(c) specify the measures which, in the officer’s opinion, the food business operator must take in order to secure compliance; and
(d) require the food business operator to take those measures, or measures which are at least equivalent to them, within such period (not being less than 14 days) as may be specified in the notice.

(2) Any person who fails to comply with a hygiene improvement notice shall be guilty of an offence.

Hygiene prohibition orders

7.—(1) If —

(a) a food business operator is convicted of an offence under these Regulations; and
(b) the court by or before which he is so convicted is satisfied that the health risk condition is fulfilled with respect to the food business concerned,

the court shall by an order impose the appropriate prohibition.

(2) The health risk condition is fulfilled with respect to any food business if any of the following involves risk of injury to health (including any impairment, whether permanent or temporary), namely —

(a) the use for the purposes of the business of any process or treatment;
(b) the construction of any premises used for the purposes of the business, or the use for those purposes of any equipment; and
(c) the state or condition of any premises or equipment used for the purposes of the business.

(3) The appropriate prohibition is —

(a) in a case falling within sub-paragraph (a) of paragraph (2), a prohibition on the use of the process or treatment for the purposes of the business;
(b) in a case falling within sub-paragraph (b) of that paragraph, a prohibition on the use of the premises or equipment for the purposes of the business or any other food business of the same class or description; and
(c) in a case falling within sub-paragraph (c) of that paragraph, a prohibition on the use of the premises or equipment for the purposes of any food business.

(4) If —
(a) a food business operator is convicted of an offence under these Regulations; and
(b) the court by or before which he is so convicted thinks it proper to do so in all the circumstances of the case,
the court may, by an order, impose a prohibition on the food business operator participating in the management of any food business, or any food business of a class or description specified in the order.

(5) As soon as practicable after the making of an order under paragraph (1) or (4) (in these Regulations referred to as a “hygiene prohibition order”), the enforcement authority shall —

(a) in the case of an order made under paragraph (1), on the issue by the enforcement authority of a certificate to the effect that they are satisfied that the food business operator has taken sufficient measures to secure that the health risk condition is no longer fulfilled with respect to the food business; and
(b) in the case of an order made under paragraph (4), on the giving by the court of a direction to that effect.

(7) The enforcement authority shall issue a certificate under sub–paragraph (a) of paragraph (6) within three days of their being satisfied as mentioned in that sub–paragraph; and on an application by the food business operator for such a certificate, the authority shall —

(a) within six months of the making of the hygiene prohibition order; or
(b) within three months of the making by the food business operator of a previous application for such a direction.

(9) Where a magistrates’ court makes an order under paragraph (2) of regulation 8 with respect to any food business, paragraph (1) shall apply as if the food business operator had been convicted by the court of an offence under these Regulations.

(10) Where the commission of an offence by a food business operator leads to the conviction of another person pursuant to regulation 10, paragraph (4) shall apply in relation to that other person as it applies in relation to the food business operator and any reference in paragraph (5) or (8) to the food business operator shall be construed accordingly.

Hygiene emergency prohibition notices and orders

8.—(1) If an authorised officer of an enforcement authority is satisfied that the health risk condition is fulfilled with respect to any food business he may by a notice served on the relevant food
business operator (in these Regulations referred to as a “hygiene emergency prohibition notice”) impose the appropriate prohibition.

(2) If a magistrates' court is satisfied, on the application of such an officer, that the health risk condition is fulfilled with respect to any food business, the court shall, by an order (in these Regulations referred to as a “hygiene emergency prohibition order”), impose the appropriate prohibition.

(3) Such an officer shall not apply for a hygiene emergency prohibition order unless, at least one day before the date of the application, he has served notice on the relevant food business operator of his intention to apply for the order.

(4) Paragraphs (2) and (3) of regulation 7 shall apply for the purposes of this regulation as they apply for the purposes of that regulation, but as if the reference in paragraph (2) to risk of injury to health were a reference to imminent risk of injury.

(5) As soon as practicable after the service of a hygiene emergency prohibition notice, an authorised officer of an enforcement authority shall affix a copy of the notice in a conspicuous position on such premises used for the purposes of the food business as he considers appropriate; and any person who knowingly contravenes such a notice shall be guilty of an offence.

and any person who knowingly contravenes such an order shall be guilty of an offence.

(7) A hygiene emergency prohibition notice shall cease to have effect —

(b) if such an application is so made, on the determination or abandonment of the application.

(8) A hygiene emergency prohibition notice or a hygiene emergency prohibition order shall cease to have effect on the issue by the enforcement authority of a certificate to the effect that they are satisfied that the food business operator has taken sufficient measures to secure that the health risk condition is no longer fulfilled with respect to the food business.

(9) The enforcement authority shall issue a certificate under paragraph (8) within three days of their being satisfied as mentioned in that paragraph; and on an application by the food business operator for such a certificate, the authority shall —

(a) determine as soon as is reasonably practicable and in any event within 14 days whether or not they are so satisfied; and

(b) if they determine that they are not so satisfied, give notice to the food business operator of the reasons for that determination.

(10) Where a hygiene emergency prohibition notice is served on a food business operator, the enforcement authority shall compensate him in respect of any loss suffered by reason of his complying with the notice unless —

(a) an application for a hygiene emergency prohibition order is made within the period of three days beginning with the service of the notice; and

(b) the court declares itself satisfied, on the hearing of the application, that the health risk condition was fulfilled with respect to the food business at the time when the notice was served,
and any disputed question as to the right to or the amount of any compensation payable under this paragraph shall be determined by arbitration.

(e) require the rate of operation to be reduced to such extent as is specified in the notice, or to be stopped completely.

(2) A remedial action notice shall be served as soon as practicable and shall state why it is being served.

