

SCHEDULE 1

regulations 9, 84 and 93

COMPENSATION

PART I

Compensation for TSE Susceptible Animals Slaughtered under Regulation 6 or 7

1. The compensation payable for a TSE susceptible animal slaughtered under regulation 6 or 7 above shall be an amount equal to the market value of the animal.
2. The market value of the animal shall be determined—
 - (a) by agreement between the Secretary of State and the owner of the animal; or
 - (b) by a valuer appointed by the Secretary of State.
3. A valuer appointed for the purpose of this regulation shall be paid by the Secretary of State.
4. The valuer shall give to the Secretary of State and the owner a certificate in writing of the value he has determined.
5. Where an animal was certified by a veterinary surgeon before slaughter as—
 - (a) requiring slaughter for emergency reasons relating to the welfare of the animal;
 - (b) not fit for human consumption by virtue of its condition; and
 - (c) having no market value as a consequence,there shall be no compensation payable for the animal.

PART II

Compensation for Carcasses, Parts of Carcasses or Blood of TSE Susceptible Animals Seized or Disposed of under Regulation 8

1. Subject to paragraph 5 below, the compensation for any carcass, part of any carcass or any blood seized or disposed of under regulation 8 shall be compensation to the owner of the carcass, part or blood of an amount equal to the value of the carcass, part or blood at the time it was seized or disposed of.
2. The value of any carcass, part or blood seized or disposed of under regulation 8 shall be determined—
 - (a) by agreement between the Secretary of State and the owner of the carcass, part or blood seized or disposed of; or
 - (b) by arbitration.
3. The owner of a carcass, part of a carcass or blood seized or disposed of under regulation 8 shall pay any reasonable costs or expenses incurred by the Secretary of State in connection with the seizure or disposal.
4. These costs or expenses shall be deducted from the amount of any compensation payable to the owner for the value of the carcass, part or blood seized or disposed of.
5. If the amount of these costs and expenses exceed the amount of compensation payable to the owner, the Secretary of State shall serve on the owner a notice specifying the amount of the excess and the period for payment of this amount to the Secretary of State.

Status: This is the original version (as it was originally made).

6. The owner shall pay to the Secretary of State the amount of the excess within the period specified in the notice.

7. On the expiry of this period, the amount of the excess shall be recoverable as a debt by the Secretary of State from the owner.

PART III

Compensation for TSE Susceptible Animals Slaughtered under Regulation 81 or 82

Compensation for sheep and goats

1. The compensation payable for a sheep or goat slaughtered under regulation 81 or 82 above shall be as specified in paragraphs 2 and 3 below.

2. Where an examination at a veterinary laboratory of the Secretary of State of tissues taken from the carcase of the sheep or goat confirms that it was an animal affected with a TSE, the compensation shall be—

- (a) in the case of an animal at the end of its productive life, the amount of £30; and
- (b) in the case of any other such animal, the amount of £90.

3. Where an examination at a veterinary laboratory of the Secretary of State of tissues taken from the carcase of the sheep or goat does not confirm that it was an animal affected with a TSE, the compensation shall be whatever is the greater of—

- (a) the amount which would be payable under the preceding paragraph if the examination had confirmed it was an animal affected with a TSE; and
- (b) such sum as appears to the Secretary of State, having regard to any information provided by the owner of the animal slaughtered and any other relevant information, to reflect the market value of the animal, subject to a maximum sum of £400 for each animal.

Compensation for bovine animals

4. The compensation payable for a bovine animal slaughtered under regulation 81 or 82 above shall be as specified in the remaining paragraphs of, and the Annexes to, this Part of this Schedule.

5. The following definitions apply for the purposes of this Part of this Schedule as it relates to compensation payable for bovine animals—

“affected animal” means a bovine animal which is affected with a TSE;

“barrener cattle” means adult female bovine animals which have had one or more calves and which are being sold for either immediate slaughter or further fattening before slaughter;

“bovine animal” means a bull, cow, steer, heifer or calf;

“exposed animal” means a bovine animal which has been exposed to the infection of a TSE;

“indicative market price” means a price calculated in accordance with Annex 1 to this Part of this Schedule;

“market value” means—

- (a) in the case of a bovine animal aged 30 months or over, either—
 - (i) the price which might reasonably have been obtained for it at the time of valuation from a purchaser in the open market if the animal were not an affected or suspected animal or an exposed animal; or

- (ii) the purchase price which would have applied had the animal been slaughtered at the time of valuation in accordance with Commission Regulation (EC) No. 716/96 adopting exceptional support measures for the beef market in the United Kingdom, as amended,

whichever is the higher; and

- (b) in the case of a bovine animal aged under 30 months, the price which might reasonably have been obtained for it at the time of valuation from a purchaser in the open market if the animal were not an affected, suspected or exposed animal; and

“suspected animal” means a bovine animal which is suspected of being affected with bovine spongiform encephalopathy.

6. The compensation payable for an affected animal shall be an amount equal to either—

- (a) the market value of the animal; or
- (b) the indicative market price for the month in which the market value of the animal was determined,

whichever is the less.

7. Where a suspected animal is slaughtered and an examination at a veterinary laboratory of the Secretary of State of tissues taken from the carcass of the animal does not confirm that it was an animal affected with a TSE, the compensation shall be an amount equal to either—

- (a) the market value of the animal; or
- (b) 125% of the indicative market price for the month in which the market value of the animal was determined,

whichever is the less.

8. The market value of an affected or suspected bovine animal shall, for the purposes of payment of compensation under this Part of this Schedule, be determined—

- (a) by agreement between the Secretary of State and the owner of the animal;
- (b) by one valuer appointed jointly by the Secretary of State and the owner; or
- (c) failing such agreement or appointment, by a valuer nominated by the President of the Royal Institution of Chartered Surveyors.

9. A valuer appointed or nominated under paragraph 8(b) or (c) above shall be paid by the Secretary of State and shall give to the Secretary of State and the owner a certificate in writing of the value of the animal valued under the appointment or nomination.

10. The Secretary of State shall take such steps as she considers appropriate for the purpose of bringing to the notice of persons concerned the indicative market price in respect of each month and the total number of animals and the total sale price on which the calculation of such indicative market price was based.

11. The compensation payable for an exposed animal shall be an amount equal to either—

- (a) in the case of a female animal, 90% of the replacement value of the animal calculated in accordance with paragraph (2) below, or, if higher, the market value of the animal; and
- (b) in the case of a male animal, the market value of the animal,

enhanced, where the Secretary of State causes 10% or more of a herd to be slaughtered as exposed animals, by a percentage calculated in accordance with Annex 2 to this Part of this Schedule.

Status: This is the original version (as it was originally made).

12. For the purposes of paragraph 11(a) above the replacement value of a bovine animal is the value, at the time of valuation, of an animal in its first lactation of the same breed and quality as that animal.

13. For the purposes of paragraph 11 above and Annex 2 to this Part of this Schedule “herd” means the bovine animals kept on a holding which—

- (a) in the case of female animals, are in milk or in calf; and
- (b) in the case of male animals, have been used for breeding purposes,

and are managed as a separate production unit at the time notice of the decision of the Secretary of State to slaughter the animal is given to the keeper or other person in charge of the animal.

14. In ascertaining the percentage of a herd slaughtered for the purpose of calculating any enhancement under paragraph 11 above, animals slaughtered under any voluntary slaughter scheme introduced in relation to exposed animals shall be included in the calculation as if they were animals caused to be slaughtered by the Secretary of State.

