SECTION 1

Scope

SUB-SECTION 1 *Subject-matter and mixed procurement*

Subject-matter and scope of Part 2

3.—(1) This Part establishes rules on the procedures for procurement by contracting authorities with respect to public contracts and design contests which—

- (a) have a value estimated to be not less than the relevant threshold mentioned in regulation 5, and
- (b) are not excluded from the scope of this Part by any other provision in this Section.

[^{F32}(2) This Part—

- (a) does not oblige the United Kingdom to supply information the disclosure of which it considers contrary to the essential interests of its security;
- (b) does not preclude the United Kingdom from taking such measures as it considers necessary for the protection of the essential interests of its security which are connected with the production or trade in arms, munitions and war material, provided that such measures do not adversely affect the conditions of competition regarding products which are not intended for specifically military purposes.

(3) The arms, munitions and war material to which paragraph (2)(b) applies are, subject to paragraph (5), those included in the 1958 List.

(4) Subject to the effect of any regulations made under paragraph (5), any measures which, if they had been taken immediately before IP completion day, would have been covered by Article 346 of TFEU shall be regarded as measures covered by paragraph (2).

(5) The Secretary of State may make regulations providing that the 1958 List is to be treated for the purposes of this Part as if it were changed in respects specified in the regulations.

(6) In this regulation, “the 1958 List” means the list of arms, munitions and war material adopted by the Council of the European Economic Community in its decision 255/58 of 15th April 1958.]

[^{F46}Review and amendment of certain thresholds

5A.—(1) Every two years the Minister for the Cabinet Office must review the thresholds mentioned in regulation 5(1)(a), (b) and (c) (“the reviewable thresholds”) to verify whether they correspond with the thresholds established for those purposes in the GPA.

(2) The Minister must do so by calculating the sterling value of each of the reviewable thresholds on the basis of the average daily value of sterling in terms of the special drawing rights mentioned in the GPA over a period of 24 months ending with 31st August.

(3) The Minister must make that calculation using the applicable conversion rates in the monthly International Financial Statistics published from time to time by the International Monetary Fund.

(4) If the sterling value of a reviewable threshold so calculated differs from the sum for the time being mentioned in regulation 5(1) in respect of that threshold, the Minister must make regulations amending regulation 5(1) so as to substitute for that sum the sum equal to that value.

(5) Such regulations—

(a) must be made and laid before Parliament before 1st November following the end of the 24-month period covered by the review; and

(b) must provide for the substitution to come into force on the following 1st January.

(6) The first review under this regulation must relate to the 24-month period ending with 31st August 2021.]

F46 Reg. 5A inserted (31.12.2020) by [The Public Procurement \(Amendment etc.\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1319\)](#), regs. 1(2), **6(6)** (with Sch. paras. 3-5)

Methods for calculating the estimated value of procurement

General rules

General rules

6.—(1) The calculation of the estimated value of a procurement shall be based on the total amount payable, [^{F47}inclusive] of VAT, as estimated by the contracting authority, including any form of option and any renewals of the contracts as explicitly set out in the procurement documents.

(2) Where the contracting authority provides for prizes or payments to candidates or tenderers it shall take them into account when calculating the estimated value of the procurement.

(3) Where a contracting authority is comprised of separate operational units, account shall be taken of the total estimated value for all those units.

(4) But where a separate operational unit is independently responsible for its procurement, or certain categories of its procurement, the values may be estimated at the level of the unit in question.

(5) The choice of the method used to calculate the estimated value of a procurement shall not be made with the intention of excluding it from the scope of this Part.

(6) A procurement shall not be subdivided with the effect of preventing it from falling within the scope of this Part, unless justified by objective reasons.

(7) The estimated value shall be calculated as at the moment at which the call for competition is [^{F48}submitted] or, in cases where a call for competition is not foreseen, at the moment at which the contracting authority commences the procurement procedure (for example, where appropriate, by contacting economic operators in relation to the procurement).

(8) In the case of framework agreements and dynamic purchasing systems, the value to be taken into consideration shall be the maximum estimated value, [^{F49}inclusive] of VAT, of all the contracts envisaged for the total term of the framework agreement or the dynamic purchasing system.

(9) In the case of innovation partnerships, the value to be taken into consideration shall be the maximum estimated value, [^{F50}inclusive] of VAT, of the research and development activities to take place during all stages of the envisaged partnership as well as of the supplies, services or works to be developed and procured at the end of the envisaged partnership.

