
STATUTORY INSTRUMENTS

1992 No. 3073

The Supply of Machinery (Safety) Regulations 1992

PART II

APPLICATION

Definition of “machinery”

4. For the purposes of these Regulations, machinery is—
- (a) an assembly of linked parts or components, at least one of which moves including, without prejudice to the generality of the foregoing, the appropriate actuators, control and power circuits, joined together for a specific application, in particular for the processing, treatment, moving or packaging of a material;
 - (b) an assembly of machines, that is to say, an assembly of items of machinery as referred to in paragraph (a) above which, in order to achieve the same end, are arranged and controlled so that they function as an integral whole notwithstanding that the items of machinery may themselves be relevant machinery and accordingly severally required to comply with these Regulations; or
 - (c) interchangeable equipment modifying the function of a machine which is supplied for the purpose of being assembled with an item of machinery as referred to in paragraph (a) above or with a series of different items of machinery or with a tractor by the operator himself save for any such equipment which is a spare part or tool.
