2004 No. 129

The Cableway Installations Regulations 2004

PART II

General Requirements

Subsystems and safety components—exceptions to placing on the market

11. For the purposes of regulations 7 or 8, a safety component or a subsystem shall not be regarded as being placed on the market where that safety component or subsystem—

- (a) will be put into service in a country outside the Community; or
- (b) is imported into the Community for re-export to a country outside the Community,

but this paragraph shall not apply in relation to a safety component if the CE conformity marking, or any inscription liable to be confused therewith, is affixed to the component or its label.
