

SCHEDULE 3

Descriptions: exempt waste operations and other operations
to which section 33(1)(a) of the 1990 Act does not apply

PART 1

Exempt waste operations: descriptions

Crushing waste discharge lamps

42.—(1) Crushing waste discharge lamps (including fluorescent tubes which are hazardous waste within category 20 01 21*) for the purposes of volume reduction prior to collection, where the material is intended for recovery or reuse if—

- (a) the operation is carried on in equipment designed for the purpose of volume reduction prior to collection;
 - (b) the operation is carried on solely for that purpose;
 - (c) the mercury concentration in emissions does not exceed 50 microgrammes/cubic metre; and
 - (d) the total quantity of lamps processed in any period of 24 hours does not exceed 3 tonnes.
- (2) Secure storage of such lamps prior to crushing, or after crushing but prior to collection, if—
- (a) the lamps are stored under weatherproof covering; and
 - (b) after crushing, the lamps are stored in a secure container.
