

SCHEDULE 8

ARTICLE 11 OF THE PPE DIRECTIVE **CHECKING OF PPE MANUFACTURED**

“EC” quality control system for the final product

5. The body of which notification has been given shall provide the manufacturer with a test report. If the report concludes that production is not homogeneous or that the PPE examined do not conform to the type described in the EC type-approval certificate or the relevant basic requirements, the body shall take measures appropriate to the nature of the fault or faults recorded and inform the Member State which gave notification thereof accordingly.