(10) In the case of public works contracts, the calculation of the estimated value shall take account of both the cost of the works and the total estimated value of the supplies and services that are made available to the contractor by the contracting authority provided that they are necessary for executing the works.

Treatment of lots

(11) Where a proposed work or a proposed provision of services may result in contracts being awarded in the form of separate lots, account shall be taken of the total estimated value of all such lots.

(12) Where a proposal for the acquisition of similar supplies may result in contracts being awarded in the form of separate lots, account shall be taken of the total estimated value of all such lots when applying regulation 5(1)(b) and (c) (read with regulation 5(2)).

(13) For the purposes of paragraphs (11) and (12), where the aggregate value of the lots is equal to or greater than the relevant threshold mentioned in regulation 5, this Part applies to the awarding of each lot.

(14) Despite paragraphs (11) to (13), contracting authorities may, subject to [^{F51}paragraphs (15) and (15A)], award contracts for individual lots without applying the procedures provided for by this Part, but only if the estimated value, [^{F52}inclusive] of VAT, of the lot concerned is less than—

- (a) [^{F53}£70,778] for supplies or services, or
- (b) [^{F54}£884,720] for works.

(15) The aggregate value of the lots awarded in reliance on paragraph (14) shall not exceed 20% of the aggregate value of all the lots into which the proposed work, the proposed acquisition of similar supplies, or the proposed provision of services, has been divided.

[^{F55}(15A) Where a contracting authority ^{F56}... is unable to estimate in accordance with this regulation the value of one or more lots into which a proposed work, proposed acquisition of similar supplies or proposed provision of services has been divided, the aggregate value of the lots awarded in reliance on paragraph (14) shall not exceed 20 per cent of the aggregate value of all the lots that can be so estimated.]

Other specific rules

(16) In the case of public supply or service contracts which are regular in nature or which are intended to be renewed within a given period, the calculation of the estimated contract value shall be based on either of the following:—

- (a) the total actual value of the successive contracts of the same type awarded during the preceding 12 months or financial year adjusted, where possible, to take account of the

Status: Point in time view as at 01/03/2024.

Changes to legislation: The Public Contracts Regulations 2015 is up to date with all changes known to be in force on or before 11 May 2024. changes in quantity or value which would occur in the course of the 12 months following the initial contract;

- (b) the total estimated value of the successive contracts awarded during the 12 months following the first delivery, or during the financial year where that is longer than 12 months.

(17) In the case of public supply contracts relating to the leasing, hire, rental or hire purchase of products, the value to be taken as a basis for calculating the estimated contract value shall be as follows:—

- (a) in the case of fixed-term public contracts, where that term is less than or equal to 12 months, the total estimated value for the term of the contract or, where the term of the contract is greater than 12 months, the total value including the estimated residual value;
- (b) in the case of public contracts without a fixed term, or public contracts the term of which cannot be defined, the monthly value multiplied by 48.

(18) In the case of public service contracts, the basis for calculating the estimated contract value shall, where relevant be the following:—

- (a) in the case of insurance services, the premium payable and other forms of remuneration;
- (b) in the case of banking and other financial services, the fees, commissions payable, interest and other forms of remuneration;
- (c) in the case of design contracts, the fees, commissions payable and other forms of remuneration.

(19) In the case of public service contracts which do not indicate a total price, the basis for calculating the estimated contract value shall be the following:—

- (a) in the case of fixed-term contracts where that term is less than or equal to 48 months, the total value for their full term;
- (b) in the case of contracts without a fixed term or with a term greater than 48 months, the monthly value multiplied by 48.

[^{F57}(20) If a contracting authority ^{F58}... is unable to estimate the value of a procurement in accordance with this regulation, the estimated value of the procurement inclusive of VAT is deemed to be equal to the relevant threshold amount in regulation 5 (threshold amounts).]

Award of contracts to controlled persons

12.—(1) A public contract awarded by a contracting authority to a legal person falls outside the scope of this Part where all of the following conditions are fulfilled:—

- (b) more than 80% of the activities of the controlled legal person are carried out in the performance of tasks entrusted to it by the controlling contracting authority or by other legal persons controlled by that contracting authority; and
- (c) there is no direct private capital participation in the controlled legal person with the exception of non-controlling and non-blocking forms of private capital participation required by national legislative provisions ^{F71}... which do not exert a decisive influence on the controlled legal person.