15. The replacement value or market value, as the case may be, of a bovine animal which the Secretary of State causes to be slaughtered shall, for the purposes of payment of compensation under these Regulations, be determined—

- (a) by agreement between the Secretary of State and the owner of the animal;
- (b) by one valuer appointed jointly by the Secretary of State and the owner; or
- (c) failing such agreement or appointment, by a valuer nominated by the President of the Royal Institution of Chartered Surveyors.

16. A valuer appointed or nominated under paragraph 15(b) or (c) above shall be paid by the Secretary of State and shall give to the Secretary of State and the owner a certificate in writing of the value of the animal valued under the appointment or nomination.

17. Where an animal was certified by a veterinary surgeon before slaughter as—

- (a) requiring slaughter for emergency reasons relating to the welfare of the animal;
- (b) not fit for human consumption by virtue of its condition; and
- (c) having no market value as a consequence,

there shall be no compensation payable for the animal.

Paragraph 5

ANNEX 1 TO PART III OF SCHEDULE 1

CALCULATION OF INDICATIVE MARKET PRICE

The indicative market price for each month shall be calculated using data collected in England relating to the month occurring two months before the date on which the market value was determined under this Part of this Schedule and in accordance with the following formula:

$$\frac{(A \times B) + (C \times D)}{(A + C)}$$

where—

A equals the number of cattle aged less than 7 years when valued which were slaughtered as BSE suspects;

B equals the average price for Friesian and Holstein cows in milk and in calf, first calving cows in milk and down calving heifers, in each case of first and second quality;

C equals the number of cattle aged 7 years or more when valued which were slaughtered as BSE suspects; and

D equals the average purchase price paid in the case of barren cattle of dairy breeds slaughtered in accordance with Commission Regulation (EC) No. 716/96 adopting exceptional measures for the support of the beef market in the United Kingdom, as amended,

the final figure being rounded down to the nearest multiple of £1.

Paragraph 11

ANNEX 2 TO PART III OF SCHEDULE 1

CALCULATION OF ENHANCEMENT OF COMPENSATION

Calculation of Enhancement of Compensation

1.—(1) For bovine animals not in a closed herd, where the Secretary of State causes 10% or more of the herd to be slaughtered as exposed animals, the amount of compensation payable shall, subject to sub-paragraphs (2) and (3) below, be enhanced by $(10+E)\%$, where E equals half the percentage by which the percentage of the herd caused to be slaughtered exceeds 10%.

(2) Where the amount of compensation payable for a bovine animal exceeds £1,000, that amount shall be treated as £1,000 for the purpose of calculating under sub-paragraph (1) above the amount by which the amount of compensation payable should be enhanced.

(3) Where the calculation in sub-paragraph (1) above produces an enhancement percentage in excess of 25%, the amount of compensation payable shall be enhanced by 25%.

2. For bovine animals in a closed herd, where the Secretary of State causes 10% or more of the herd to be slaughtered as exposed animals, the amount of compensation payable shall be enhanced by a percentage that is $1\frac{1}{2}$ times the enhancement percentage produced by the calculation in paragraph 1 above.

3. In this Schedule “closed herd” means a herd into which no female bovine animal has been introduced since 15th October 1990.

PART IV

COMPENSATION FOR CARCASES, PARTS OF CARCASES OR BLOOD OF TSE SUSCEPTIBLE ANIMALS SEIZED OR DISPOSED OF UNDER REGULATION 83

1. Subject to paragraph 5 below, the compensation for any carcase, part of any carcase or any blood seized or disposed of under regulation 83 shall be compensation to the owner of the carcase, part or blood of an amount equal to the value of the carcase, part or blood at the time it was seized or disposed of.

2. The value of any carcase, part or blood seized or disposed of under regulation 83 shall be determined—

(a) by agreement between the Secretary of State and the owner of the carcase, part or blood retained, seized or disposed of; or

(b) by arbitration.

3. The owner of a carcase, part of a carcase or blood seized or disposed of under regulation 83 shall pay any reasonable costs or expenses incurred by the Secretary of State in connection with the seizure or disposal.

4. These costs or expenses shall be deducted from the amount of any compensation payable to the owner for the value of the carcase, part or blood seized or disposed of.

Status: This is the original version (as it was originally made).

5. If the amount of these costs and expenses exceed the amount of compensation payable to the owner, the Secretary of State shall serve on the owner a notice specifying the amount of the excess and the period for payment of this amount to the Secretary of State.

6. The owner shall pay to the Secretary of State the amount of the excess within the period specified in the notice.

7. On the expiry of this period, the amount of the excess shall be recoverable as a debt by the Secretary of State from the owner.

PART V

COMPENSATION FOR ANY TSE SUSPECT OR CONFIRMED ANIMAL OR A FIRST GENERATION PROGENY OF ANY SUCH ANIMAL SLAUGHTERED UNDER REGULATION 90 OR 91

1. The compensation payable for a TSE suspect or confirmed animal, or a first generation progeny of any such animal, slaughtered under regulation 90 or 91 above shall be an amount equal to the market value of the animal.

2. The market value of the animal shall be determined—

- (a) by agreement between the Secretary of State and the owner of the animal; or
- (b) by a valuer appointed by the Secretary of State.

3. A valuer appointed for the purpose of this regulation shall be paid by the Secretary of State.

4. The valuer shall give to the Secretary of State and the owner a certificate in writing of the value he has determined.

5. Where an animal was certified by a veterinary surgeon before slaughter as—

- (a) requiring slaughter for emergency reasons relating to the welfare of the animal;
- (b) not fit for human consumption by virtue of its condition; and
- (c) having no market value as a consequence,

there shall be no compensation payable for the animal.

PART VI

COMPENSATION FOR SEIZURE OR DISPOSAL UNDER REGULATION 92

1. Subject to paragraph 5 below, the compensation for any—

- (a) carcase of a TSE suspect or confirmed animal or the carcase of a first generation progeny of any such animal;
- (b) part of such a carcase or any blood derived from any such carcase or part; or
- (c) semen, embryos or ova derived from any TSE suspect or confirmed animal;

seized or disposed of under regulation 92 shall be compensation to the owner of the carcase, part, blood or semen, embryos or ova of an amount equal to the value of the carcase, part, blood or semen, embryos or ova at the time it was seized or disposed of.

2. The value of any carcase, part, blood or semen, embryos or ova seized or disposed of under regulation 92 shall be determined—

- (a) by agreement between the Secretary of State and the owner of the carcase, part, blood or semen, embryos or ova retained, seized or disposed of; or
 - (b) by arbitration.
3. The owner of a carcase, part, blood or semen, embryos or ova seized or disposed of under regulation 92 shall pay any reasonable costs or expenses incurred by the Secretary of State in connection with the seizure or disposal.
4. These costs or expenses shall be deducted from the amount of any compensation payable to the owner for the value of the carcase, part, blood or semen, embryos or ova seized or disposed of.
5. If the amount of these costs and expenses exceed the amount of compensation payable to the owner, the Secretary of State shall serve on the owner a notice specifying the amount of the excess and the period for payment of this amount to the Secretary of State.
6. The owner shall pay to the Secretary of State the amount of the excess within the period specified in the notice.
7. On the expiry of this period, the amount of the excess shall be recoverable as a debt by the Secretary of State from the owner.

