Regulations 8 and 9 set out requirements relating to technical documentation.

The Secretary of State has the duty of enforcing the Regulations (regulation 10) and may appoint any person to act on his behalf. The Secretary of State has the power to serve a compliance notice (regulation 11) and make test purchases (regulation 12).

Any person who contravenes or fails to comply with a requirement of regulation 7, 8 or 9 shall be guilty of an offence (regulation 13). Penalties for such offences are set out in regulation 14. The current maximum fine under level 5 on the standard scale is £5000. Proceedings in relation to offences may be commenced within 12 months of the offence being committed (regulation 15). A defence of due diligence is provided in regulation 16 and the liability of persons other than the principal offender is set out in regulation 17. There is provision for service of documents under the Regulations under regulation 18.

Regulation 19 amends the Enterprise Act 2002 (Part 9 Restrictions on Disclosure of Information) (Specification) Order 2004 (S.I. [2004/693](#)) by substituting for the reference to the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2005 a reference to these Regulations. These Regulations will be included amongst the subordinate legislation which has been specified for the purposes of Part 9 of the Enterprise Act 2002 relating to the disclosure of information.

A Regulatory Impact Assessment (RIA) in respect of these Regulations is available and a copy can be obtained from the Department of Trade and Industry. As these Regulations transpose the Directive, a transposition note (TN) setting out how the Government will transpose the Directive into UK law has been prepared. Copies of the RIA and TN are available from the Science and Innovation Group, 151 Buckingham Palace Road, London SW1W 9SS. Copies of these documents have been placed in the libraries of both Houses of Parliament.