(2) A public contract also falls outside the scope of this Part where a controlled legal person which is a contracting authority awards the contract to—

- (a) its controlling contracting authority, or
- (b) another legal person controlled by the same contracting authority,

provided that there is no direct private capital participation in the legal person being awarded the contract with the exception of non-controlling and non-blocking forms of private capital participation required by national legislative provisions ^{F72}... which do not exert a decisive influence on the legal person being awarded the contract.

(3) A contracting authority shall be deemed to exercise over a legal person a control similar to that which it exercises over its own departments within the meaning of paragraph (1)(a) where—

- (a) it exercises a decisive influence over both strategic objectives and significant decisions of the controlled legal person, or
- (b) the control is exercised by another legal person which is itself controlled in the same way by the contracting authority,

and references to “control”, “controlled” and “controlling” in paragraphs (1) to (3) shall be interpreted accordingly.

Award of contracts where there is joint control

(4) A contracting authority which does not exercise over a legal person control within the meaning of paragraph (3) may nevertheless award a public contract to that legal person without applying this Part where all of the following conditions are fulfilled:—

- (a) the contracting authority exercises jointly with other contracting authorities a control over that legal person which is similar to that which they exercise over their own departments;
- (b) more than 80% of the activities of that legal person are carried out in the performance of tasks entrusted to it by the controlling contracting authorities or by other legal persons controlled by the same contracting authorities; and
- (c) there is no direct private capital participation in the controlled legal person with the exception of non-controlling and non-blocking forms of private capital participation required by national legislative provisions ^{F73}... which do not exert a decisive influence on the controlled legal person.

- (6) For the purposes of paragraph (5)(a), individual representatives may represent several or all of the participating contracting authorities.

Contracts which establish or implement co-operation between contracting authorities

(7) A contract concluded exclusively between two or more contracting authorities falls outside the scope of this Part where all of the following conditions are fulfilled:—

- (a) the contract establishes or implements a co-operation between the participating contracting authorities with the aim of ensuring that public services they have to perform are provided with a view to achieving objectives they have in common;
- (b) the implementation of that co-operation is governed solely by considerations relating to the public interest; and
- (c) the participating contracting authorities perform on the open market less than 20% of the activities concerned by the co-operation.

Determination of percentages

(9) Where, because of—

- (a) the date on which the relevant legal person or contracting authority was created or commenced activities, or

General principles about the use of electronic and non-electronic means of communication

22.—(1) Subject to paragraphs (3), (5), (8) and (10), all communication and information exchange under this Part, including electronic submission, shall be performed using electronic means of communication in accordance with the requirements of this regulation.

(2) Subject to paragraph (13), the tools and devices to be used for communicating by electronic means, and their technical characteristics, shall be non-discriminatory, generally available and interoperable with the information and communication technology products in general use and shall not restrict economic operators' access to the procurement procedure.

(3) Contracting authorities are not obliged to require electronic means of communication in the submission process in the following situations:—

- (a) due to the specialised nature of the procurement, the use of electronic means of communication would require specific tools, devices or file formats that are not generally available or supported by generally available applications;
- (b) the applications supporting file formats that are suitable for the description of the tenders use file formats that cannot be handled by any other open or generally available applications or are under a proprietary licensing scheme and cannot be made available for downloading or remote use by the contracting authority;
- (c) the use of electronic means of communication would require specialised office equipment that is not generally available to contracting authorities; or
- (d) the procurement documents require the submission of physical or scale models which cannot be transmitted using electronic means.

(4) Where, in accordance with paragraph (3), electronic means of communication are not used, communication shall be carried out—

- (a) by post or by other suitable carrier, or
- (b) by a combination of post or other suitable carrier and electronic means.

(5) Contracting authorities are not obliged to require electronic means of communication in the submission process to the extent that the use of means of communication other than electronic means is necessary either—

- (a) because of a breach of security of the electronic means of communication, or
- (b) for the protection of information of a particularly sensitive nature requiring such a high level of protection that it cannot be properly ensured by using electronic tools and devices that are either generally available to economic operators or can be made available to them by alternative means of access within the meaning of paragraph (14).

(6) Where contracting authorities require, in accordance with paragraph (3), means of communication other than electronic means in the submission process, they shall indicate in the report referred to in regulation 84(1) the reasons for that requirement.

