

SCHEDULE 2

PRODUCTION AND PLACING ON THE MARKET CONDITIONS FOR LIVE SHELLFISH

CHAPTER IV

CONDITIONS FOR THE APPROVAL OF DISPATCH OR PURIFICATION CENTRES

Section III

Requirements for purification centres

7. should a purification tank contain several batches of molluscs, they must be of the same species and come from the same production area or different areas conforming to the same health conditions. The length of the treatment must be based on the time required by the batch needing the longest period of purification;
