1992 No. 613

**The Council Tax (Administration
and Enforcement) Regulations 1992**

PART VI

Enforcement

Deductions under attachment of earnings order

38.—(1) Subject to paragraphs (2) and (3), the sum to be deducted by an employer under an attachment of earnings order on any pay-day shall be—

- (a) where the debtor's earnings from the employer are payable weekly, a sum equal to the appropriate percentage of the net earnings otherwise payable on that pay-day; and for this purpose the appropriate percentage is the percentage (or percentages) specified in column 2 of Table A in that Schedule 4 in relation to the band in column 1 of that Table within which the net earnings fall;
- (b) where his earnings from the employer are payable monthly, a sum equal to the appropriate percentage of the net earnings otherwise payable on that pay-day; and for this purpose the appropriate percentage is the percentage (or percentages) specified in column 2 of Table B in that Schedule 4 in relation to the band in column 1 of that Table within which the net earnings fall;
- (c) where his earnings from the employer are payable at regular intervals of a whole number of weeks or months, the sum arrived at by—
 - (i) calculating what would be his weekly or monthly net earnings by dividing the net earnings payable to him by the employer on the pay-day by that whole number (of weeks or months, as the case may be),
 - (ii) ascertaining the percentage (or percentages) specified in column 2 of Table A (if the whole number is of weeks) or of Table B (if the whole number is of months) in Schedule 4 opposite the band in column 1 of that Table within which the notional net earnings calculated under paragraph (i) fall, and
 - (iii) calculating the sum which equals the appropriate percentage (or percentages) of the notional net earnings for any of those weeks or months and multiplying that sum by the whole number of weeks or months, as appropriate.

(2) Where paragraph (1) applies and the amount to be paid to the debtor on any pay-day includes an advance in respect of future pay, the sum to be deducted on that pay-day shall be the aggregate of the amount which would otherwise fall to be deducted under paragraph (1) and—

- (a) where the amount advanced would otherwise have been paid on a single pay-day, the sum which would have been deducted on that pay-day in accordance with paragraph (1) if the amount advanced had not been the amount of net earnings on that day; or

- (b) where the amount advanced would otherwise have been paid on more than one pay-day, the sums which would have been deducted on each of the relevant pay-days in accordance with paragraph (1) if—
- (i) an equal proportion of the amount advanced had paid on each of those days; and
 - (ii) the net earnings of the debtor on each of those days had been an amount equal to that proportion.

(3) Where the amount payable to the debtor on any pay-day is reduced by reason of an earlier advance of pay or by reason of the repayment by the debtor of a loan made to him by his employer for any purpose, the net earnings of the debtor on that day shall, for the purposes of paragraph (1), be the amount defined in regulation 32(1) less the amount of the deduction.

(4) Subject to paragraphs (5) and (6), where the debtor's earnings from the employer are payable at regular intervals other than at intervals to which paragraph (1) applies, the sum to be deducted on any pay-day shall be arrived at by—

- (a) calculating what would be his daily net earnings by dividing the net earnings payable to him by the employer on the pay-day by the number of days in the interval,
- (b) ascertaining the percentage (or percentages) specified in column 2 of Table C in Schedule 4 opposite the band in column 1 of that Table within which the notional net earnings calculated under sub-paragraph (a) fall, and
- (c) calculating the sum which equals the appropriate percentage (or percentages) of the notional daily net earnings and multiplying that sum by the number of days in the interval.

(5) Where the debtor's earnings are payable as mentioned in paragraph (4), and the amount to be paid to the debtor on any pay-day includes an amount advanced in respect of future pay, the amount of the debtor's notional net earnings under sub-paragraph (a) of that paragraph shall be calculated in accordance with the formula

$$\frac{A + B}{C + D}$$

where:

A is the amount of net earnings payable to him on that pay-day (exclusive of the amount advanced);

B is the amount advanced;

C is the number of days in the period for which the amount of net earnings is payable; and

D is the number of days in the period for which, but for the agreement to pay in advance, the amount advanced would have been payable.

(6) Paragraph (3) applies in relation to paragraph (4) as it applies in relation to paragraph (1).

(7) Where earnings are payable to a debtor by the employer by 2 or more series of payments at regular intervals—

- (a) if some or all of the intervals are of different lengths—
 - (i) for the purpose of arriving at the sum to be deducted, whichever of paragraphs (1), (2), (3), (4), (5) and (6) is appropriate shall apply to the series with the shortest interval (or, if there is more than one series with the shortest interval, such one of those series as the employer may choose), and
 - (ii) in relation to the earnings payable in every other series, the sum to be deducted shall be 20 per cent. of the net earnings or, where on any pay-day an amount advanced is also paid, 20 per cent. of the aggregate of the net earnings and the amount advanced;
- (b) if all of the intervals are of the same length, whichever of paragraphs (1), (2), (3), (4), (5) and (6) is appropriate shall apply to such series as the employer may choose and

sub-paragraph (a)(ii) shall apply to every other series, above as it applies in relation to paragraph (1).

(8) Subject to paragraphs (9) and (10), where the debtor's earnings from the employer are payable at irregular intervals, the sums to be deducted on any pay-day shall be arrived at by—

- (a) calculating what would be his daily net earnings by dividing the net earnings payable to him by the employer on the pay-day—
 - (i) by the number of days since earnings were last payable by the employer to him, or
 - (ii) if the earnings are the first earnings to be payable by the employer to him with respect to the employment in question, by the number of days since he began the employment;
- (b) ascertaining the percentage (or percentages) specified in column 2 of Table C of Schedule 4 opposite the band in column 1 of that Table within which the notional net earnings calculated under sub-paragraph (a) fall; and
- (c) calculating the sum which equals the appropriate percentage (or percentages) of the daily net earnings and multiplying that sum by the same number as that of the divisor for the purposes of the calculation mentioned in sub-paragraph (a).

(9) Where on the same pay-day there are payable to the debtor by the employer both earnings payable at regular intervals and earnings payable at irregular intervals, for the purpose of arriving at the sum to be deducted on the pay-day under the foregoing provisions of this regulation all the earnings shall be aggregated and treated as earnings payable at the regular interval.

(10) Where there are earnings payable to the debtor by the employer at regular intervals on one pay-day, and earnings are payable by the employer to him at irregular intervals on a different pay-day, the sum to be deducted on each of the pay-days on which the earnings which are payable at irregular intervals are so payable shall be 20 per cent. of the net earnings payable to him on the day.
