1991 No. 324

**The Control of Pollution (Silage, Slurry and
Agricultural Fuel Oil) Regulations 1991**

Storage of slurry

4.—(1) Subject to paragraph (2) below, a person having custody or control of slurry shall store it only in a slurry storage system in relation to which the requirements of Schedule 2 are satisfied or which is an exempt structure by virtue of regulation 6 below.

(2) Paragraph (1) above shall not apply to slurry whilst it is stored temporarily in a tanker with a capacity not exceeding 18,000 litres which is used for transporting slurry on roads or about a farm.