(7) Where applicable, contracting authorities shall indicate in that report the reasons why use of means of communication other than electronic means has been considered necessary in accordance with paragraph (5).

(8) Oral communication may be used in respect of communications other than those concerning the essential elements of a procurement procedure, provided that the content of the oral communication is documented to a sufficient degree.

(9) For that purpose, the essential elements of a procurement procedure include the procurement documents, requests to participate, confirmations of interest and tenders.

(10) In particular, oral communications with tenderers which could have a substantial impact on the content and assessment of the tenders shall be documented to a sufficient extent and by appropriate means, such as written or audio records or summaries of the main elements of the communication.

(11) In all communication, exchange and storage of information, contracting authorities shall ensure that the integrity of data and the confidentiality of tenders and requests to participate are preserved.

(12) Contracting authorities shall examine the content of tenders and requests to participate only after the time limit set for submitting them has expired.

Use of tools and devices not generally available

(13) Contracting authorities may, where necessary, require the use of tools and devices which are not generally available, provided that the contracting authorities offer suitable alternative means of access.

(14) Contracting authorities shall be deemed to offer suitable alternative means of access where they do any of the following:—

- (a) offer unrestricted and full direct access free of charge by electronic means to the tools and devices concerned from the date of publication of the call for competition ^{F94} ...;
- (b) ensure that tenderers having no access to the tools and devices concerned, or no possibility of obtaining them within the relevant time limits, provided that the lack of access is not attributable to the tenderer concerned, may access the procurement procedure through the use of provisional tokens made available free of charge online; or
- (c) support an alternative channel for electronic submission of tenders.

(15) For the purposes of paragraph (14)(a)—

- (a) “publication of the call for competition” means whichever of the following is relevant (and where both are relevant, the earliest of them):—
 - (i) its publication [^{F95}on the UK e-notification service] after being [^{F96}submitted] in accordance with regulation 51;
 - (ii) its publication on a buyer profile in accordance with regulation 52; and
- (b) the text of the call for competition notice ^{F97} ... shall specify the internet address at which the tools and devices are accessible.

Technical etc requirements for tools and devices

(16) Tools and devices for the electronic receipt of tenders, requests to participate and, in design contests, plans and projects, must at least guarantee, through technical means and appropriate procedures, that—

- (a) the exact time and date of the receipt of tenders, requests to participate and the submission of plans and projects can be determined precisely;

Status: Point in time view as at 01/03/2024.

Changes to legislation: The Public Contracts Regulations 2015 is up to date with all changes known to be in force on or before 11 May 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (b) it may be reasonably ensured that, before the time referred to in paragraph (12), no-one can have access to data transmitted under the requirements in this paragraph;
- (c) only authorised persons may set or change the dates for opening data received;
- (d) during the different stages of the procurement procedure, access to all data submitted, or to part of such data, must be possible only for authorised persons;
- (e) only authorised persons may give access to data transmitted and only after the time referred to in paragraph (12);
- (f) data received and opened in accordance with the requirements in sub-paragraphs (a) to (e) must remain accessible only to persons authorised to acquaint themselves with the data;
- (g) it must be reasonably ensured that any infringement, or attempted infringement, of the access prohibitions or conditions referred to in sub-paragraphs (b) to (f) are clearly detectable.

(17) In addition to those requirements, the following rules apply to tools and devices for the electronic transmission and receipt of tenders and for the electronic receipt of requests to participate:

- (a) information on specifications for the electronic submission of tenders and requests to participate, including encryption and time-stamping, shall be available to interested parties;
- (b) contracting authorities shall, acting in accordance with paragraphs (18) and (19), specify the level of security required for the electronic means of communication in the various stages of the specific procurement procedure, and that level shall be proportionate to the risks attached;
- (c) where contracting authorities conclude that the level of risk, assessed in accordance with paragraphs (18) and (19), is such that advanced electronic signatures as defined by [F98]Regulation (EU) No 910/2014 of the European Parliament and of the Council on electronic identification and trust services for electronic transactions in the internal market] as amended from time to time are required, contracting authorities shall [F99]act in accordance with Article 27 of that Regulation (and for this purpose the submission of the tender or request is to be treated as the use of an online service to which that Article applies)].

Security requirements

(18) In deciding the level of security required at each stage of a procurement procedure, and in concluding whether the level of risk is such that advanced electronic signatures are required, contracting authorities shall assess the risks having regard to both the likelihood that particular risks will materialise and the potential adverse consequences if those risks materialise.

