

SCHEDULE

Regulation 2(h)

“SCHEDULE 2A

Regulation 7(7)

PRINCIPLES OF GOOD PRACTICE FOR THE CONTROL OF  
EXPOSURE TO SUBSTANCES HAZARDOUS TO HEALTH

- (a) Design and operate processes and activities to minimise emission, release and spread of substances hazardous to health.
- (b) Take into account all relevant routes of exposure- inhalation, skin absorption and ingestion- when developing control measures.
- (c) Control exposure by measures that are proportionate to the health risk
- (d) Choose the most effective and reliable control options which minimise the escape and spread of substances hazardous to health.
- (e) Where adequate control of exposure cannot be achieved by other means, provide, in combination with other control measures, suitable personal protective equipment.
- (f) Check and review regularly all elements of control measures for their continuing effectiveness.
- (g) Inform and train all employees on the hazards and risks from the substances with which they work and the use of control measures developed to minimise the risks.
- (h) Ensure that the introduction of control measures does not increase the overall risk to health and safety.”.