SCHEDULE 2

Regulation 14(2)(a) and 16

Conditions for the transport of fishmeal for feeding to farmed animals other than ruminants

1. Fishmeal for use in the manufacture of feed for farmed animals other than ruminants shall be transported directly from the premises where the fishmeal is produced to the premises manufacturing the animal feed by means of a vehicle which at the same time is not used for the transport of other feed materials.
2. If a vehicle used for the transport of fishmeal for use in the manufacture of feed for farmed animals other than ruminants is subsequently used for the transport of other products, it shall be thoroughly cleaned and inspected before and after the transport of the fishmeal.
3. Intermediate storage of fishmeal is allowed only if it is carried out in dedicated storage plants.
4. Fishmeal imported from a third country for use in the manufacture of feed for farmed animals other than ruminants shall be transported directly from the border inspection post in accordance with the conditions laid down in Article 8 of Council Directive [97/78/EC\(1\)](#) to the establishment manufacturing the animal feed by means of a vehicle which at the same time is not used for the transport of other feed materials.
5. If a vehicle used for the transport of fishmeal imported from a third country for use in the manufacture of feed for farmed animals other than ruminants is subsequently used for the transport of other products, it shall be thoroughly cleaned and inspected before and after the transport of the fishmeal.

(1) OJ No. L24, 30.1.1998, p. 9.

SCHEDULE 3

Regulation 17

Conditions for the production of dicalcium phosphate for feeding to farmed animals other than ruminants

1. Dicalcium phosphate for feeding to farmed animals other than ruminants shall be produced from defatted bones.
2. The dicalcium phosphate shall be derived from bones derived from animals fit for human consumption following ante- and post-mortem inspection.
3. The dicalcium phosphate shall be produced by a process which ensures that all bone material is finely crushed and degreased with hot water and treated with dilute hydrochloric acid (at a minimum concentration of 4% and pH1.5) over a period of at least two days followed by a treatment of the obtained phosphoric liquor with lime, resulting in a precipitate of dicalcium phosphate at pH 4 to 7, which is finally air dried with inlet temperature of 65°C-325°C and end temperature between 30°C-65°C or by an equivalent process approved in accordance with the procedure of Article 17 of Council Directive [89/662/EEC](#)(2) concerning veterinary checks in intra-Community trade with a view to the completion of the internal market.
4. Dicalcium phosphate for use in the manufacture of feed for farmed animals other than ruminants shall be transported by means of a vehicle which at the same time is not used for the transport of other feed materials.

SCHEDULE 4

Regulation 17

Conditions for the production of hydrolysed protein for feeding to farmed animals other than ruminants

1. Hydrolysed protein from hides and skins shall—
 - (a) be derived from hides and skins obtained from animals which have been slaughtered in a slaughterhouse and whose carcasses have been found fit for human consumption following ante- and post-mortem inspection; and
 - (b) be produced by a production process which involves appropriate measures to minimise contamination of hides and skins, preparation of the raw material by brining, liming and intensive washing followed by exposure of the material to a pH of 11 for 3 hours at temperature 80°C and followed by heat treatment at 140°C for 30 minutes at 3.6 bar; or by an equivalent production process approved in accordance with the procedure of Article 17 of Council Directive [89/662/EEC](#)(3) concerning veterinary checks in intra-Community trade with a view to the completion of the internal market.
2. Hydrolysed protein from fish, feather, hides and skins shall be sampled after processing and found to have a molecular weight below 10,000 Dalton.
3. Hydrolysed protein for use in the manufacture of feed for farmed animals other than ruminants shall be transported by means of a vehicle which at the same time is not used for the transport of other feed materials.

(2) OJ No. L395, 30.12.1989, p. 13, as last amended by Directive [1992/118/EEC](#) (OJ No. L62, 15.3.1993, p. 49).

(3) OJ No. L395, 30.12.1989, p. 13, as last amended by Directive [1992/118/EEC](#) (OJ No. L62, 15.3.1993, p. 49).

SCHEDULE 5

Regulation 30(4)

Application of Part IV of the Regulations to scheme animals

PROVISION OF THE REGULATIONS	EXTENT TO WHICH PROVISION APPLIES TO SCHEME ANIMALS
regulation 33(3)	Not applicable
regulation 33(4)	Subject to the modification that from the point at which specified risk material derived from a scheme animal is removed from the slaughterhouse, it may come into contact with any other animal material from such an animal
regulation 34	Not applicable
regulation 39(3)(b)	Not applicable
regulation 54(2)	Subject to the modification that the impervious container or part of the vehicle (as the case may be) may also contain animal material from scheme animals
regulation 57	Not applicable
regulation 66(1)	Subject to the modification that specified risk material may come into contact with any animal material from a scheme animal
regulation 67(3)	Subject to the modification that equipment used for processing specified risk material may be used for processing any part of a scheme animal
regulation 68(1)	Subject to the modification that protein and tallow produced from specified risk material of scheme animals shall be disposed of by burning by means which have been licensed under the Environmental Protection Act 1990
Paragraph 1 of Part I of Schedule 5	Subject to the modification that specified risk material need not be stored, handled and processed separately from animal material from scheme animals

SCHEDULE 6

Regulation 56(2)(b),65(2), 67(1) and 68(2)

Rendering requirements

PART I

**REQUIREMENTS FOR PREMISES USED FOR
RENDERING SPECIFIED RISK MATERIAL**

1. The premises shall be adequately separated from the public highway and other premises. Notwithstanding this, they may occupy the same site as premises where animal products which are not specified risk material are rendered provided that specified risk material is stored, handled and processed separately from other animal material and by means of equipment used only for specified risk material.
2. Unauthorised persons and animals shall not be permitted to have access to the premises.
3. The premises or part of the premises used to process specified risk material must have a clean and an unclean section specified by the occupier, adequately separated. The unclean section must have a covered place to receive and store the specified risk material for processing and must be constructed in such a way that it is easy to clean and disinfect. Floors must be laid in such a way as to facilitate the draining of liquids. The premises must have adequate lavatories, changing rooms and washbasins for staff.
4. The premises shall have sufficient capacity of hot water and steam production to render specified risk material in accordance with the method in Part II of this Schedule chosen by the operator.
5. The equipment used to render specified risk material shall include—
 - (a) measuring equipment to check temperature and, if necessary, pressure at critical points;
 - (b) recording devices to record continuously the results of measurements; and
 - (c) an adequate safety system to prevent insufficient heating.
6. To prevent recontamination of processed specified risk material by incoming specified risk material, there must be clear separation between the area of the premises where the incoming specified risk material is unloaded and rendered and the areas set aside for further processing of the heated specified risk material and the storage of finished specified risk material products.
7. The premises must have adequate facilities for cleaning and disinfecting the containers or receptacles in which unprocessed specified risk material is received and the vehicles in which it is transported.
8. Adequate facilities must be provided for disinfecting the wheels, immediately before their departure, of vehicles transporting specified risk material or leaving the unclean section of the premises.

PART II
METHODS OF RENDERING
METHOD 1
NATURAL FAT BATCH

Reduction

1. If the particle size of the animal by-products to be rendered is more than 150 millimetres, the animal by-products shall be reduced in size using equipment specified in the licence, set so that the particle size after reduction is no greater than 150 millimetres or such smaller size as the licence shall specify. The effectiveness of the equipment shall be checked daily and its condition recorded. If checks disclose the existence of particles larger than is permitted in the licence, the process shall be stopped and repairs made before the process is resumed.

