- (b) under section 79(1) of the Act for the provision of services other than those described in regulation 3(2),

is 75% of the Statement remuneration (rounded down, where necessary, to the nearest whole penny), being an amount not exceeding that which the Secretary of State considers to be the cost to the health service (within the meaning of section 79A(5) of the Act) of the supply or provision.

(2) In these Regulations “Statement remuneration” means—

- (a) in relation to the supply (whether or not as part of general dental services) of an appliance described in regulation 2(1), the remuneration provided for by the Statement of Dental Remuneration as that payable to a dental practitioner for the supply of an appliance of that type;
- (b) in relation to other services provided in pursuance of a contract or arrangement for the provision of general dental services, the total amount provided for by that Statement as that payable to the dental practitioner for the provision of those services under that contract or arrangement.

(3) For the purposes of paragraph (2), where the Statement remuneration for any service is a fee of such amount as the Board may in its discretion approve, whether or not subject to a maximum, the amount is—

- (a) if the Board has approved a fee for the service, the amount of the fee so approved, notwithstanding any subsequent variation of that amount on appeal⁽⁵⁾;
- (b) if the Board has refused to approve a fee for the service, the amount of any fee authorised for it on appeal.

(4) Where a dental practitioner—

- (a) has, under a contract or arrangement for the provision of general dental services, begun to provide for a patient services which include the supply of an appliance described in regulation 2(1); and
- (b) has referred that patient, for the supply of that appliance otherwise than as part of general dental services, to a health authority or to a person or body pursuant to arrangements made under section 23 of the Act,

the amount of the charge for that supply shall be calculated in accordance with Schedule 1, and the dental practitioner shall provide the health authority or other person or body with a written statement of the amounts mentioned in sub-paragraphs (a) and (b) of paragraph 1 of that Schedule.

(5) The amount of the charges payable under sections 78 and 79 of the Act in respect of all dental appliances supplied and other services provided in pursuance of any one contract or arrangement for the provision of general dental services shall not exceed £150 in the aggregate; and £150 is the sum prescribed for the purposes of paragraph 3(3) of Schedule 12 to the Act.

Conditions for exemption under the Act

5.—(1) It is a condition of the exemption under sub-paragraph (4) of paragraph 2 of Schedule 12 to the Act in respect of the supply of a dental appliance to a person otherwise than as part of general dental services—

(5) See [S.I. 1974/455](#), regulation 21; the relevant amending instrument is [S.I. 1987/445](#).

- (a) that a written declaration on a form provided for that purpose by the Secretary of State shall be made to the effect that that person is, at the time of the examination or first examination leading to the supply of the appliance, within one of the specified categories; and
 - (b) where the Secretary of State so requires, that the specified evidence shall be supplied by or on behalf of that person.
- (2) It is a condition of the exemptions under sub-paragraph (4) of paragraph 2 and sub-paragraph (4) of paragraph 3 of Schedule 12 to the Act in respect of the supply of a dental appliance, or other services provided, to a person as part of general dental services—
- (a) that a written declaration on a dental estimate form shall be made to the effect that that person is, on the date of the contract or arrangement for the services, within one of the specified categories; and
 - (b) where the Board so requires, that the specified evidence shall be supplied by or on behalf of that person.
- (3) The declarations referred to in paragraphs (1)(a) and (2)(a) shall be made by the person to whom the services are to be provided, except that where the application for services is made by another person on his behalf⁽⁶⁾ it shall be made instead by the person who applies for the services.
- (4) Nothing in paragraph (1)(b) or (2)(b) prevents the Secretary of State or the Board from accepting evidence other than the specified evidence as establishing that a person is within one of the specified categories.
- (5) In this regulation “the specified categories” means the categories of person specified in column (1) of Schedule 2 and “the specified evidence”, in relation to any of those categories, means the evidence specified in relation to it in column (2) of that Schedule.