(3) If it is served under paragraph (1)(a), it shall specify the breach and the action needed to remedy it.

(4) An authorised officer of the enforcement authority whose authorised officer served the original remedial action notice shall, as soon as he is satisfied that such action has been taken, withdraw the notice by a further notice in writing served on the food business operator or his duly authorised representative.

(5) An authorised officer of an enforcement authority may, at an establishment subject to approval under Article 4(2) of Regulation 853/2004, by a notice in writing (in this regulation referred to as a “detention notice”) served on the relevant food business operator or his duly authorised representative require the detention of any animal or food for the purpose of examination (including the taking of samples).

(6) An authorised officer of the enforcement authority whose officer served the original detention notice shall, as soon as he is satisfied that the animal or food need no longer be detained, withdraw the notice by a further notice in writing served on the food business operator or his duly authorised representative.

(7) Any person who fails to comply with a remedial action notice or a detention notice shall be guilty of an offence.

**Offences due to fault of another person**

10. Where the commission by any person of an offence under these Regulations is due to the act or default of some other person, that other person shall be guilty of the offence; and a person may be convicted of the offence by virtue of this regulation whether or not proceedings are taken against the first–mentioned person.

**Defence of due diligence**

11.—(1) In any proceedings for an offence under these Regulations, it shall, subject to paragraph (2), be a defence for the accused to prove that he took all reasonable precautions and exercised all due diligence to avoid the commission of the offence by himself or by a person under his control.
(2) If in any case the defence provided by paragraph (1) involves the allegation that the commission of the offence was due to an act or default of another person, or to reliance on information supplied by another person, the accused shall not, without leave of the court, be entitled to rely on that defence unless —

(a) at least seven clear days before the hearing; and

(b) where he has previously appeared before a court in connection with the alleged offence, within one month of his first such appearance,

**Offence**

1. A person who contravenes or fails to comply with any of the requirements of this Schedule shall be guilty of an offence.

**Liquid oils or fats**

2. —(1) The bulk transport in sea–going vessels of liquid oils or fats which are to be processed, and which are intended for or likely to be used for human consumption, is permitted in tanks that are not exclusively reserved for the transport of foodstuffs, subject to the following conditions —

(a) where the oil or fat is transported in a stainless steel tank, or tank lined with epoxy resin or technical equivalent, the immediately previous cargo transported in the tank shall have been a foodstuff or a cargo from the list of acceptable previous cargoes for liquid oils or fats; and

(b) where the oil or fat is transported in a tank of materials other than those specified in sub–paragraph (a), the three previous cargoes transported in the tanks shall have been foodstuffs or from the list of acceptable previous cargoes for liquid oils or fats.

(2) For the purposes of this paragraph, “list of acceptable previous cargoes for liquid oils or fats” means the list set out in the Annex to Commission Directive 96/3/EC.

3. The bulk transport in sea–going vessels of liquid oils or fats which are not to be further processed, and which are intended for or are likely to be used for human consumption, is permitted in tanks that are not exclusively reserved for the transport of foodstuffs, subject to the following conditions —

(a) the tank shall be of stainless steel or lined with epoxy resin or technical equivalent; and

(b) the three previous cargoes transported in the tank shall have been foodstuffs.

4. The captain of a sea–going vessel transporting, in tanks, bulk liquid oils or fats intended for or likely to be used for human consumption shall keep accurate documentary evidence relating to the three previous cargoes carried in the tanks concerned, and the effectiveness of the cleaning process applied between those cargoes.

5. Where the cargo has been trans–shipped, in addition to the documentary evidence required by virtue of paragraph 4, the captain of the receiving vessel shall keep accurate documentary evidence that the transport of the bulk liquid oil or fat complied with the provisions of paragraph 2 or 3 during previous shipment and of the effectiveness of the cleaning process used between those cargoes on the vessel from which they were trans–shipped.

6. Upon request, the captain of the vessel shall provide the enforcement authority with the documentary evidence described in paragraphs 4 and 5.
Raw sugar

7. The bulk transport by sea of raw sugar which is not intended for use as food or as a food ingredient without a full and effective refining process is permitted in receptacles, containers or tankers that are not exclusively used for the transport of foodstuffs.

8. The receptacles, containers or tankers referred to in paragraph 7 shall be subject to the following conditions —
   (a) prior to loading the raw sugar, the receptacle, container or tanker shall be effectively cleaned to remove residues of the previous cargo and other soiling and inspected to establish that such residues have been removed effectively; and
   (b) the immediate previous cargo prior to the raw sugar shall not have been a bulk liquid.

9. A food business operator who is responsible for the transport of raw sugar by sea under paragraph 7 shall keep documentary evidence, accurately describing in detail the immediate previous cargo carried in the receptacle, container or tanker concerned, and the type and effectiveness of the cleaning process applied prior to the transport of the raw sugar.

10. The documentary evidence shall accompany the consignment of raw sugar during all stages of transport to the refinery and a copy shall be retained by the refinery. The documentary evidence shall be marked as follows in a clearly visible and indelible fashion, in one or more Community languages: “This product must be refined before being used for human consumption”.

11. On request, a food business operator responsible for the transport of the raw sugar or the refining process shall provide the enforcement authority with the documentary evidence referred to in paragraphs 9 and 10.

12. Raw sugar which has been transported by sea in receptacles, containers or tankers which are not exclusively reserved for the transport of foodstuffs shall be subjected to a full and effective refining process before being considered suitable for use as food or as a food ingredient.

13. In fulfilling his obligations under Article 5(1) of Regulation 852/2004 (hazard analysis and critical control points) in relation to the bulk transport of raw sugar by sea under paragraph 7, a food business operator who is responsible for the transport or refining of raw sugar shall —
