

## SCHEDULE 13

### RULES OF THE AIR

#### *SECTION II*

#### *GENERAL*

#### **Application of Rules to aircraft**

2. These Rules, in so far as they are applicable in relation to aircraft, shall, subject to the provisions of rule 33, apply in relation to:

- (a) all aircraft within the Territory; and
- (b) all aircraft registered in the Territory, wherever they may be.

#### **Misuse of signals and markings**

3.—(1) A signal or marking to which a meaning is given by these Rules, or which is required by these Rules to be used in circumstances, or for a purpose therein specified, shall not be used except with that meaning, or for that purpose.

(2) A person in an aircraft or on an aerodrome or at any place at which an aircraft is taking off or landing shall not make any signal which may be confused with a signal specified in these Rules, and, except with lawful authority, shall not make any signal which he knows or ought reasonably to know to be a signal in use for signalling to or from any of Her Majesty's naval, military or air force aircraft.

#### **Reporting hazardous conditions**

4. The commander of an aircraft shall, on meeting with hazardous conditions in the course of a flight, or as soon as possible thereafter, send to the appropriate air traffic control unit by the quickest means available information containing such particulars of the hazardous conditions as may be pertinent to the safety of other aircraft.

#### **Low flying**

5.—(1) Subject to the provisions of paragraphs (2) and (3):

- (a) an aircraft other than a helicopter shall not fly over any congested area of a city, town or settlement below:
  - (i) such height as would enable the aircraft to alight clear of the area and without danger to persons or property on the surface, in the event of failure of a power unit and if such an aircraft is towing a banner such height shall be calculated on the basis that the banner shall not be dropped within the congested area; or
  - (ii) a height of 1,500 ft above the highest fixed object within 600 metres of the aircraft: whichever is the higher;
- (b) a helicopter shall not fly below such height as would enable it to alight without danger to persons or property on the surface, in the event of failure of a power unit;
- (c) except with the permission in writing of the Governor and in accordance with any conditions therein specified a helicopter shall not fly over a congested area of a city, town or settlement below a height of 1,500 ft above the highest fixed object within 600 metres of the helicopter;
- (d) (i) subject to paragraph (ii) an aircraft shall not fly:

*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

- (aa) over, or within 1,000 metres of, any assembly in the open air of more than 1,000 persons assembled for the purpose of witnessing or participating in any organised event, except with the permission in writing of the Governor and in accordance with any conditions therein specified and with the consent in writing of the organisers of the event; or
- (bb) below such height as would enable it to alight clear of the assembly in the event of the failure of a power unit and if such an aircraft is towing a banner such height shall be calculated on the basis that the banner shall not be dropped within 1,000 metres of the assembly.
- (ii) where a person is charged with an offence under this Order by reason of a contravention of sub-paragraph (d)(i), it shall be a good defence to prove that the flight of the aircraft over, or within 1,000 metres of, the assembly was made at a reasonable height and for a reason not connected with the assembly or with the event which was the occasion for the assembly;
- (e) an aircraft shall not fly closer than 500 feet to any person, vessel, vehicle or structure.
- (a) (2) (a) The provisions of paragraphs (1)(a)(ii) and 1(c) shall not apply to an aircraft flying:
  - (i) on a route notified for the purposes of this rule; or
  - (ii) on a special VFR flight;unless the aircraft is landing or taking off.
- (b) Paragraphs (1)(a)(ii), (1)(c), (1)(d) and (1)(e) shall not apply to an aircraft flying under and in accordance with the terms of a police air operator's certificate.
- (c) Paragraphs (1)(d)(i)(aa) and (1)(e) shall not apply to the flight of an aircraft over or within 1,000 metres of an assembly of persons gathered for the purposes of witnessing or participating in an event which consists:
  - (i) wholly or partly of an aircraft race or contest if the aircraft is taking part in such race or contest or is engaged on a flight arranged by, or made with the consent in writing of, the organisers of the event;
  - (ii) wholly or partly of a flying display for which a permission under article 70 of this Order is required, if the aircraft is taking part in such display or is engaged on a flight arranged by or made with the consent of the organisers of the event and the flight is made:
    - (aa) in accordance with the terms of a permission granted to the flying display director under article 70 of the Order; and
    - (bb) in accordance with the conditions of a pilot display authorisation granted to the pilot under article 70 of this Order; or
  - (iii) wholly or principally of a flying display for which a permission under article 70 of this Order is not required, if the aircraft is taking part in such display or is engaged on a flight arranged by or made with the consent of the organisers of the event.
- (d) Paragraph (1)(e) shall not apply to:
  - (i) any aircraft while it is landing or taking off in accordance with normal aviation practice;
  - (ii) any glider while it is hill-soaring;
  - (iii) any aircraft while it is flying in accordance with article 56(3)(f) of this Order;
  - (iv) any aircraft while it is flying under and in accordance with the terms of an aerial application certificate granted to the operator thereof under article 58 of this Order; or

- (v) any aircraft while it is flying for the purpose of picking up or dropping tow ropes, banners or similar articles at an aerodrome.
- (3) Nothing in this rule shall prohibit an aircraft from flying in such a manner as is necessary for the purpose of saving life.
  - (a) (4) (a) Subject to sub-paragraph (b), nothing in this rule shall prohibit any aircraft from flying in accordance with normal aviation practice, for the purpose of taking off from, landing at or practising approaches to landing at, or checking navigational aids or procedures at, a Government or a licensed aerodrome in the Territory or at any aerodrome in any other country.
  - (b) The practising of approaches to landing shall be confined to the airspace customarily used by aircraft when landing or taking off in accordance with normal aviation practice at the aerodrome concerned.
- (5) Nothing in this rule shall apply to any captive balloon or kite.

#### **Simulated instrument flight**

- 6.—(1) An aircraft shall not be flown in simulated instrument flight conditions unless:
  - (a) the aircraft is fitted with dual controls which are functioning properly;
  - (b) an additional pilot (in this rule called a “safety pilot”) is carried in a second control seat of the aircraft for the purpose of rendering such assistance as may be necessary to the pilot flying the aircraft; and
  - (c) if the safety pilot’s field of vision is not adequate both forward and to each side of the aircraft, a third person, being a competent observer, occupies a position in the aircraft which from his field of vision makes good the deficiencies in that of the safety pilot, and from which he can readily communicate with the safety pilot.
- (2) For the purposes of this rule the expression “simulated instrument flight” means a flight during which mechanical or optical devices are used in order to reduce the field of vision or the range of visibility from the cockpit of the aircraft.

#### **Practice instrument approaches**

- 7.—(1) Within the Territory an aircraft shall not carry out instrument approach practice when flying in Visual Meteorological Conditions unless:
  - (a) the appropriate air traffic control unit has previously been informed that the flight is to be made for the purpose of instrument approach practice; and
  - (b) if the flight is not being carried out in simulated instrument flight conditions, a competent observer is carried in such a position in the aircraft that he has an adequate field of vision and can readily communicate with the pilot flying the aircraft.
- (2) For the purposes of this rule the expression “simulated instrument flight” shall have the same meaning as in rule 6.