Time and temperature

2. After reduction the animal by-products shall be heated to a core temperature greater than 100°C for at least 125 minutes, a core temperature greater than 110°C for at least 120 minutes and a core temperature greater than 120°C for at least 50 minutes.

3. The rendering shall be carried out in a batch system.

4. The animal by-products may be cooked such that the time-temperature requirements are achieved at the same time.

METHOD 2
NATURAL FAT CONTINUOUS OR BATCH

Reduction

1. If the particle size of the animal by-products to be rendered is more than 30 millimetres, the animal by-products shall be reduced in size using equipment specified in the licence, set so that the particle size after reduction is no greater than 30 millimetres or such smaller size as the licence shall specify. The effectiveness of the equipment shall be checked daily and its condition recorded. If checks disclose the existence of particles larger than is permitted in the licence, the process shall be stopped and repairs made before the process is resumed.

Time and temperature

2. After reduction, the animal by-products shall be heated to a core temperature greater than 100°C for at least 95 minutes, a core temperature greater than 110°C for at least 55 minutes and a core temperature greater than 120°C for at least 13 minutes.

3. The rendering may be carried out in batch or continuous systems.

4. The animal by-products may be cooked such that the time-temperature requirements are achieved at the same time.

Status: This is the original version (as it was originally made).

METHOD 3

ADDED FAT CONTINUOUS OR BATCH

Reduction

1. If the particle size of the animal by-products to be rendered is more than 30 millimetres, the animal by-products shall be reduced in size using equipment specified in the licence, set so that the particle size after reduction is no greater than 30 millimetres or such smaller size as the licence shall specify. The effectiveness of the equipment shall be checked daily and its condition recorded. If checks disclose the existence of particles larger than is permitted in the licence, the process shall be stopped and repairs made before the process is resumed.

Time and temperature

2. After reduction the animal by-products shall be placed in a vessel with added fat and heated to a core temperature greater than 100°C for at least 16 minutes, a core temperature greater than 110°C for at least 13 minutes, a core temperature greater than 120°C for at least 8 minutes and a core temperature greater than 130°C for at least 3 minutes.

3. The rendering may be carried out in batch or continuous systems.

4. The animal by-products may be cooked such that the time-temperature requirements are achieved at the same time.

METHOD 4

CONTINUOUS OR BATCH PRESSURE

Reduction

1. If the particle size of the animal by-products to be rendered is more than 50 millimetres, the animal by-products shall be reduced in size using equipment specified in the licence, set so that the particle size after reduction is no greater than 50 millimetres or such smaller size as the licence shall specify. The effectiveness of the equipment shall be checked daily and its condition recorded. If checks disclose the existence of particles larger than is permitted in the licence, the process shall be stopped and repairs made before the process is resumed.

Time and temperature

2. After reduction the animal by-products shall be heated to a core temperature of more than 133°C for at least 20 minutes without interruption at a pressure of at least 3 bar.

3. The rendering may be carried out in batch or continuous systems.

METHOD 5

DEFATTED CONTINUOUS OR BATCH

Reduction

1. If the particle size of the animal by-products to be rendered is more than 20 millimetres, the animal by-products shall be reduced in size using equipment specified in the licence, set so that the particle size after reduction is no greater than 20 millimetres or such smaller size as the licence shall specify. The effectiveness of the equipment shall be checked daily and its condition recorded. If checks disclose the existence of particles larger than is permitted in the licence, the process shall be stopped and repairs made before the process is resumed.

Time and temperature

2. After reduction the animal by-products shall be heated until they coagulate and then pressed so that fat and water are removed from the proteinaceous material. The proteinaceous material shall then be heated to a core temperature greater than 80°C for at least 120 minutes and a core temperature greater than 100°C for at least 60 minutes.
3. The rendering may be carried out in batch or continuous systems.
4. The animal by-products may be cooked such that the time-temperature requirements are achieved at the same time.

METHOD 6

ADDED FAT CONTINUOUS ATMOSPHERIC

Equipment

1. The premises shall be equipped with apparatus to crush specified risk material to the appropriate particle size, at least one cooker to cook the specified risk material, sufficient capacity of hot water and steam production to render specified risk material in accordance with this method, and equipment to separate protein from tallow and store those products.

Crushing

2. The raw material shall be reduced in size by crushing so that the particle size does not exceed 30 mm. Final reduction equipment shall be checked daily and its condition recorded. Any broken equipment shall be repaired without delay to ensure that the final particle size is achieved.

Cooking

3. The material shall be passed into a steam heated vessel where a consistent level of hot liquid tallow is maintained by recycling tallow as appropriate. Passage of the raw material through the vessel shall be controlled by means of displacement and mechanical restrictions to ensure that the cooked dried material is discharged with all of its residual moisture removed as water vapour. The maximum feed rate for raw material, the maximum tallow recycle rate, and the minimum discharge temperature will be set for the vessel in the licence for the premises granted under these Regulations. The material shall be cooked at a temperature in excess of 100°C for at least 16 minutes, a temperature in excess of 110°C for at least 13 minutes, a temperature in excess of 120°C for at least 8 minutes and a temperature in excess of 130°C for at least 3 minutes. Material may be cooked so that two or more time/temperature requirements are carried out at the same time. The times and temperatures achieved during the cooking process must be recorded on a permanent recording system.

Separation and storage of final products

4. On discharge from the vessel, any surplus tallow not required to maintain the vessel's operating level shall be removed, and the material separated into its tallow and protein components. Protein and tallow shall be stored separately.

Records

5. All records shall be kept for one year.

METHOD 7

DEFATTED CONTINUOUS ATMOSPHERIC

Equipment

1. The premises shall be equipped with apparatus to crush specified risk material to the appropriate particle size, at least one cooker to cook the specified risk material, sufficient capacity of hot water and steam production to render specified risk material in accordance with this method, and equipment to separate protein from tallow and store those products.

Crushing

2. The raw material shall be reduced in size by crushing so that the particle size does not exceed 20 mm. Final reduction equipment shall be checked daily and its condition recorded. Any broken equipment shall be repaired without delay to ensure that the final particle size is achieved.

Pre-heating

3. The crushed material shall then be passed to a pre-heater. Passage of the raw material through the pre-heater shall be controlled by means of displacement and mechanical restrictions to ensure that the cooked material is discharged at a temperature of at least 80°C and in a form in which water and tallow can be removed from the protein residue.

Pressing

4. The material discharged from the pre-heater must be passed through a screw press so adjusted that all water and tallow are removed from the protein residue.

Drying

5. The protein residue shall be passed into a steam heated vessel. Passage of the protein residue through the vessel shall be controlled by means of displacement and mechanical restrictions to ensure that the cooked dried protein is discharged with all of its residual moisture removed as water vapour. A maximum feed rate for protein residue and a minimum discharge temperature will be set for the vessel by an officer of the Secretary of State. The material shall be maintained at a temperature in excess of 80°C for at least 120 minutes and a temperature in excess of 100°C for at least 60 minutes. Material may be cooked so that both time/temperature requirements are carried out at the same time. The times and temperatures achieved during the cooking process must be recorded on a permanent recording system.