(19) In doing so, contracting authorities shall, in particular, have regard to such of the following matters as are relevant:—

- (a) the risk to the proper functioning and integrity of the specific procurement process, including risks of breach of this Part;
- (b) risks to national security;
- (c) the risk of inadvertent or unauthorised disclosure of, or access to, any economic operator's confidential information;
- (d) the risk of inadvertent or unauthorised disclosure of, or access to, information held by the contracting authority including information relating to the specific procurement;

Changes to legislation: The Public Contracts Regulations 2015 is up to date with all changes known to be in force on or before 11 May 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (e) the risk that use of electronic communications could provide opportunity for malicious attacks on the electronic systems of, or data held by, the authority, any economic operator or any other person, including introduction of malware or denial of service attacks;
- (f) other material risks relating to the procurement procedure in question;
- (g) the need for consistency as between similar procurements performed by the same contracting authority;
- (h) the need for proportionality between, on the one hand the expected benefits of any particular security requirements (in terms of eliminating or reducing any of the risks referred to in sub-paragraphs (a) to (g)), and on the other hand the costs, burdens and obligations which those requirements may impose on economic operators.

Electronic signatures

(20) Paragraph (21) applies where—

- (a) a competent authority of the United Kingdom located in England and Wales or Northern Ireland, or
- (b) another issuing entity so located,

signs and issues a document for use in a procurement procedure within the scope of [F100 this Part].

(21) The competent authority or issuing entity may establish the required advanced signature format [F101: in a format other than those referred to in Article 1 of Commission Implementing Decision (EU) 2015/1506 laying down specifications relating to formats of advanced electronic signatures and advanced seals to be recognised by public sector bodies] and, where it does so—

- (a) it shall put in place the necessary measures to be able to process that format technically by including the information required for the purpose of processing the signature in the document concerned; and
- (b) the document shall contain in the electronic signature or in the electronic document carrier information on existing validation possibilities that [F102: comply with the requirements of Article 2(1)(b) of that Decision (or would comply with those requirements if the person seeking to validate the signature were a public sector body within the meaning of that Article)].

- (b) inserting a description of a new situation where, exceptionally, the Minister considers that it must become a new exception because of technological developments.

(2) Where the Minister considers that technological developments render it inappropriate for there to continue to be any exceptions from the obligation to require electronic means of communication, the Minister may make regulations omitting paragraph (3) from regulation 22.

(3) Where regulations have been made under paragraph (2) and, exceptionally, the Minister considers that a new exception must be provided for because of technological developments, the Minister may make regulations re-inserting paragraph (3) into regulation 22 in terms which give effect to that new exception (and the powers conferred by paragraphs (1) and (2) of this regulation may subsequently be exercised in relation to paragraph (3) as re-inserted).

Competitive procedure with negotiation

Starting the procedure

Status: Point in time view as at 01/03/2024.

Changes to legislation: The Public Contracts Regulations 2015 is up to date with all changes known to be in force on or before 11 May 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

Starting the procedure

29.—(1) In competitive procedures with negotiation, any economic operator may submit a request to participate in response to a call for competition by providing the information for qualitative selection that is requested by the contracting authority.

(2) In the procurement documents, contracting authorities shall—

- (a) identify the subject-matter of the procurement by providing a description of their needs and the characteristics required of the supplies, works or services to be procured,
- (b) indicate which elements of the description define the minimum requirements to be met by all tenders, and
- (c) specify the contract award criteria.

(3) The information provided under paragraph (2) shall be sufficiently precise to enable economic operators to identify the nature and scope of the procurement and decide whether to request to participate in the procedure.

Time limits

(4) The minimum time limit for receipt of requests to participate shall, subject to ^{F123}paragraph (10)], be 30 days from—

(a) the date on which the contract notice is ^{F124}submitted^{F125}...

^{F125}(b)

(5) The minimum time limit for the receipt of initial tenders shall, subject to paragraphs (6) to (10), be 30 days from the date on which the invitation is sent.

(6) Where contracting authorities have published a prior information notice ^{F126}..., the minimum time limit for the receipt of initial tenders as laid down in paragraph (5) may be shortened to 10 days, provided that both of the following conditions are fulfilled:—

- (a) the prior information notice included all the information required in ^{F127}by regulation 48(2)], insofar as that information was available at the time the prior information notice was published;
- (b) the prior information notice was ^{F128}submitted] for publication between 35 days and 12 months before the date on which the contract notice was ^{F128}submitted].

