PART 23

Air Traffic Services

Manual of air traffic services

- 171.** A person must not provide an air traffic control service at any place unless—
- (a) the service is provided in accordance with the standards and procedures specified in a manual of air traffic services for that place;
 - (b) the manual is produced to the CAA within a reasonable time after a request for its production is made by the CAA; and
 - (c) such amendments or additions are made to the manual as the CAA may from time to time require.