Storage of final products

6. Protein and tallow shall be stored separately.

Records

7. All records shall be kept for one year.

SCHEDULE 7

Regulation 94

Offspring Slaughter

Interpretation

1.—(1) For the purposes of this Schedule—

“barrener cattle” means adult female bovine animals which have had one or more calves and which are being sold either for immediate slaughter or for further fattening before slaughter;

“beef breeding offspring animal” means an offspring animal, other than a pedigree offspring animal or a productive offspring animal, intended for suckler production;

“beef offspring animal” means an offspring animal, other than a pedigree offspring animal or a productive offspring animal, intended for the production of meat for human consumption;

“beef special premium” is the premium payable under Article 4(b) of Council Regulation (EEC) 805/68 as amended(4);

“bovine animal” includes buffalo of the species *Bubalus bubalis* and *Bison bison*;

“cattle passport” has the same meaning as in the Cattle Identification Regulations 1998(5);

“the Council Decision” means Council Decision 98/256/EC(6) concerning emergency measures to protect against bovine spongiform encephalopathy;

“dairy offspring animal” means an offspring animal, other than a pedigree offspring animal or a productive offspring animal, intended for the production of milk for human consumption;

“indicative market price” means a price calculated in accordance with paragraph 8 below;

“market value” means—

(a) in the case of an offspring animal aged 30 months or over, either—

(i) the price which might reasonably have been obtained for it at the time of valuation from a purchaser in the open market if the animal were not an offspring animal; or

(ii) the purchase price which would have applied had the animal been slaughtered at the time of valuation under the OTMS,

whichever is the higher; and

(b) in the case of an offspring animal aged under 30 months, the price which might reasonably have been obtained for it at the time of valuation from a purchaser in the open market if the animal were not an offspring animal;

“offspring animal” means a bovine animal born on or after 1st August 1996 in the United Kingdom, to a dam which—

(a) was affected or suspected of being affected with BSE when it gave birth to the animal; or

(b) has subsequently become affected or suspected of being affected with BSE;

“OTMS” means the Over Thirty Months Scheme for the purchase and slaughter of bovine animals aged over thirty months referred to in Commission Regulation (EC) No. 716/96(7)

(4) OJ No. L148, 28.6.68, p. 24 (OJ/SE Vol. I, p. 187); the last relevant amendment was made by Council Regulation (EC) No. 2222/96, OJ No. L296, 21.11.96, p. 50.

(5) S.I. 1998/871 as amended by S.I. 1998/1796.

(6) OJ No. L113, 15.4.98, p. 32, as amended by Commission Decision 98/564/EC (OJ No. 273, 9.10.98, p. 37) and Commission Decision 98/692/EC (OJ No. L328, 4.12.98, p.28. Council Decision 98/256/EC remains in force as a transitional measure by virtue of article 1(1) of Commission Regulation (EC) No. 1326/2001 and section D of annex XI to the Community TSE Regulation (added by article 3(3) of, and annex IV to, Commission Regulation (EC) No. 1326/2001).

(7) OJ No. L99, 20.4.96, p. 14, as amended by Commission Regulations (EC) Nos. 774/96 (OJ No. L104, 27.4.96, p. 21), 835/96 (OJ No. L112, 7.5.96, p. 17), 1512/96 (OJ No. L189, 30.7.96, p. 93), 1846/96 (OJ No. L245, 26.9.96, p. 9), 1974/96 (OJ

Status: This is the original version (as it was originally made).

adopting exceptional support measures for the beef market in the United Kingdom, as amended;

“pedigree offspring animal” means an offspring animal which is a pure-bred breeding animal of the bovine species within the meaning of Council Directive 77/504/EEC⁽⁸⁾;

“productive offspring animal” means—

- (a) a female offspring animal in milk or in calf;
- (b) a male offspring animal, other than a pedigree offspring animal, kept for breeding purposes;

(2) For the purpose of calculating the compensation payable for an offspring animal the age of the animal at slaughter shall be conclusively determined by reference to the date of birth of the animal shown on the cattle passport for the animal.

Requirements relating to offspring animals

2.—(1) If an inspector is of the opinion that there is an offspring animal on any premises, he may serve a notice in Form OC 1 on the person appearing to him to be the owner or person in charge of that animal.

(2) On the service of a notice in Form OC 1—

- (a) the requirements contained in that notice shall have effect; and
- (b) the owner or person in charge of the animal who has been served with the notice shall surrender the cattle passport for the animal to an officer of the Secretary of State.

(3) The occupier of any premises and his employees, and any person who is or has been in possession or charge of any animal or carcase which is or has been on the premises, shall—

- (a) provide such reasonable facilities and reasonable assistance and comply with such reasonable requirements as are necessary to assist the inspector to form his opinion and carry out any inspection, examination, test, sampling or marking under this regulation; and
- (b) if so required by an inspector, or by an officer of the Secretary of State, give such information as he possesses as to—
 - (i) any animal or carcase which is or has been on the premises;
 - (ii) any other animal or carcase with which any animal or carcase which is or has been on the premises may have come into contact; and
 - (iii) the location and movement of any animal or carcase which is or has been in his possession or charge.

(4) If an animal to which a notice in Form OC 1 relates is moved from premises under a licence issued by an officer of the Secretary of State which is subject to a condition, the notice in Form OC 1 shall, providing the animal is moved in accordance with the condition, cease to have effect on the expiry of the period in respect of which the condition applies.

(5) A notice in Form OC 1 may at any time be withdrawn by a notice in Form OC 3 served by a veterinary inspector on the person appearing to him to be the owner or person in charge of the animal to which the notice in Form OC 1 relates.

Notice of intended slaughter

4.—(1) The Secretary of State may, if she thinks fit, cause to be slaughtered any offspring animal.

No. L262, 16.10.96, p. 2), 2149/96 (OJ No. L288, 9.11.96, p. 14), 2423/96 (OJ No. L329, 19.12.96, p. 43) and 1365/97 (OJ No. L188, 17.7.97, p. 6).

⁽⁸⁾ OJ No. L206, 12.8.77, p. 8 to which there are amendments to these Regulations.

(2) Subject to sub-paragraph (5) below, where the Secretary of State proposes to cause an offspring animal to be slaughtered under this paragraph a veterinary inspector shall serve a notice of intended slaughter in Form OC 2 on the person appearing to him to be the owner or person in charge of the animal specifying the premises at which the animal is to be slaughtered.

(3) Following the service of a notice in Form OC 2 an inspector may insert or administer an implant for the purpose of electronically tagging an offspring animal.

(4) No person except an inspector shall remove or otherwise interfere with an implant inserted or administered under sub-paragraph (3) above.

(5) Where an animal is presented at any premises for slaughter for human consumption and a veterinary inspector is of the opinion that the animal is an offspring animal, the Secretary of State may cause the animal to be slaughtered without any notice in Form OC 2 being served on the owner or person in charge of the animal before it is slaughtered.

(6) Where an offspring animal is slaughtered in accordance with sub-paragraph (5) above an inspector or officer of the Secretary of State shall, as soon as reasonably practicable thereafter, give notice to the owner or other person in charge of the carcass of the slaughtered animal that the animal has been slaughtered as an offspring animal.

(7) If an animal to which a notice in Form OC 2 relates is moved from premises under a licence issued by an officer of the Secretary of State which is subject to a condition, the notice in Form OC 2 shall, providing the animal is moved in accordance with the condition, cease to have effect on the expiry of the period in respect of which the condition applies.

(8) A notice in Form OC 2 may at any time be withdrawn by a notice in Form OC 3 served by a veterinary inspector on the owner or person in charge of the animal to which the notice in Form OC 2 relates.

