*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

- (a) “the appropriate sum” means the amount in pounds sterling, which is payable for a Point to Point Fixed Links Licence, calculated in accordance with the formula set out in paragraph 2; and
- (b) “Availability” means the minimum percentage of time that the fixed link is capable of functioning as set out in the licensee’s licence.
2. The formula is  $AS = Sp \times Bwf \times Bf \times Plf \times Avf$  where—
- “AS” means the appropriate sum;
- “Avf” means the Availability Factor, being the number in Column 2 of the table set out in Part 5 as determined by the Availability (in per cent) as set out in Column 1 of that table;
- “Bf” means the Band Factor, being the number in Column 2 of the table set out in Part 2 as determined by the range of frequency band (in GHz), if any, of a fixed link set out in Column 1 of that table in which the licensee’s band falls as declared by the licensee on application for a licence;
- “Bwf” means the Bandwidth Factor, subject to paragraph 3, being the number corresponding to the bandwidth (in MHz) of a co-ordinated bi-directional fixed link (or a part thereof) as declared by the licensee on application for a licence;
- “MPL” means the Minimum Path Length, being the number corresponding to the applicable (depending on the amount of data that can be transmitted over the bandwidth (“the data rate”) or over the channel width for analogue systems) length of the path (in kilometres) specified in Columns 2 and 3 of tables 1 or 2 set out in Part 4 as determined by the range of frequency band (in GHz), if any, of a fixed link set out in Column 1 of those respective tables in which the licensee’s band falls as declared by the licensee on application for a licence;
- “PL” means the Path Length, being the number corresponding to the distance (in kilometres) between two fixed points of the link as declared by the licensee on application for a licence;
- “Plf” means the Path Length Factor, being the number in Column 2 of the table set out in Part 3 as determined by the relationship between the PL and the MPL as set out in Column 1 of that table; and

## EXPLANATORY NOTE

*(This note is not part of the Regulations)*

These Regulations revoke and replace the Wireless Telegraphy (Licence Charges) Regulations 2002 (S.I. 2002/1700 as amended by S.I.s 2003/2155, 2003/2983, and 2003/2984) (“the 2002 Regulations”). These Regulations provide for fees to be paid to the Office of Communications (“OFCOM”) in respect of wireless telegraphy licences granted under section 1 of the Wireless Telegraphy Act 1949 (c. 54). The fees are set by OFCOM in accordance with the Wireless Telegraphy Act 1998 (c. 6) (“the 1998 Act”).

These Regulations—

- (a) amend obligations as to when fees are payable (as previously prescribed in the 2002 Regulations) to make provision for the event of a transfer of rights and obligations under a wireless telegraphy licence to another person under the Wireless Telegraphy (Spectrum Trading) Regulations 2004 (S.I. 2004/3154);
- (b) introduce fees for a number of new licence classes in Schedule 2 including the Community Radio Licence under the Broadcasting sector, the Fixed Wireless Access (3.4, 3.6-4.2 GHz for Guernsey, the Isle of Man and Jersey, respectively) Licences under the Fixed Wireless Access sector, and the Satellite (Earth Station on board Vessel), (Aircraft Earth Station), (Earth Station – Non-Geostationary) and (Earth Station – Non-Fixed Satellite Service) Licences under the Satellite sector;
- (c) change the structure for charging fees prescribed for the Point to Point Fixed Links Licence and the Scanning Telemetry Licence so that some fees are increased;
- (d) increase the level of fees for the Programme Making and Special Event licence classes, and the Satellite (Permanent Earth Station) Licence;
- (e) prescribe new fees for cellular operators for Public Wireless Network class licences applying to Guernsey, the Isle of Man and Jersey; and
- (f) rename and re-structure the Business Radio licence classes, moving certain licences from other sectors including Public Wireless and Fixed Services as well as removing the Private Business Radio sector.

Regulation 5 makes provision for concessionary fees in respect of certain wireless telegraphy licences where such a licence is granted to an applicant, or held by a licensee, which is a charity and has as its object the safety of human life in an emergency. In providing for concessionary fees for such charities, regulation 5(3) refers to the Association of Guernsey Charities and the Association of Jersey Charities. The addresses of these Associations are c/o Guernsey Chamber of Commerce, States Arcade, St. Peter Port, Guernsey, and c/o Dover House, Domaine des Vaux, St. Lawrence, Jersey, respectively.

Regulation 6 provides that, where a sum is not prescribed by regulations made under section 1 of the 1998 Act whether on the issue of a licence or subsequently, there shall be paid to OFCOM such sum as OFCOM may in the particular case determine.
