Ongoing review of the permission to use internal approaches

34B.—(1) The competent authority must review on a regular basis, and at least every 3 years, an institution's compliance with the requirements regarding internal approaches that require permission by the competent authorities before using such internal approaches for the calculation of own funds requirements in accordance with Part 3 of the capital requirements regulation [^{F23}and CRR rules].

(2) In its review the competent authority must have particular regard to changes in an institution's business and to the implementation of those approaches to new products.

(3) Where material deficiencies are identified in risk capture by an institution's internal approaches, the competent authority must ensure these are rectified, or take appropriate steps to mitigate their consequences, including by imposing higher multiplication factors, or imposing capital add-ons, or taking other appropriate and effective measures.

(4) The competent authority must in particular review and assess whether the institution uses well developed and up-to-date techniques and practices for its internal approaches.

(5) If for an internal market risk model numerous overshootings referred to in Article 366 of the capital requirements regulation indicate that the model is not or is no longer sufficiently accurate, the competent authority must revoke the permission for using the internal model or impose appropriate measures to ensure that the model is improved promptly.

(6) If an institution has received permission to apply an approach that requires permission by the competent authority before using such an approach for the calculation of own funds requirements in accordance with Part 3 of the capital requirements regulation but no longer meets the requirements ^{F24}... for applying that ^{F25}... approach, the competent authority must require the institution either to satisfy the competent authority that the effect of non-compliance is immaterial where applicable in accordance with the capital requirements regulation or to present a plan for the timely restoration of compliance with the requirements and set a deadline for its implementation.

(7) The competent authority must require improvements to that plan if it is unlikely to result in full compliance or if the deadline is inappropriate.

(8) If the institution is unlikely to be able to restore compliance within an appropriate deadline and, where applicable, has not satisfactorily demonstrated that the effect of non-compliance is immaterial, the permission to use the internal approach must be revoked or limited to compliant areas or those where compliance can be achieved within an appropriate deadline.]
