## SCHEDULE 3

Regulation 3(a)

### TABLE OF CONTENTS

## SCHEDULE 4

Regulation 3(l), (m) and (n)

### THE APPLICABLE SYSTEMS

## ANNEX A

1. The Applicable Systems are telecommunication systems of every description within the United Kingdom provided that a system ("the System") is an Applicable System only to the extent that it satisfies each of the following conditions:

- (a) the System is one by means of which Messages are conveyed or are to be conveyed:
  - (i) from one Network Termination Point to another such Point;
  - (ii) from a Network Termination Point to another place which is neither a Network Termination Point nor a Call Office or from such a place to such a Point;
  - (iii) between a place which is neither a Network Termination Point nor a Call Office and another such place where their conveyance is not by way of provision of a service to another person; or
  - (iv) between a Call Office and any other place;but in any case not beyond a Network Termination Point;
- (b) none of the apparatus comprised in the System is Relevant Terminal Apparatus installed on premises occupied by a person to whom there are provided telecommunication services by means of the System.

2. In this Annex:

"Applicable Terminal Equipment" means apparatus which is applicable terminal equipment within the meaning of regulation 4 of the Telecommunications Terminal Equipment Regulations 1992 (S.I. 1992/2423);

"Approved Apparatus" means apparatus approved under section 22 of the Act for connection to that system or which is Compliant Terminal Equipment;

"Call Office" means telecommunication apparatus not supplied by the Licensee to any particular person but made available for use by the public or a class of the public;

"Compliant Terminal Equipment" means Applicable Terminal Equipment which satisfies the requirements of regulation 8 of the Telecommunications Terminal Equipment Regulations 1992;

"Message" means anything falling within paragraphs (a) to (d) of section 4(1) of the Act;

"Network Connecting Apparatus" means telecommunication apparatus comprised in the Applicable Systems which is not Network Termination and Testing Apparatus and is connected to another telecommunication system;

"Network Termination and Testing Apparatus" means an item of telecommunication apparatus comprised in the Applicable Systems installed in a fixed position on Served Premises which enables:

**Changes to legislation:** There are outstanding changes not yet made by the legislation.gov.uk editorial team to The Telecommunications (Licence Modification) (Fixed Voice Telephony and International Facilities Operator Licences) Regulations 1999. Any changes that have already been made by the team appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

- (i) Approved Apparatus to be readily connected to, and disconnected from, the Applicable Systems;
  - (ii) the conveyance of Messages between such Apparatus and the Applicable Systems; and
  - (iii) the due functioning of the Applicable Systems to be tested,
- but the only other functions of which, if any, are:
- (A) to supply energy between such Apparatus and the Applicable Systems;
  - (B) to protect the safety or security of the operation of the Applicable Systems; or
  - (C) to enable other operations exclusively related to the running of the Applicable Systems to be performed or the due functioning of any system to which the Applicable Systems are or are to be connected to be tested (separately or together with the Applicable Systems);

“Network Termination Point” means any point:

- (i) within an item of Network Connecting Apparatus at which energy in any of the forms specified in section 4(1) of the Act is conveyed directly to or from apparatus comprised in a telecommunication system other than one in which that Network Connecting Apparatus is comprised; or
- (ii) within an item of Network Termination and Testing Apparatus at which such energy is conveyed directly to any Relevant Terminal Apparatus;
- (iii) which, in the case of a radio based telecommunication system, is the last point at which Messages are transmitted, or the first point at which Messages are received in the form of electromagnetic signals, by apparatus run by a person other than the Licensee and lawfully connected to that System;

“Relevant Terminal Apparatus” means:

- (i) “Terminal Apparatus”, that is to say any telecommunication apparatus installed on Served Premises except a Call Office; and
- (ii) any other telecommunication apparatus connected to the apparatus referred to in subparagraph (i) above constituting a system run under a Licence by the person using that Terminal Apparatus; and

“Served Premises” means a single set of premises in single occupation where apparatus has been installed for the purpose of the provision of telecommunication services by means of the Applicable Systems at those premises.
