2013 No. 2870

The Air Navigation (Overseas Territories) Order 2013

PART 12

CARRIAGE OF DANGEROUS GOODS

Inspections by the operator for damage, leakage or contamination

115. The operator of an aircraft in which dangerous goods are to be carried must ensure that packages and freight containers which contain such goods are inspected for evidence of damage or leakage before being loaded on an aircraft, in accordance with the specified requirements.
