**1997 No. 831**

**The Lifts Regulations 1997**

**PART III**

**GENERAL REQUIREMENTS**

**Requirements fulfilled by the person who places a lift or safety component on the market**

**14.—(1)** Where in the case of a lift or a safety component, any of the requirements of regulations 8, 9, 11 and 13 to be fulfilled by the installer of the lift or the manufacturer of the safety component or, in the case of the latter, his authorised representative established in the Community, have not been so fulfilled such requirements may be fulfilled by the person who places that lift or safety component on the market.

(2) Nothing in this regulation shall affect the power of an enforcement authority to take action under Part IV of these Regulations in respect of the installer of the lift, the manufacturer of the safety component or, in the case of the latter, his authorised representative established in the Community in respect of a contravention of or a failure to comply with any of those requirements.