Compensation for slaughtered offspring animals

5.—(1) Subject to the provisions of this paragraph, where the Secretary of State causes an offspring animal to be slaughtered under paragraph 4 above the Secretary of State shall pay compensation in accordance with the provisions of this paragraph.

(2) The compensation payable for a pedigree offspring animal or a productive offspring animal shall be an amount equal to the market value of the animal.

(3) The compensation payable for a dairy offspring animal, a beef breeding offspring animal or a beef offspring animal shall be the percentage of the indicative market price for the month in which the animal is slaughtered specified in the table in paragraph 7 below for an animal of the description and age of the animal slaughtered; together with the amount (if any) specified in that table in respect of any beef special premium payable for the animal which has not been claimed.

(4) The market value of a pedigree offspring animal or a productive offspring animal shall, for the purposes of payment of compensation under these Regulations, be determined—

- (a) by agreement between the Secretary of State and the owner of the animal; or
- (b) by one valuer appointed jointly by the Secretary of State and the owner.

(5) If the market value of a pedigree offspring animal or a productive offspring animal cannot be agreed under sub-paragraph (4)(a) above, or if there is no valuer appointed jointly under sub-paragraph (4)(b) above, the market value of the animal shall be determined by a valuer nominated by the President of the Royal Institution of Chartered Surveyors.

(6) A valuer appointed or nominated for the purpose of this regulation shall be paid by the Secretary of State and shall give to the Secretary of State and the owner a certificate in writing of the value he has determined.

Status: This is the original version (as it was originally made).

(7) Where an offspring animal is slaughtered as an offspring animal and was certified before slaughter by a veterinary surgeon as—

- (a) requiring slaughter for emergency reasons relating to the welfare of the animal;
- (b) not fit for human consumption by virtue of its condition; and
- (c) having no market value as a consequence,

there shall be no compensation payable for the animal under this paragraph.

(8) Where an offspring animal is slaughtered as an offspring animal and was certified in form OC 4 before slaughter by a veterinary surgeon as—

- (a) requiring slaughter for emergency reasons relating to the welfare of the animal;
- (b) not unfit for human consumption by virtue of its condition,

compensation shall be payable for the animal in accordance with the compensation payable under sub-paragraph (3) above for a beef animal of the age of the animal slaughtered (without any amount in respect of beef special premium).

(9) Where a notice in Form OC 1 has been served on an offspring animal and the animal is slaughtered under section 17 of the Animal Health Act 1981⁽⁹⁾ in its application to brucellosis or tuberculosis as an affected animal, an animal exposed to the infection of brucellosis or tuberculosis or an animal which is a reactor, within the meaning of the Brucellosis and Tuberculosis (England and Wales) Compensation Order 1978⁽¹⁰⁾ and the notice in Form OC 1 has been withdrawn by the time of such slaughter or is withdrawn at that time, the compensation payable for the animal shall be ascertained in accordance with the Order concerned.

(10) Where a notice in Form OC 1 has been served on an offspring animal and the animal is slaughtered under section 32 of the Animal Health Act 1981 in its application to the disease bovine spongiform encephalopathy as an animal affected or suspected of being affected with that disease, and the notice in Form OC 1 has been withdrawn by the time of such slaughter or is withdrawn at that time, the compensation payable for the animal shall be ascertained in accordance with the provisions of regulation 84 and Part III of Schedule 1 above.

(11) The Secretary of State shall take such steps as she considers appropriate for the purpose of bringing to the notice of such organisations as appear to her to be representative of owners of bovine animals—

- (a) the indicative market price in respect of each month; and
- (b) the number of animals and the sale price of the animals on which the calculation of such indicative market price was based.

Forms

6. The following forms shall be used for the purposes of this Schedule—

FORM OC1 Notice of requirements relating to an offspring animal

⁽⁹⁾ 1981 c. 22; section 35(1A) was inserted by section 1(2) of the Animal Health and Welfare Act 1984 (c. 40).

⁽¹⁰⁾ S.I. 1978/1483, amended by S.I. 1981/1412, S.I. 1996/1352 and S.I. 1998/2073.

To
of
Location of animal

I, the undersigned, being an inspector of the
hereby give you notice in accordance with the provisions of Schedule 7 to the TSE (England) Regulations
2002 that, as the person appearing to be the owner or person in charge of the bovine animal specified
below, you are required to observe the requirements of this form as specified overleaf.

The bovine animal to which the completed and signed notice applies is:

Official Ear Mark Description of bovine animal including age, breed and sex:

Signed

Dated

Name in BLOCK LETTERS

Office Address

FORM OC1 REQUIREMENTS

Notice of requirements as respects the animal specified overleaf

Requirements:

1. The animal must be detained at the location specified overleaf. If the owner or person in charge of the animal intends to move the animal off the premises he must first obtain a licence from an officer of the Secretary of State for the animal to be moved, and the movement of the animal off the premises must be in accordance with any condition subject to which the licence is issued.
2. In the event of the animal dying, otherwise than as the result of being slaughtered, a veterinary inspector must be informed immediately.
3. In the event of the animal dying or being slaughtered on the premises
 - (a) the carcase of the animal must be retained and surrendered to a veterinary inspector on request;
 - (b) the carcase of the animal must be disposed of as required by the veterinary inspector; and
 - (c) the carcase of the animal must not be moved off the premises except under the authority of a licence issued by a veterinary inspector of the Secretary of State and in accordance with any conditions subject to which the licence is issued.

Breach of the requirements of this notice may constitute an offence against the TSE (England) Regulations 2002 and render a person liable to penalties on conviction

FORM OC1 REQUIREMENTS

Notice of requirements as respects the animal specified overleaf

Requirements:

1. The animal must be detained at the location specified overleaf. If the owner or person in charge of the animal intends to move the animal off the premises he must first obtain a licence from an officer of the Secretary of State for the animal to be moved; and the movement of the animal off the premises must be in accordance with any condition subject to which the licence is issued.
2. In the event of the animal dying, otherwise than as the result of being slaughtered, a veterinary inspector must be informed immediately.
3. In the event of the animal dying or being slaughtered on the premises—

Status: This is the original version (as it was originally made).

- (a) the carcase of the animal must be retained and surrendered to a veterinary inspector on request;
- (b) the carcase of the animal must be disposed of as required by the veterinary inspector; and
- (c) the carcase of the animal must not be moved off the premises except under the authority of a licence issued by a veterinary inspector of the Secretary of State and in accordance with any conditions subject to which the licence is issued.

Breach of the requirements of this notice may constitute an offence against the TSE (England) Regulations 2002 and render a person liable to penalties on conviction
FORM OC2 Notice of intended slaughter of an offspring animal

To
 of
 Location of animal

I, the undersigned, being a veterinary inspector of the
 hereby give you notice in accordance with the provisions of the TSE (England) Regulations 2002 that, as the person appearing to me to be the owner or person in charge of the bovine animal specified below, the Secretary of State proposes to cause the animal to be slaughtered at the premises specified below as an offspring animal under Schedule 7 to the TSE (England) Regulations 2002.

