

SCHEDULE 2

DANGEROUS OCCURRENCES

PART II

DANGEROUS OCCURRENCES WHICH ARE REPORTABLE IN RELATION TO MINES

Breathing apparatus

- 33.** At any mine an incident where—
- (a) breathing apparatus or a smoke helmet or other apparatus serving the same purpose or a self-rescuer, while being used, fails to function safely or develops a defect likely to affect its safe working; or
 - (b) immediately after using and arising out of the use of breathing apparatus or a smoke helmet or other apparatus serving the same purpose or a self-rescuer, any person receives first-aid or medical treatment by reason of his unfitness or suspected unfitness at the mine.
