SCHEDULE 5 Regulation 31(2)

INFORMATION TO BE INCLUDED IN ANNUAL REPORT

FORM A:(a) WATER LEAVING TREATMENT WORKS

Volume of water distributed from works (m³/d)	No. of Samples	% of samples exceeding prescribed concentration or value	
		Total Coliforms	Faecal Coliforms
less than 3,000 3,000–12,000 more than 12,000			
TOTAL			

(b) WATER IN SERVICE RESERVOIRS (INCLUDING WATER TOWERS)

Capacity of reservoir (m³)	No. of Samples	% of samples exceeding prescribed concentration or value	
		Total Coliforms	Faecal Coliforms
less than 2,000 2,000–10,000 more than 10,000			
TOTAL			

(c) WATER AT CONSUMERS' TAPS

SIZE OF ZONE (POPULATION)	less than 5,000	5,000–20,000	20,001–50,000	TOTAL
Type of sample				
Random No. of samples				
% exceeding PCV for TC				
% exceeding PCV for FC				
Fixed No. of samples				
% exceeding PCV for TC				
% exceeding PCV for FC				
Totals No. of samples				
% exceeding PCV for TC				
% exceeding PCV for FC				

Notes PCV = prescribed concentration or value.
   TC = total coliforms.
   FC = faecal coliforms.

FORM B:

(1)	(2)	(3)	(4)	(5)	(6)	(7)(iii)	(8)
Parameter(i)	Size of zone (Population)	No. of zones in size group	No. of samples	% exceeding PCV(ii)	No. of samples in column (5) which satisfy the terms of a relaxation given under Part III	No. of zones in which PCV contravened	No. of zones in column (7) in which action taken has remedied the contravention
eg Colour	less than 5,000 5,000–20,000 20,001–50,000						
	TOTAL						
eg Iron	less than 5,000 5,000–20,000 20,001–50,000						
	TOTAL						
Total(iv)	less than 5,000 5,000–20,000 20,001–50,000		- - - - - - - - - - - -	- - - - - - - - - - - - - - - -			
	TOTAL		- - - - - -	- - - - - - - -			

Notes (i) For pesticides include each sample/zone where one or more pesticides fail to comply with 0.1 µg 1.

    (ii) PCV = prescribed concentration or value.

    (iii) Where a relaxation has been granted under Part III of the Regulations, this column should record only those zones in which samples contravene both the PCV and the terms of the relaxation.

    (iv) A zone in respect of which a PCV has been contravened in relation to more than one parameter should be recorded only once in columns (7) and (8).