Signed

								£126.18

Calculation of indicative market price

8. The indicative market price for each month shall be calculated using data collected in Great Britain relating to the month occurring two months before the month of slaughter and in accordance with the following formula:

$$\frac{(A \times B) + (C \times D)}{(A + C)}$$

Where—

A equals the number of cattle aged less than 7 years when valued which were slaughtered as BSE suspects;

B equals the average price for Friesian and Holstein cows in milk and in calf, first calving cows in milk and down calving heifers, in each case of first and second quality;

C equals the number of cattle aged 7 years or more when valued which were slaughtered as BSE suspects; and

D equals the average purchase price paid in the case of barren cattle of dairy breeds slaughtered in accordance with Commission Regulation (EC) No. 716/96 adopting exceptional measures for the support of the beef market in the United Kingdom, as amended,

the final figure being rounded down to the nearest multiple of £1.

Amendments

PART I

AMENDMENTS TO THE SPECIFIED RISK MATERIAL ORDER 1997

1. In the list of countries in article 3(3) the following shall be inserted respectively in the appropriate alphabetical places—

“El Salvador
Panama”.

2. In article 4(5) the words “Austria, Finland or” shall be deleted.

3. In article 6(2A)(a) for the words “regulation 15A of the Specified Risk Material Regulations 1997” there shall be substituted the words “regulation 36 of the TSE (England) Regulations 2002(11)”.

4. In Schedule 2, in the list of countries in the declaration on the form of importation certificate there shall be inserted in the appropriate alphabetical places—

“El Salvador
Panama”.
Regulation 103(2)

PART II

AMENDMENTS TO THE SPECIFIED RISK MATERIAL REGULATIONS 1997

1. In the list of countries in regulation 3(5) the following shall be inserted respectively in the appropriate alphabetical places—

“El Salvador
Panama”.

2. In regulation 4(7) the words “Austria, Finland or” shall be deleted.

Regulation 104(2)

PART II

SAVINGS OF THINGS DONE UNDER THE BOVINE SPONGIFORM ENCEPHALOPATHY (NO. 2) ORDER 1996(12)

1. Any notice issued under the Bovine Spongiform Encephalopathy (No. 2) Order 1996 having effect at the coming into force of these Regulations to prohibit or restrict the movement of an animal shall have effect as if it were a notice issued under regulation 80 of these Regulations to prohibit or restrict the movement of the animal; and a requirement of such a notice shall have effect as if it were a requirement of a notice issued under regulation 80 of these Regulations.

2. Any licence issued under the Bovine Spongiform Encephalopathy (No. 2) Order 1996 having effect at the coming into force of these Regulations to permit the movement of an animal shall have effect as if it were a licence issued under regulation 80 of these Regulations.

3. Any notice of intended slaughter of—

(12) S.I. [1996/3183](#), as amended by S.I. [1997/2387](#), S.I. [1998/3071](#) and S.I. [1999/921](#).

- (a) an affected or suspected animal in Form C; or
- (b) an exposed animal in Form F,

issued under the Bovine Spongiform Encephalopathy (No. 2) Order 1996 and having effect at the coming into force of these Regulations shall have effect as if it were a notice of intended slaughter of the animal issued under regulation 82(1) of these Regulations.

4. Any notice of confirmation of intention to slaughter in Form G issued under the Bovine Spongiform Encephalopathy (No. 2) Order 1996 and having effect at the coming into force of these Regulations shall have effect as if it were a notice of confirmation of intention to slaughter issued under regulation 82(2)(b) of these Regulations.

5. Any notice requiring any cleansing and disinfection issued under article 9 of the Bovine Spongiform Encephalopathy (No. 2) Order 1996 and having effect at the coming into force of these Regulations shall have effect as if it were a notice issued under regulation 86 of these Regulations.

6. Any licence issued under article 12(2)(b) of the Bovine Spongiform Encephalopathy (No. 2) Order 1996 having effect at the coming into force of these Regulations to permit the feeding to an animal or poultry of milk for research purposes in a research establishment shall have effect as if it were a licence issued under regulation 85(2)(b)(i) of these Regulations.

7. Any licence issued under article 13(2) or 14(5) of the Bovine Spongiform Encephalopathy (No. 2) Order 1996 having effect at the coming into force of these Regulations to permit the feeding to an animal of any feedingstuff for research purposes in a research establishment shall have effect as if it were a licence issued under regulation 11(2) or 12(5) of these Regulations.

8. Any notice issued under article 16(1) of the Bovine Spongiform Encephalopathy (No. 2) Order 1996 and having effect at the coming into force of these Regulations, requiring the disposal of any mammalian meat and bone meal or any MBM product and any other material with which it has come into contact, shall have effect as if it were a notice issued under regulation 29(2) of these Regulations.

9. Any notice issued under article 16(2) of the Bovine Spongiform Encephalopathy (No. 2) Order 1996 and having effect at the coming into force of these Regulations, requiring the collection and transport of any feedingstuff, shall have effect as if it were a notice issued under regulation 29(3) of these Regulations.

Regulation 104(3)

PART III

SAVINGS OF THINGS DONE UNDER THE SPECIFIED RISK MATERIAL ORDER 1997(13)

1. Any licence issued under article 8(5) of the Specified Risk Material Order 1997 having effect at the coming into force of these Regulations to permit the feeding to any creature of any specified risk material or feedingstuff for research purposes in a research establishment shall have effect as if it were a licence issued under regulation 49(6) of these Regulations.

2. Any approval issued under article 10(1) of the Specified Risk Material Order 1997 shall have effect as if it were a licence issued under regulation 57(1) of these Regulations.

3. Any approval issued under article 12(2) of the Specified Risk Material Order 1997 shall have effect as if it were an approval issued under regulation 53(2) of these Regulations.

Regulation 104(4)

(13) S.I. 1997/2964, as amended by S.I. 2000/2726, S.I. 2000/3234, S.I. 2000/3377 and S.I. 2001/2650.

PART IV

SAVINGS OF THINGS DONE UNDER THE SPECIFIED RISK MATERIAL REGULATIONS 1997(14)

1. Any approval by the Minister under regulation 6(1) of the Specified Risk Material Regulations 1997 having effect at the coming into force of these Regulations shall have effect as if it were a licence issued under regulation 56(1) of these Regulations.

2. Any authorisation by the Agency under regulation 6(2) of the Specified Risk Material Regulations 1997 having effect at the coming into force of these Regulations shall have effect as if it were a licence issued under regulation 56(1) of these Regulations.

3. Any authorisation by the Agency under regulation 15(7) of the Specified Risk Material Regulations 1997 having effect at the coming into force of these Regulations shall have effect as if it were a licence issued under regulation 56(1) of these Regulations.

4. Any designation by the Agency under regulation 15A(3) and (4) of the Specified Risk Material Regulations 1997 having effect at the coming into force of these Regulations shall have effect as if it were a licence issued under regulation 56(1) of these Regulations.

5. Any appointment by the Agency of a meat technician under regulation 16(4) of the Specified Risk Material Regulations 1997 having effect at the coming into force of these Regulations shall have effect as if it were an appointment of the meat technician under regulation 38(4) of these Regulations.

6. Any appointment by the Agency of a meat technician under regulation 18(5) of the Specified Risk Material Regulations 1997 having effect at the coming into force of these Regulations shall have effect as if it were an appointment of the meat technician under regulation 41(5) of these Regulations.

