

SCHEDULE 7

MARKING OR AFFIXING THE UNIQUE IDENTIFICATION TO CIVIL EXPLOSIVES

Plain detonators

3. For plain detonators—
 - (a) subject to paragraph 10(1) and (2), the unique identification must be on an adhesive label attached to, or be directly printed or stamped on, the detonator shell;
 - (b) an associated label must be placed on each case of detonators; and
 - (c) a passive inert electronic tag may be attached to each detonator and an associated tag attached to each case of detonators.
