## 7. Policy Background

- 7.1. The Government wants to encourage today's workers, tomorrow's pensioners, to save for their retirement and offers generous tax incentives to encourage people to save in a pension. Following extensive consultation, pensions tax simplification was legislated for in Part 4 of the Finance Act 2004. As a result of ongoing consultation a package of supplementary measures were introduced in Finance Act 2005. The objectives are to increase individual choice and flexibility and cut industry costs by tackling the complexity and fragmentation caused by the current rules.
- 7.2. From 6<sup>th</sup> April 2006, a new unified pensions tax regime will replace the numerous existing regimes. The new regime will contain two key controls on tax relief for pension savings, a lifetime allowance and an annual allowance, which will replace the plethora of controls currently in existence.