Making and recovery of charges

- 6.—**(1) Where any charge is payable under section 78 of the Act in respect of the supply of a dental appliance under the Act otherwise than as part of general dental services, the Secretary of State or health authority may—
- (a) on arranging to supply it, make the appropriate charge; and
 - (b) on supplying it or having it available for supply, recover the appropriate charge from the patient (if it has not previously been paid).
- (2) In providing general dental services for which a charge may be made under section 78 or section 79 of the Act, a dental practitioner—
- (a) may, on arranging to provide the service, make the appropriate charge;
 - (b) shall require the patient to acknowledge, on the appropriate part of the dental estimate form, and before that form is sent to the Board, his obligation to pay a charge which is made;
 - (c) may, on providing the service, recover the charge from the patient (if it has not previously been paid); and
 - (d) shall, on receiving a sum in payment (in full or in part) of the charge, give a receipt for it on a form provided for that purpose by the Family Practitioner Committee or a form to the like effect.
- (3) Where a declaration in support of a claim for exemption has been made under regulation 5(2) (a) but the claim is not substantiated, and in consequence of the claim a dental practitioner has not recovered a charge in respect of an appliance supplied or other services provided, the Family

(6) In the case of general dental services, see [S.I. 1973/1468](#), regulation 17.

Practitioner Committee may recover the charge from the person who made the declaration (whether or not the obligation to pay has been acknowledged).

Remission and repayment

7.—(1) The charges which may be made and recovered by virtue of the preceding provisions of these Regulations are subject to the provisions of regulations made under section 83A of the Act providing for remission or repayment.

(2) In regulations 3(2)(b) and 5(2) of the National Health Service (Travelling Expenses and Remission of Charges) Regulations 1988(7) for “section 78(1)” there is substituted in each case “section 78(1A)”.

Charges for more expensive supplies and repairs

8.—(1) Where the Secretary of State—

- (a) supplies a dental appliance which is, at the request of the person supplied, of a type more expensive than the basic type; or
- (b) repairs such a dental appliance at a cost exceeding that of repairing a dental appliance of the basic type,

he may make and recover from the patient a charge equal to the difference between the cost of supplying or repairing the appliance and the cost of supplying or repairing an appliance of the basic type, in addition to any charge authorised by section 78 of the Act.

(2) Where a dental practitioner providing general dental services, as part of those services and at the request of the person supplied,—

- (a) supplies a denture which is of a type more expensive than the basic type;
- (b) repairs such a denture at a cost exceeding that of repairing a denture of the basic type; or
- (c) supplies a bridge which is of a type more expensive than a denture or a bridge of the basic type,

he may, subject to paragraph (4), make and recover from the patient in respect of the supply or repair of the appliance a charge of an amount calculated in accordance with Part I of Schedule 3.

(3) Part II of Schedule 3 shall have effect with respect to the procedure for determining the amount of the charge referred to in paragraph (2).

(4) In the case of an appliance supplied or repaired by a dental practitioner who is remunerated in accordance with Determination IV of the Statement of Dental Remuneration (salaried dentists), the Family Practitioner Committee, and not the dental practitioner, shall make and recover the charge.

Charges for replacement – general dental services

9.—(1) Where a dental practitioner providing general dental services replaces a dental appliance supplied as part of those services and it is determined in accordance with Schedule 4 that the replacement is necessitated by—

- (a) an act or omission on the part of the person supplied; or
- (b) if the act or omission occurred when the person supplied was under 16 years of age, an act or omission of the person supplied or of the person having charge of him when the act or omission occurred,

the dental practitioner may make and recover a charge from the relevant person.

(2) The amount of the charge to be made and recovered under paragraph (1) is, subject to paragraph (3), the Statement remuneration for the supply of the dental appliance.

(3) If the Family Practitioner Committee considers—

- (a) that payment of the full amount of the charge under paragraph (1) would involve undue hardship to the relevant person; or
- (b) that the replacement, though necessitated by the relevant person's act or omission, was not wholly necessitated by lack of reasonable care on his part,

it may determine that the charge shall not be payable, or that its amount shall be reduced.

(4) In this regulation, "relevant person" means—

- (a) where paragraph (1)(b) applies, the person having charge of the person supplied when the act or omission occurred;
- (b) in any other case, the person supplied.

Discontinuation of treatment – general dental services

10. A dental practitioner providing general dental services may decline—

- (a) to begin treatment; or
- (b) where treatment has begun, to continue with it,

until he or the Family Practitioner Committee has received payment of the amount of any charge payable to him or it in accordance with these Regulations.

Reduction of remuneration and accounting for charges – general dental services

11.—(1) Subject to paragraph (2), the remuneration which would otherwise be payable by a Family Practitioner Committee to a dental practitioner providing general dental services shall be reduced by the amount of the charges authorised by these Regulations in respect of those services.

