PART 5

Transfers, trading, determination and reporting

Determination of whole house bonus

24.—(1) Where more than one qualifying action of a type referred to in the first column of Table 3, set out in this article, is provided at the same premises, the Authority must determine the carbon emissions reduction in accordance with paragraph (2).

(2) Where paragraph (1) applies, the Authority must—

- (a) determine the whole house bonus applicable to each qualifying action by reference to the corresponding percentage in column 3 of Table 3;
- (b) determine the sum total of any whole house bonuses applicable (“the total whole house bonus”); and
- (c) further increase the carbon emissions reduction determined under article 23 for each qualifying action listed in the first column of Table 3 by the total whole house bonus.
