(2) A relevant pension shall not be increased under paragraph (1) if, under the rules of the occupational pension scheme, it is for the time being increased, and since the relevant date has always been increased, at intervals of not more than 12 months by at least—

(4) If the relevant pension was transferred to the occupational pension scheme as mentioned in paragraph (3)(b), paragraph (2) does not apply to the relevant pension unless, immediately before the transfer, paragraph (2) (read with this paragraph if relevant) applied to the relevant pension by reference to the scheme from which it was transferred.

(5) In this regulation the default percentage for a period is the percentage for that period which corresponds to—

- (a) 5 per cent. per annum in a case where—
 - (i) the relevant pension is in payment before 6th April 2005; or
 - (ii) the relevant pension is not in payment before 6th April 2005 but the entitlement to the relevant pension credit arose before that day;

for the latest revaluation period specified in the order under paragraph 2 of Schedule 3 to the 1993 Act (revaluation of accrued pension benefits) which is in force at the time of the increase (expressions used in this definition having the same meaning as in that paragraph);

(2) Where the first such increase takes effect on a date when the pension has been in payment for a period of less than 12 months, the increase must be of an amount at least equal to one twelfth of the amount of the increase so required (apart from this paragraph) for each complete month in that period.

Effect of increase above the statutory requirement: qualifying occupational pension schemes

34.—(1) Where in any tax year the trustees or managers of a qualifying occupational pension scheme make an increase in a member’s pension which is a relevant pension, not being an increase required by regulation 32, they may deduct the amount of the increase from any increase which but for this paragraph, they would be required to make under that regulation in the next tax year.

(2) Where in any tax year the trustees or managers of such a scheme make an increase in a member's pension which is a relevant pension, and part of the increase is not required by regulation 32, they may deduct that part of the increase from any increase which, but for this paragraph, they would be required to make under that regulation in the next tax year.

(3) Where by virtue of paragraph (1) or (2) any such pension is not required to be increased in pursuance of regulation 32, or not by the full amount that it otherwise would be, its amount shall be calculated for any purposes as if it had been increased in pursuance of regulation 32 or, as the case may be, by that full amount.
