EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations amend Schedule 2 to the Road Vehicles (Registration and Licensing) Regulations 2002 (“the 2002 Regulations”).

These Regulations allow for a reduced pollution certificate to be issued, where appropriate, on the basis of a document check rather than a physical examination. A reduced pollution certificate entitles specified heavy goods vehicles and buses to a reduced rate of Vehicle Excise Duty.

Regulation 3 inserts definitions of “prescribed declarations”, “prescribed information” and “responsible person”.

Regulation 4 inserts new paragraph 1A which enables the Secretary of State to require that a particular vehicle should be examined before a determination is made of whether to issue a reduced pollution certificate in respect of that vehicle.

Regulation 5 amends paragraph 2 to refer to the declarations and documents that must be provided in support of a paper only application for a reduced pollution certificate.

Regulation 6 inserts new sub-paragraph (1) into paragraph 5 which enables an authorised examiner to determine whether to issue a reduced pollution certificate on the basis of a paper application alone. This regulation also makes consequential amendments to other provisions in paragraph 5 to reflect the fact that a physical examination of a vehicle may not be necessary prior to the issue of a reduced pollution certificate.

Regulations 7, 8 and 9 make further consequential amendments to the 2002 Regulations to reflect the fact that a physical examination of a vehicle may not be necessary prior to the issue of a reduced pollution certificate.

Regulation 10 inserts new sub-paragraph (A1) into paragraph 13 which prescribes a fee of £32 when an application for a reduced pollution certificate is determined on paper. This regulation also corrects a drafting error at paragraph 13(1) of the 2002 Regulations.
