2012 No. 632

The Control of Asbestos Regulations 2012

PART 3

Prohibitions and related provisions

Prohibitions of exposure to asbestos

26.—(1) A person must not undertake asbestos spraying or working procedures that involve using low-density (less than 1g/cm) insulating or soundproofing materials which contain asbestos.

(2) Every employer must ensure that no employees are exposed to asbestos during the extraction of asbestos.

(3) Every employer must ensure that no employees are exposed to asbestos during the manufacture of asbestos products or of products containing intentionally added asbestos.

Changes to legislation:

There are currently no known outstanding effects for the The Control of Asbestos Regulations 2012, Section 26.
