiring any transferable securities that the trustee may or will be called upon to acquire in pursuance of any such agreement or understanding is to be met by the issue of units in the scheme, that cost could be met in full out of cash or near cash comprised in the property of the scheme and which is not taken into account for the purposes of regulation 8(5)(b)(i), 8(7) or 15 or out of sums which could be borrowed without contravening regulation 31(2)(b).

(2) This regulation applies to any underwriting or sub-underwriting agreement and to any agreement or understanding that transferable securities will be issued to or acquired by the trustee acting in his capacity as such.

(3) The manager shall take all reasonable steps and exercise all due diligence to ensure that the conditions specified in paragraph (1)(a) to (c) continue to be fulfilled at all times during which the trustee may or will be called upon to acquire transferable securities in pursuance of any agreement or understanding to which this regulation applies.

(4) The trustee shall take all reasonable steps and exercise all due diligence to exercise such degree of supervision over the manager's operation of the scheme as is appropriate with a view to ensuring that the manager fulfils the duty imposed on him by paragraph (3).

Lending, guarantees and indemnities

33.—(1) Subject to the provisions of paragraph (2), none of the property of a scheme may be lent or used to discharge any obligation arising under a guarantee or indemnity given by the trustee or manager with respect to the obligations of any third party.

(2) For the purposes of paragraph (1), neither the consideration payable for any instrument creating or evidencing indebtedness which, by virtue of any provision of these regulations, may properly be included within the property of a scheme, nor the placing of money on deposit or in a current account, nor the transfer of title to any property of the scheme on terms that involve title being transferred back at some future date shall be regarded as lending.

Uncovered sales of property

34. Neither the trustee nor the manager acting in their capacities as such shall enter into any agreement to dispose of property which is not a hedging transaction unless the property of the scheme includes either—

- (a) property sufficient to enable that obligation together with any other similar obligation incurred in relation to the scheme to be discharged; or
- (b) rights to acquire property sufficient to enable that obligation together with any similar obligation incurred in relation to the scheme to be discharged.

Application of regulations to umbrella funds

35.—(1) In the application to an umbrella fund of regulations 8 to 15, 17 to 24, 26 to 34 and regulation 25 insofar as it relates to the application of regulation 15 to an umbrella fund, references to the property of the scheme shall be construed as references to each separate part of the property and those regulations shall apply to such funds as if each separate part of the property were the property of a single scheme.

(2) Regulation 16 shall apply to an umbrella fund which is so constituted that any separate part of the property would be an authorised securities scheme or a money market fund if that part of the property were the property of a single scheme as if all such separate parts of the property constituted one authorised securities scheme.

Prohibition on a scheme of a particular kind becoming a scheme of another kind

36. The object of a scheme which is an authorised securities scheme, a feeder fund, a fund of funds or a money market fund shall not be altered so as to have the effect that the scheme ceases to be a scheme of that particular kind.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations make provision as to the investment and borrowing powers exercisable in relation to an authorised unit trust scheme. The regulations make provisions for several different categories of scheme only one of which, a money market fund, may invest in property which is not transferable securities within the meaning of the regulations. The regulations impose limits on the proportion of a scheme which may be invested in property of particular kinds, but enable cash and near cash to be held for the purposes described in regulation 11(1)(a) and also enable property of the scheme to be utilised in transactions designed to reduce risk arising in the management of the scheme.

The regulations also limit the extent to which sums may be borrowed which are repayable out of the property of the scheme, the extent to which the manager of a scheme may, in his capacity as manager, enter into underwriting and sub-underwriting agreements and the circumstances in which the trustee or manager may agree to dispose of property of the scheme. Regulation 33 prohibits certain property of the scheme being lent or used to discharge obligations arising under guarantees or indemnities.

The regulations impose duties on managers and trustees concerning observance of their provisions.