(2) Paragraph (1) does not apply to remuneration under Determination IV of the Statement of Dental Remuneration (salaried dentists).

(3) A dental practitioner remunerated under Determination IV of the Statement of Dental Remuneration shall account for and pay to the Family Practitioner Committee, in such manner as it may require, the amount of any charges recovered from a patient under these Regulations.

Revocations, amendment, savings and application of Regulations

12.—(1) The regulations specified in column (1) of Schedule 5 are revoked to the extent specified in column (3) of that Schedule.

(2) In the National Health Service (General Dental Services) Regulations 1973—

- (a) in regulation 26H, for "carried out pursuant to regulation 20" there is substituted "referred to in regulation 8(2) of the National Health Service (Dental Charges) Regulations 1989" and for "pursuant to regulation 21" there is substituted "in consequence of loss or damage".
- (b) in Part I of Schedule 1 (terms of service), in paragraph 17(a), after sub-paragraph (ii), there is inserted the following sub-paragraph:—

“(iii) regulations 4(4), 6(2) and 8(2) to (4) of, and Schedule 3 to, the National Health Service (Dental Charges) Regulations 1989,”

(3) These Regulations apply to the supply of a dental appliance otherwise than as part of general dental services only where the examination, or first examination, leading to the supply takes place on or after 1st April 1989; and where the examination or first examination leading to the supply

takes place before 1st April 1989 the charge which may be made and recovered in respect of the supply shall be that authorised by the Act and regulations made under it as in force at the time of that examination or first examination.

(4) These Regulations apply to the provision of general dental services only where the contract or arrangement leading to the supply, as part of those services, of a dental appliance or to some other provision of general dental services is made on or after 1st April 1989; and where the contract or arrangement is made before that date, the charge which may be made and recovered in respect of the supply or the other provision of general dental services shall be that authorised by the Act and regulations made under it as in force at the time when that contract or arrangement was made.

2. The Family Practitioner Committee shall make such inquiry into the matter referred as it thinks fit and if either—

- (a) in its opinion the circumstances so require; or

- (b) if it is so necessitated, shall determine, in accordance with regulation 9(2) and (3), the amount of the charge to be made and recovered.

EXPLANATORY NOTE

(This Note is not part of the Regulations)

These Regulations replace regulations providing for the making and recovery of charges for dental appliances supplied or repaired under the National Health Service (NHS) in England and Wales and for other dental treatment provided as part of NHS general dental services. Accordingly, these Regulations provide for charges for the following:–

the supply of dentures and bridges, whether or not as part of general dental services (regulations 2, 4 and 6 and Schedule 1);

the provision of other dental treatment as part of general dental services (regulations 3, 4 and 6);

the supply or repair, whether or not as part of general dental services, of dental appliances of a type more expensive than is clinically necessary (regulation 8 and Schedule 3);

the replacement, as part of general dental services, of dental appliances lost or damaged by an act or omission of the patient (regulation 9 and Schedule 4).

(Charges for replacement and repair under the NHS, otherwise than as part of general dental services, of dental appliances lost or damaged by an act or omission of the patient remain subject to the more general provisions as to appliances contained in the National Health Service (Charges for Appliances) Regulations 1974.)

The Regulations provide in addition for conditions for statutory exemptions (regulation 5 and Schedule 2), discontinuation of general dental services where charges are not paid (regulation 10), the reduction of a dental practitioner's remuneration by the amount of the charge which is recoverable under the Regulations (regulation 11) and the revocation of the superseded Regulations on dental charges (regulation 12 and Schedule 5).

There are three changes of substance made by these Regulations.

First, the basis of the charge for the supply of all dentures and bridges is altered from a specified amount to that which applies to other treatment, namely a formula of 75% of the fees which are or would be payable to a dentist providing general dental services for the supply of a denture or bridge of the relevant type. This increases charges for dentures by an average of about 10% and charges for bridges of the Maryland type by about 1.5%. Other charges are unaffected.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Secondly, a provision authorising additional charges for certain types of conservative treatment (gold inlays, pinlays or crowns) more expensive than clinically necessary is removed.

Thirdly, the scope of the condition that documentary evidence be produced when a claim is made to be exempt from charges for dental appliances or other treatment as part of general dental services is extended to cases where exemption is claimed on grounds of being under 18 or under 19 and in full-time education (regulation 5 and Schedule 2), and the nature of the evidence to be produced in all cases of exemption is specified in the Regulations.
