**2002 No. 1093**

**The Radioactive Material (Road Transport) Regulations 2002**

**PART I**

**CITATION, COMMENCEMENT AND APPLICATION**

**Relationship of Regulations to other safety controls**

7.—(1) Nothing in these Regulations is to be taken as specifying, or as being a substitution for, controls (including those concerned with the planning of routes or physical safety) which apply to the transport of radioactive material for reasons other than of radiological safety and, accordingly, such controls—

- (a) must still take radiological and non-radiological hazards into account, but
- (b) shall not be taken as detracting from any of the standards of safety provided for in these Regulations.

(2) For the avoidance of any doubt, in matters—

- (a) involving the subsidiary risks arising from radioactive material, and
- (b) relating to the transport of radioactive material with other dangerous goods,

the relevant provisions governing the transport of dangerous goods contained in or under the Health and Safety at Work Act(9)(1) remain applicable in addition to the provisions of these Regulations.