(7) Sub-central contracting authorities may set the time limit for the receipt of initial tenders by mutual agreement between the contracting authority and all selected candidates, provided that all selected candidates have the same time to prepare and submit their tenders.

(8) In the absence of such an agreement, the time limit shall be at least 10 days from the date on which the invitation to tender is sent.

(9) The time limit for receipt of initial tenders provided for by paragraph (5) may be reduced by 5 days where the contracting authority accepts that tenders may be submitted by electronic means in accordance with regulation 22.

(10) Where a state of urgency duly substantiated by the contracting authorities renders impracticable the time limits laid down in this regulation, they may fix—

- (a) a time limit for the receipt of requests to participate which shall not be less than 15 days from the date on which the contract notice is ^{F129}submitted], and
- (b) a time limit for the receipt of initial tenders which shall not be less than 10 days from the date on which the invitation to tender is sent.

Tenders and negotiations

(11) Only those economic operators invited by the contracting authority following its assessment of the information provided may submit an initial tender which shall be the basis for the subsequent negotiations.

(12) Contracting authorities may limit the number of suitable candidates to be invited to participate in the procedure in accordance with regulation 65.

(13) Subject to paragraphs (15) and (19), contracting authorities shall negotiate with tenderers the initial and all subsequent tenders submitted by them, except for the final tender, to improve their content.

(14) The minimum requirements and the award criteria shall not be subject to negotiation.

(15) Contracting authorities may award contracts on the basis of the initial tenders without negotiation where they have indicated, in the contract notice ^{F130} ..., that they reserve the possibility of doing so.

(16) During the negotiations, contracting authorities shall ensure equal treatment of all tenderers and, to that end —

- (a) they shall not provide information in a discriminatory manner which may give some tenderers an advantage over others;
- (b) they shall inform all tenderers whose tenders have not been eliminated under paragraph (19), in writing, of any changes to the technical specifications or other procurement documents, other than those setting out the minimum requirements; and
- (c) following any such changes, they shall provide sufficient time for tenderers to modify and re-submit amended tenders, as appropriate.

(17) In accordance with regulation 21, contracting authorities shall not reveal to the other participants confidential information communicated by a candidate or tenderer participating in the negotiations without its agreement.

(18) Such agreement shall not take the form of a general waiver but shall be given with reference to the intended communication of specific information.

(19) Competitive procedures with negotiation may take place in successive stages in order to reduce the number of tenders to be negotiated by applying the award criteria specified in the contract notice ^{F131} ... or in another procurement document.

(20) In the contract notice ^{F132} ... or in another procurement document, the contracting authority shall indicate whether it will use the option described in paragraph (19).

Concluding the procedure

(21) Where the contracting authority intends to conclude the negotiations, it shall—

- (a) inform the remaining tenderers and set a common deadline to submit any new or revised tenders,
- (b) verify that the final tenders are in conformity with the minimum requirements and comply with regulation 56(1),
- (c) assess the final tenders on the basis of the award criteria, and
- (d) award the contract in accordance with regulations 66 to 69.

Competitive dialogue

General and selection of participants

General and selection of participants

30.—(1) In competitive dialogues, any economic operator may submit a request to participate in response to a contract notice by providing the information for qualitative selection that is requested by the contracting authority.

(2) The minimum time limit for receipt of requests to participate shall be 30 days from the date on which the contract notice is [^{F133}submitted].

(3) Only those economic operators invited by the contracting authority following the assessment of the information provided may participate in the dialogue.

(4) Contracting authorities may limit the number of suitable candidates to be invited to participate in the procedure in accordance with regulation 65.

(5) The contract shall be awarded on the sole basis of the award criterion of the best price-quality ratio in accordance with regulation 67.

(6) Contracting authorities shall set out their needs and requirements in the contract notice and they shall define those needs and requirements in that notice or in a descriptive document, or in both.

(7) At the same time and in the same documents, contracting authorities shall also set out and define the chosen award criteria and set out an indicative timeframe.

Conduct of the dialogue

(8) Contracting authorities—

(a) shall open, with the participants selected in accordance with the relevant provisions of regulations 56 to 66, a dialogue the aim of which shall be to identify and define the means best suited to satisfying their needs, and

(b) may discuss all aspects of the procurement with the chosen participants during this dialogue.

