**2012 No. 2187**

**ELECTRONIC COMMUNICATIONS**

**The Wireless Telegraphy (Spectrum Trading) Regulations 2012**

*Made* - - - - *23rd August 2012*

*Coming into force* - - *13th September 2012*

The Office of Communications (“OFCOM”) make the following Regulations in exercise of the powers conferred by section 30(1) and (3) and section 122(7) of the Wireless Telegraphy Act 2006<sup>M1</sup> (the “Act”).

Before making these Regulations, OFCOM have given notice of their proposal to do so in accordance with section 122(4)(a) of the Act, published notice of their proposal in accordance with section 122(4)(b) of the Act, and have considered the representations made to them before the time specified in the notice in accordance with section 122(4)(c) of the Act.

**Marginal Citations**

M1 [2006 c.36](#)

**Citation, commencement and extent**

1.—(1) These Regulations may be cited as the Wireless Telegraphy (Spectrum Trading) Regulations 2012 and shall come into force on 13th September 2012.

(2) These Regulations shall not extend to the Bailiwick of Guernsey.

**Revocation**

2. The Regulations set out in Schedule 1 are hereby revoked.

**Interpretation**

3. In these Regulations—

- (a) “concurrent holders” means persons who concurrently hold the rights and obligations under a wireless telegraphy licence by virtue of a transfer authorised by these Regulations which has that effect;
- (b) “station” means wireless telegraphy station; and
- (c) “apparatus” means wireless telegraphy apparatus.

---

*Status: Point in time view as at 13/09/2012.*

*Changes to legislation: There are currently no known outstanding effects for the The Wireless Telegraphy (Spectrum Trading) Regulations 2012. (See end of Document for details)*

---

### **Transfer of all the rights and obligations arising by virtue of a wireless telegraphy licence**

4.—(1) Subject to regulation 8, a transfer by the holder of a wireless telegraphy licence to which this paragraph applies of all of the rights and obligations arising by virtue of that wireless telegraphy licence is authorised if it satisfies one of the two conditions set out in paragraph (2).

(2) Those conditions are—

- (a) that the rights and obligations of the person making the transfer become rights and obligations of the transferee to the exclusion of the person making the transfer;
- (b) that the transferred rights and obligations become rights and obligations of the transferee while continuing, concurrently, to be rights and obligations of the person making the transfer.

(3) Paragraph (1) shall apply to wireless telegraphy licences within the licence classes specified in Column 1 of each of Parts 3 to 21 of Schedule 2 which apply to a station or apparatus operating within any of the frequency bands specified in Column 2 of the same Part.

### **Concurrent Spectrum Access licence class**

5. Subject to regulation 8, a transfer by the holder of a wireless telegraphy licence within the licence class specified in Column 1 of Part 1 of Schedule 2 which applies to stations or apparatus operating within either of the frequency bands specified in Column 2 of the same Part, of all of the rights and obligations arising by virtue of that wireless telegraphy licence, is authorised if the rights and obligations of the person making the transfer become rights and obligations of a single transferee to the exclusion of the person making the transfer.

### **Satellite (Complementary Ground Components of a Mobile Satellite System) licence class**

6. Subject to regulation 8, a transfer by the holder of a wireless telegraphy licence within the licence class specified in Column 1 of Part 2 of Schedule 2 which applies to a station or apparatus operating within either of the frequency bands specified in Column 2 of the same Part, of all of the rights and obligations arising by virtue of that wireless telegraphy licence, is authorised if the transferred rights and obligations become rights and obligations of the transferee while continuing, concurrently, to be rights and obligations of the person making the transfer.

### **Partial transfer of rights and obligations arising by virtue of a wireless telegraphy licence**

7. Subject to regulation 8, transfers satisfying one of the two conditions set out in regulation 4(2) are also authorised where the transfer is of—

- (a) all of the rights arising by virtue of a wireless telegraphy licence which relate to—
  - (i) whole frequency channels under one of the licences of a class specified in Column 1 of Parts 3 to 9 of Schedule 2 which apply to a station or apparatus operating within any of the frequency bands specified in Column 2 of the same Part;
  - (ii) part frequency channels which have in each case a bandwidth of 12.5 kHz or a multiple thereof and the same start or end frequency limit as a licensed frequency channel under one of the licences of the class specified in Column 1 of Part 3 of Schedule 2 which apply to a station or apparatus operating within the frequency band specified in Column 2 of the same Part;
  - (iii) whole wireless telegraphy links designed for use between two fixed points under one of the licences of a class specified in Column 1 of Part 10 of Schedule 2 which apply to a station or apparatus operating within any of the frequency bands specified in Column 2 of that Part;

