 - (b) there is a significant possibility of harm being caused;
- and in determining whether any land appears to be such land, a local authority shall, subject to subsection (5) below, act in accordance with guidance issued by the Secretary of State in accordance with section 78YA below with respect to the manner in which that determination is to be made.”.
- (3) For subsection (4), substitute—

(6) For subsection (7), substitute—

“(7) “Remediation” means—

 - (a) the doing of anything for the purpose of assessing the condition of—
 - (i) the contaminated land in question; or

 - ““substance” means, whether in solid or liquid form or in the form of a gas or vapour, any substance containing radionuclides which have resulted from the after-effects of an emergency or have been processed as part of a past practice or past work activity;”;
 - and
- (c) after the definition of “unitary authority”, insert—
 - “and any other word or expression used both in this Part and in Council Directive 2013/59/Euratom, laying down basic safety standards for protection against the dangers arising from exposure to ionising radiation and repealing Directives 89/618/Euratom, 90/641/Euratom, 96/29/Euratom, 97/43/Euratom and 2003/122/Euratom, has the same meaning for the purposes of this Part as it has in that Directive.”].

- (a) identifying whether it is contaminated land; and
- (b) enabling the authority to decide whether the land is land which is required to be designated as a special site.

(1A) The fact that substances have been or are present on the land shall not of itself be taken to be reasonable grounds for the purposes of subsection (1).”.

- (b) the seriousness of the harm in question.

[^{F13}(4A) Where remediation includes the implementation of a protective or remedial measure, that part of the remediation which consists of the implementation of any such measure may be considered reasonable only—

(4B) For the purpose of subsection (4A), the form, scale and duration of a protective or remedial measure shall be taken to be optimised if the magnitude of individual doses, the likelihood of exposure and the number of individuals exposed are kept as low as reasonably achievable taking into account the current state of technical knowledge and economic and societal factors.”].

EXPLANATORY NOTE

(This note is not part of the Regulations)

Changes to legislation: There are currently no known outstanding effects for the The Radioactive Contaminated Land (Enabling Powers) (England) Regulations 2005. (See end of Document for details)

Part 2A of the Environmental Protection Act 1990 (“Part 2A”) sets out a regime for the identification and remediation of contaminated land. Section 78YC provides that regulations may give effect to Part 2A with modifications for the purpose of dealing with harm which is attributable to radioactivity possessed by any substances.

By virtue of these Regulations, which apply in relation to England only, the powers in Part 2A to make any such regulations or order, or give directions or issue guidance may be exercised in relation to land contaminated by reason of radioactive substances in, on or under the land and for that limited purpose these Regulations provide for Part 2A to have effect with modifications. These Regulations thereby enable those powers to be exercised for the purpose of implementing Articles 48 and 53 of Council Directive 96/29/Euratom laying down basic safety standards etc (OJ No L 159, 29.06.1996, p.1).

A regulatory impact assessment has not been produced for this instrument as it has no impact on the costs of business in itself.

Changes to legislation:

There are currently no known outstanding effects for the The Radioactive Contaminated Land (Enabling Powers) (England) Regulations 2005.