(9) During the dialogue, contracting authorities shall ensure equality of treatment among all participants and, to that end, they shall not provide information in a discriminatory manner which may give some participants an advantage over others.

(10) In accordance with regulation 21, contracting authorities shall not reveal to the other participants solutions proposed or other confidential information communicated by a candidate or tenderer participating in the dialogue without its agreement.

(11) Such agreement shall not take the form of a general waiver but shall be given with reference to the intended communication of specific information.

(12) Competitive dialogues may take place in successive stages in order to reduce the number of solutions to be discussed during the dialogue stage by applying the award criteria laid down in the contract notice or in the descriptive document.

(13) In the contract notice or the descriptive document, the contracting authority shall indicate whether it will use the option described in paragraph (12).

(14) The contracting authority shall continue the dialogue until it can identify the solution or solutions which are capable of meeting its needs.

Final tenders

(15) Having declared that the dialogue is concluded and having so informed the remaining participants, contracting authorities shall ask each of them to submit their final tenders on the basis of the solution or solutions presented and specified during the dialogue.

(16) Those tenders shall contain all the elements required and necessary for the performance of the project.

(17) Those tenders may be clarified, specified and optimised at the request of the contracting authority.

(18) But such clarifications, specification or optimisation, or any additional information, may not involve changes to the essential aspects of the tender or of the public procurement, including the needs and requirements set out in the contract notice or in the descriptive document, where variations to those aspects, needs and requirements are likely to distort competition or have a discriminatory effect.

(19) Contracting authorities shall assess the tenders received on the basis of the award criteria laid down in the contract notice or in the descriptive document.

(20) At the request of the contracting authority, negotiations with the tenderer identified as having submitted the tender presenting the best price-quality ratio in accordance with regulation 67 may be carried out to confirm financial commitments or other terms contained in the tender by finalising the terms of the contract, provided this—

Innovation partnership

31.—(1) In innovation partnerships, any economic operator may submit a request to participate in response to a contract notice by providing the information for qualitative selection that is requested by the contracting authority.

(2) In the procurement documents, the contracting authority shall—

- (b) indicate which elements of this description define the minimum requirements to be met by all tenders.

(3) The information provided under paragraph (2) shall be sufficiently precise to enable economic operators to identify the nature and scope of the required solution and decide whether to request to participate in the procedure.

(4) The contracting authority may decide to set up the innovation partnership with one partner or with several partners conducting separate research and development activities.

(5) The minimum time limit for receipt of requests to participate shall be 30 days from the date on which the contract notice is [^{F134}submitted].

(6) Only those economic operators invited by the contracting authority following the assessment of the information provided may participate in the procedure.

(7) Contracting authorities may limit the number of suitable candidates to be invited to participate in the procedure in accordance with regulation 65.

(8) The contracts shall be awarded on the sole basis of the award criterion of the best price-quality ratio in accordance with regulation 67.

(10) The innovation partnership shall be structured in successive phases following the sequence of steps in the research and innovation process, which may include the manufacturing of the products, the provision of the services or the completion of the works.

(11) The innovation partnership shall set intermediate targets to be attained by the partners and provide for payment of the remuneration in appropriate instalments.

(12) Based on those targets, the contracting authority may decide after each phase to—

- (a) terminate the innovation partnership, or

(b) in the case of an innovation partnership with several partners, reduce the number of partners by terminating individual contracts,
provided that the contracting authority has indicated in the procurement documents those possibilities and the conditions for their use.

(13) Subject to the following provisions of this regulation, contracting authorities shall negotiate with tenderers the initial and all subsequent tenders submitted by them, except for the final tender, to improve their content.

(14) The minimum requirements and the award criteria shall not be subject to negotiation.

(b) they shall inform all tenderers whose tenders have not been eliminated under paragraph (18), in writing, of any changes to the technical specifications or other procurement documents, other than those setting out the minimum requirements; and

(c) following any such changes, contracting authorities shall provide sufficient time for tenderers to modify and re-submit amended tenders, as appropriate.

(16) In accordance with regulation 21, contracting authorities shall not reveal to the other participants confidential information communicated by a candidate or tenderer participating in the negotiations without its agreement.

(17) Such agreement shall not take the form of a general waiver but shall be given with reference to the intended communication of specific information.

