EXPLANATORY NOTE

(This note is not part of the Order)

Since the construction of the M1 and the M10, there has not been a convenient route for non-motorway traffic to travel between St Albans and Hemel Hempstead. As part of the recent M1 6A-10 widening scheme, non-motorway Trunk Roads parallel to the M1 were built. This means traffic leaving the road currently known as the M10 motorway can access the local road network without joining the M1.

This order is to remove the final obstruction for non-motorway traffic along this route by removing the Special Road status of the road currently known as the M10. The whole route from Green Lane roundabout to Park Lane roundabout will become known as the A414 Trunk Road.