7. Any approval of the storage of specified risk material under regulation 28(2) of the Specified Risk Material Regulations 1997 having effect at the coming into force of these Regulations shall have effect as if it were an approval under regulation 53(2) of these Regulations.
Regulation 104(5)

PART V

SAVINGS OF THINGS DONE UNDER THE FERTILISERS (MAMMALIAN MEAT AND BONE MEAL) (CONDITIONS OF MANUFACTURE) REGULATIONS 1998(15)

1. Any appointment of an authorised officer under regulation 9(1) of the Fertilisers (Mammalian Meat and Bone Meal) (Conditions of Manufacture) Regulations 1998 having effect at the coming into force of these Regulations shall have effect as if it were an appointment of that officer as an inspector for the purposes of these Regulations.

2. Any appointment of a person under section 67(3)(a) of the Agriculture Act 1970(16), deemed by virtue of regulation 9(3) of the Fertilisers (Mammalian Meat and Bone Meal) (Conditions of Manufacture) Regulations 1998 to be a person appointed under regulation 9(1) of those Regulations and having effect at the coming into force of these Regulations, shall have effect as if it were an appointment of that person as an inspector for the purposes of these Regulations.

(14) S.I. 1997/2965, as amended by S.I. 1997/3062, S.I. 1998/2405 (as amended by S.I. 1998/2431), S.I. 2000/2672, 2000/3381 and 2001/817.

(15) S.I. 1998/954.

(16) 1970 c. 40. Section 67 was amended in its application to Great Britain by paragraph 38(5) of Schedule 16, and Schedule 18, to the Local Government (Wales) Act 1994 (1994 c. 19) and paragraph 85(2) of Schedule 13 to the Local Government etc. (Scotland) Act 1994 (1994 c. 39).

Regulation 104(6)

PART VI

SAVINGS OF THINGS DONE UNDER THE SHEEP AND GOATS SPONGIFORM ENCEPHALOPATHY ORDER 1998(17) AND THE SHEEP AND GOATS SPONGIFORM ENCEPHALOPATHY REGULATIONS 1998(18)

1. Any notice issued under article 4 or 5 of the Sheep and Goats Spongiform Encephalopathy Order 1998 having effect at the coming into force of these Regulations to prohibit or restrict the movement of an animal shall have effect as if it were a notice issued under regulation 80 of these Regulations to prohibit or restrict the movement of the animal; and a requirement of such a notice shall have effect as if it were a requirement of a notice issued under regulation 80 of these Regulations.

2. Any licence issued under the Sheep and Goats Spongiform Encephalopathy Order 1998 having effect at the coming into force of these Regulations to permit the movement of an animal shall have effect as if it were a licence issued under regulation 80 of these Regulations.

3. Any notice requiring any cleansing and disinfection issued under article 6 of the Sheep and Goats Spongiform Encephalopathy Order 1998 and having effect at the coming into force of these Regulations shall have effect as if it were a notice issued under regulation 86 of these Regulations.

4. Any notice of intended slaughter of an affected or suspected animal in Form C served under article 7 the Sheep and Goats Spongiform Encephalopathy Order 1998 having effect at the coming into force of these Regulations shall have effect as if it were a notice of intended slaughter of the animal issued under regulation 82(1) of these Regulations.

5. Any appointment of a veterinary inspector by the appropriate Minister for the purposes of the Sheep and Goats Spongiform Encephalopathy Regulations 1998 having effect at the coming into force of these Regulations shall have effect as if it were an appointment of that veterinary inspector as a veterinary inspector by the Secretary of State for the purposes of these Regulations.

Regulation 104(7)

PART VII

SAVINGS OF THINGS DONE UNDER THE BOVINE SPONGIFORM ENCEPHALOPATHY (FEEDING STUFFS AND SURVEILLANCE) REGULATIONS 1999(19)

Any appointment of an authorised officer by the appropriate Minister or a local authority for the purposes of the Bovine Spongiform Encephalopathy (Feeding stuffs and Surveillance) Regulations 1999 having effect at the coming into force of these Regulations shall have effect as if it were an appointment of that officer as an inspector respectively by the Secretary of State or the local authority for the purposes of these Regulations.

Regulation 104(8)

(17)
(18)
(19)

S.I. 1998/1645.
S.I. 1998/1646.
S.I. 1999/882.

PART VIII

SAVINGS OF THINGS DONE UNDER THE BSE MONITORING (ENGLAND) REGULATIONS 2001(20)

1. Any appointment of an inspector by the Minister or a local authority for the purposes of the BSE Monitoring Regulations 2001 having effect at the coming into force of these Regulations shall have effect as if it were an appointment of that inspector respectively by the Secretary of State or the local authority as an inspector for the purposes of these Regulations.

2. Any appointment of a veterinary inspector by the Minister for the purposes of the BSE Monitoring Regulations 2001 having effect at the coming into force of these Regulations shall have effect as if it were an appointment of that veterinary inspector as a veterinary inspector by the Secretary of State for the purposes of these Regulations.

3. Any appointment of an agent by the Minister under regulation 3 of the BSE Monitoring Regulations 2001 to receive notifications under that regulation having effect at the coming into force of these Regulations shall have effect as if it were an appointment of that agent by the Secretary of State under regulation 10 of these Regulations to receive notifications under that regulation.
Regulation 104(9)

PART IX

SAVINGS OF THINGS DONE UNDER THE PROCESSED ANIMAL PROTEIN REGULATIONS 2001(21)

1. Any approval by the Minister under regulation 5 of the Processed Animal Protein Regulations 2001 having effect at the coming into force of these Regulations shall have effect as if it were an approval by the Secretary of State under regulation 16 of these Regulations.

2. Any approval by the Minister under regulation 6 of the Processed Animal Protein Regulations 2001 having effect at the coming into force of these Regulations shall have effect as if it were an approval by the Secretary of State under regulation 17(1) of these Regulations.

3. Any approval by the Minister under regulation 7 of the Processed Animal Protein Regulations 2001 having effect at the coming into force of these Regulations shall have effect as if it were an approval by the Secretary of State under regulation 17(2) of these Regulations.

4. Any authorisation of premises for the purposes of paragraph 6 of Annex I to the Commission Decision by the Minister under regulation 13(2) of the Processed Animal Protein Regulations 2001 having effect at the coming into force of these Regulations shall have effect as if it were a registration of the premises for those purposes by the Secretary of State under regulation 23(1)(b) of these Regulations.

5. Any authorisation of premises for the purposes of paragraph 3 of Annex II to the Commission Decision by the Minister under regulation 14(2) of the Processed Animal Protein Regulations 2001 having effect at the coming into force of these Regulations shall have effect as if it were a registration of the premises for those purposes by the Secretary of State under regulation 24(1)(b) of these Regulations.

6. Any authorisation of premises for the purposes of paragraph 2 of Annex III to the Commission Decision by the Minister under regulation 15(2) of the Processed Animal Protein Regulations 2001 having effect at the coming into force of these Regulations shall have effect as if it were a registration

Status: This is the original version (as it was originally made).

of the premises for those purposes by the Secretary of State under regulation 24(2)(b) of these Regulations.

7. Any appointment of an inspector by the Minister or a local authority for the purposes of the Processed Animal Protein Regulations 2001 having effect at the coming into force of these Regulations shall have effect as if it were an appointment of that inspector as an inspector respectively by the Secretary of State or the local authority for the purposes of these Regulations.

8. Any appointment of a veterinary inspector by the Minister for the purposes of the Processed Animal Protein Regulations 2001 having effect at the coming into force of these Regulations shall have effect as if it were an appointment of that veterinary inspector as a veterinary inspector by the Secretary of State for the purposes of these Regulations.
