

## SCHEDULE 2

### **Information to be included in applications for consent to release or market organisms other than genetically modified higher plants**

## **PART II**

### **Information relating to the organisms**

#### *Characteristics of the vector*

15. The nature and source of the vector.
16. The sequence of transposons, vectors and other non-coding genetic segments used to construct the genetically modified organisms and to make the introduced vector and insert functions in those organisms.
17. The frequency of mobilisation, genetic transfer capabilities and/or methods of determination of the inserted vector.
18. The degree to which the vector is limited to the DNA required to perform the intended function.
