**1995 No. 738**

**The Offshore Installations and Pipeline Works  
(Management and Administration) Regulations 1995**

**Helicopters**

**13.** The duty holder shall ensure that—

- (a) a competent person appointed to be in control of helideck operations on the offshore installation (in these Regulations referred to as “the helicopter landing officer”) is present on the installation;
- (b) such person is in control throughout such operations; and
- (c) such procedures are established, and plant provided, as will secure, so far as is reasonably practicable, that helideck operations, including the landing and take-off of helicopters, are without risks to health and safety.
