The Infant Formula and Follow-on Formula Regulations 1995

Composition of infant formulae and follow-on formulae

- 9.—(1) A follow-on formula shall be manufactured only from—
- (a) the protein sources and food ingredients specified in Schedule 2, and
 - (b) other food ingredients the suitability of which for particular nutritional use by infants aged over four months has been established by generally accepted scientific data.
- (2) In the manufacture of any follow-on formula the prohibitions and limitations on the use of food ingredients set out in Schedule 2 shall be observed.
- (3) The composition of a follow-on formula shall conform to the criteria specified in Schedule 2.
- (4) In this regulation a reference to Schedule 2 shall be read as a reference to that Schedule as read with Schedules 6 and 7.