- (iv) a part of the range of frequencies under one of the licences of a class specified in Column 1 of Part 11 of Schedule 2 which apply to a station or apparatus operating within any of the frequency bands specified in Column 2 of the same Part;
  - (v) a geographical area being part of the total geographical area in which the holder is authorised to establish, install and use radio transmitting and receiving stations or apparatus under one of the licences of a class specified in Column 1 of Part 11 of Schedule 2 which apply to a station or apparatus operating within any of the frequency bands specified in Column 2 of the same Part;
  - (vi) both of the situations set out in sub-paragraphs (iv) and (v);
  - (vii) part frequency channels which have in each case a bandwidth of 6.25 kHz or a multiple thereof and the same start or end frequency limit as a licensed frequency channel under one of the licences of a class specified in Column 1 of Part 12 or Column 1 of Part 13 of Schedule 2 which apply to a station or apparatus operating within any of the frequency bands specified in Column 2 of the same Part;
  - (viii) a geographical area being a fifty kilometre by fifty kilometre square part of the total geographical area in which the holder is authorised to establish, install and use radio transmitting and receiving stations or apparatus under one of the licences of a class specified in Column 1 of Part 8 or Column 1 of Part 13 of Schedule 2 which apply to a station or apparatus operating within any of the frequency bands specified in Column 2 of the same Part; or
  - (ix) both of the following situations—
    - (aa) part frequency channels which have in each case a bandwidth of 6.25 kHz or a multiple thereof and the same start or end frequency limit as a licensed frequency channel under one of the licences of a class specified in Column 1 of Part 13 of Schedule 2 which apply to a station or apparatus operating within any of the frequency bands specified in Column 2 of the same Part; and
    - (bb) a geographical area being a fifty kilometre by fifty kilometre square part of the total geographical area in which the holder is authorised to establish, install and use radio transmitting and receiving stations or apparatus under one of the licences of a class specified in Column 1 of Part 13 of Schedule 2 which apply to a station or apparatus operating within any of the frequency bands specified in Column 2 of the same Part; and
- (b) the corresponding part of each of the obligations under the licence.

### **Circumstances in which a transfer is not authorised**

**8.** A transfer of rights and obligations arising under a wireless telegraphy licence is not authorised where—

- (a) any of the licence holder, or all of the concurrent holders, and the transferee have not consented to the transfer;
- (b) any sum payable under the Wireless Telegraphy (Licence Charges) Regulations 2011 <sup>M2</sup> in respect of that licence is owing to OFCOM because it has not been paid by the time it became due;
- (c) any instalment payment is to be paid to OFCOM under regulation 4(8)(b) of the Wireless Telegraphy (Licence Charges) Regulations 2011 in respect of that licence;
- (d) OFCOM has served notice under paragraph 7 of Schedule 1 to the Wireless Telegraphy Act 2006 on the holder, or the concurrent holders, of that licence of a proposal to revoke or vary that licence but that revocation or variation has not yet been made; or

*Status: Point in time view as at 13/09/2012.*

*Changes to legislation: There are currently no known outstanding effects for the The Wireless Telegraphy (Spectrum Trading) Regulations 2012. (See end of Document for details)*

- (e) the holder has, or all of the concurrent holders have, requested OFCOM to revoke or vary the licence or have consented to a revocation or variation proposed by OFCOM but that revocation or variation has not yet been made.

#### **Marginal Citations**

### **Transfer procedure**

**9.—(1)** The holder, or concurrent holders, of a wireless telegraphy licence who wishes, or who wish, to make a transfer authorised by regulations 4(1), 5, 6 or 7 must provide to OFCOM—

- (a) the reference number of the wireless telegraphy licence under which rights and obligations are to be transferred;
- (b) the name and address of the holder or concurrent holders of the wireless telegraphy licence;
- (c) the name and address of the proposed transferee;
- (d) a description of which type of transfer authorised by regulation 4(1), 5, 6 or 7 is proposed;
- (e) a document signed by or on behalf of the holder, or each concurrent holder, of the licence and signed by or on behalf of the transferee, under which each of those persons warrants to OFCOM that he has consented to the proposed transfer; and
- (f) in the case of a transfer authorised by regulation 7, a description of which rights and obligations under the licence are to be transferred.

