
STATUTORY INSTRUMENTS

1998 No. 2526

**The Education (School Information)
(England) Regulations 1998**

PART VI

SUPPLEMENTARY

Supplementary provisions relating to published documents

14.—(1) This regulation shall apply in relation to any document which contains such information or particulars as are mentioned in the preceding provisions of these Regulations and which is published in accordance with them.

(2) Such a document shall state the school year to which the information or particulars contained in it relate and contain a warning that, although they were correct in relation to that year at a date specified in the document (not being earlier than six months before that of its publication), it should not be assumed that there will be no change affecting the relevant arrangements or some matter particularised—

- (a) before the start of, or during, the school year in question, or
- (b) in relation to subsequent school years.

(3) If it appears requisite to the governing body in respect of such a document to be published by them or, as the case may be, an authority in respect of such a document to be published by them or on behalf of the governing body, that a translation of such a document in a language other than English should be available or that a braille or audio tape version of such a document should be available, it shall be translated into that language or produced in a braille or audio tape version, as the case may be, and the document so translated or so produced shall be published in such manner as appears to the governing body or authority to be appropriate.

(4) Parents shall not be charged for a copy of such a translated document or such a document produced in a braille or audio tape version if they are entitled without charge to a copy of the original document.