(2) OFCOM shall, after determining that the requirements of paragraph (1) have been met, publish a notice stating—

- (a) the name of the wireless telegraphy licence holder or concurrent holders and the name of the transferee to whom it is proposed that the rights and obligations arising under the licence shall be transferred;
- (b) the date when OFCOM determined that the requirements of paragraph (1) were met;
- (c) the licence class and the reference number of the wireless telegraphy licence under which rights and obligations are to be transferred; and
- (d) in the case of a transfer authorised by regulation 7, a description of which rights under the licence are proposed to be transferred.

(3) A transfer shall be effected by the holder or concurrent holders of the wireless telegraphy licence under which rights and obligations are to be transferred surrendering that licence and by OFCOM granting a new one to the transferee and—

- (a) in the case of a transfer which satisfies the condition set out in regulation 4(2)(b), to the holder or concurrent holders who made the transfer; and
- (b) in the case of a transfer authorised by regulation 7, to the holder or concurrent holders who made the transfer.

(4) OFCOM shall publish the information specified in paragraph (2) in relation to transfers that have been effected pursuant to paragraph (3).

For and on behalf of the Office of  
Communications  
23rd August 2012

## EXPLANATORY NOTE

*(This note is not part of the Regulations)*

These Regulations revoke and replace the Wireless Telegraphy (Spectrum Trading) Regulations 2004 (S.I. 2004/3154 as amended by S.I.s 339/2006, 1807/2006, 380/2007, 3387/2007, 688/2008, 2105/2008 and 2008/3192).

These Regulations are made under section 30 of the Wireless Telegraphy Act 2006, which implements Article 9b of the Directive of the European Parliament and of the Council of 7<sup>th</sup> March 2002 on a common regulatory framework for electronic communications networks and services (Framework Directive) (2002/21/EC).

These Regulations remove the requirement to obtain OFCOM's consent to transfers being made and extend spectrum trading to certain licence classes granted for the maritime and satellite sectors.

Regulation 4(1) (subject to the exceptions in regulations 8) authorises the transfer of all rights and obligations arising by virtue of the wireless telegraphy licences of the classes listed in Column 1 of each of Parts 3 to 21 of Schedule 2 which apply to a station or apparatus operating within any of the frequency bands specified in Column 2 of the same Part. This includes licences granted for the Fixed Wireless sector, the Business Radio sector, Point to Point Fixed links licences, Scanning Telemetry licences, Spectrum Access licences and certain licences granted for the Maritime and Satellite sectors.

Regulation 7 (subject to the exceptions in regulation 8) authorises the transfers of rights and obligations relating to parts of the licensed range of frequencies for certain licence classes and/or parts of the licensed geographical area for certain licence classes.

Two types of transfer are authorised by regulation 4(1) and 7. Firstly, a transfer may be one in which the rights and obligations of the person making the transfer become rights and obligations of the transferee to the exclusion of the person making the transfer. Secondly, a transfer may be one in which the transferred rights and obligations become rights and obligations of the transferee while continuing, concurrently, to be rights and obligations of the person making the transfer.

Regulation 5 (subject to regulation 8) authorises the transfer of the rights and obligations arising by virtue of a particular class of licence to the exclusion of the person making the transfer.

Regulation 6 (subject to regulation 8) authorises the transfer of the rights and obligations arising by virtue of a particular class of licence if the transferred rights and obligations become rights and obligations of the transferee while continuing, concurrently, to be rights and obligations of the person making the transfer.

Regulation 8 specifies circumstances in which transfers are not authorised.

Regulation 9 sets out the procedure for making transfers.

A full regulatory impact assessment of the effect that these Regulations will have on the costs to business is available to the public from the OFCOM Library at Riverside House, 2A Southwark Bridge Road, London SE1 9HA (Tel: 020 7981 3000) and on OFCOM's website at [www.ofcom.org.uk](http://www.ofcom.org.uk). Copies of this assessment have also been placed in the libraries of the Houses of Parliament.

**Status:**

Point in time view as at 13/09/2012.

**Changes to legislation:**

There are currently no known outstanding effects for the The Wireless Telegraphy (Spectrum Trading) Regulations 2012.