(19) In the contract notice, the invitation to confirm interest or in another procurement document, the contracting authority shall indicate whether it will use the option described in paragraph (18).

(20) In selecting candidates, contracting authorities shall in particular apply criteria concerning the candidates' capacity in the field of research and development and of developing and implementing innovative solutions.

(21) Only those economic operators invited by the contracting authority following its assessment of the requested information may submit research and innovation projects aimed at meeting the needs identified by the contracting authority that cannot be met by existing solutions.

(22) In the procurement documents, the contracting authority shall define the arrangements applicable to intellectual property rights.

(23) In the case of an innovation partnership with several partners, the contracting authority shall not, in accordance with regulation 21, reveal to the other partners solutions proposed or other confidential information communicated by a partner in the framework of the partnership without that partner's agreement.

(24) Such agreement shall not take the form of a general waiver but shall be given with reference to the intended communication of specific information.

(25) The contracting authority shall ensure that the structure of the partnership and, in particular, the duration and value of the different phases reflect the degree of innovation of the proposed solution and the sequence of the research and innovation activities required for the development of an innovative solution not yet available on the market.

(26) The estimated value of supplies, services or works shall not be disproportionate in relation to the investment required for their development.

Use of the negotiated procedure without prior publication

32.—(1) In the specific cases and circumstances laid down in this regulation, contracting authorities may award public contracts by a negotiated procedure without prior publication.

General grounds

(2) The negotiated procedure without prior publication may be used for public works contracts, public supply contracts and public service contracts in any of the following cases:—

(a) where no tenders, no suitable tenders, no requests to participate or no suitable requests to participate have been submitted in response to an open procedure or a restricted procedure, provided that the initial conditions of the contract are not substantially altered [^{F135}and that —

(i) a report is sent to the Cabinet Office if it so requests;

(ii) where the contracting authority is a devolved Welsh authority, a report is sent to the Welsh Ministers if they so request (whether or not the Cabinet Office also makes a request under paragraph (i));

(iii) where the contracting authority is a devolved Northern Ireland authority, a report is sent to a Northern Ireland department if that department so requests (whether or not the Cabinet Office also makes a request under paragraph (i));]

(b) where the works, supplies or services can be supplied only by a particular economic operator for any of the following reasons:—

(i) the aim of the procurement is the creation or acquisition of a unique work of art or artistic performance,

(ii) competition is absent for technical reasons,

(iii) the protection of exclusive rights, including intellectual property rights,

but only, in the case of paragraphs (ii) and (iii), where no reasonable alternative or substitute exists and the absence of competition is not the result of an artificial narrowing down of the parameters of the procurement;

(c) insofar as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the contracting authority, the time limits for the open or restricted procedures or competitive procedures with negotiation cannot be complied with.

(3) For the purposes of paragraph (2)(a)—

(a) a tender shall be considered not to be suitable where it is irrelevant to the contract, being manifestly incapable, without substantial changes, of meeting the contracting authority's needs and requirements as specified in the procurement documents;

(b) a request to participate shall be considered not to be suitable where the economic operator concerned—

(i) is to be or may be excluded under regulation 57, or

(ii) does not meet the selection criteria.

(4) For the purposes of paragraph (2)(c), the circumstances invoked to justify extreme urgency must not in any event be attributable to the contracting authority.

Additional grounds relevant to public supply contracts

- (5) The negotiated procedure without prior publication may be used for public supply contracts—
- (a) where the products involved are manufactured purely for the purpose of research, experimentation, study or development, but contracts awarded in reliance on this subparagraph shall not include quantity production to establish commercial viability or to recover research and development costs;
 - (b) for additional deliveries by the original supplier which are intended either as a partial replacement of supplies or installations or as the extension of existing supplies or installations where a change of supplier would oblige the contracting authority to acquire supplies having different technical characteristics which would result in incompatibility or disproportionate technical difficulties in operation and maintenance;
 - (c) for supplies quoted and purchased on a commodity market;
 - (d) for the purchase of supplies or services on particularly advantageous terms, from either a supplier which is definitively winding up its business activities, or the liquidator in an insolvency procedure, an arrangement with creditors, or a similar procedure under national laws or regulations.

(6) In the case of paragraph (5)(b), the duration of the contract, as well as that of recurrent contracts, shall not, save in exceptional circumstances, exceed 3 years.

Additional ground relevant to public service contracts that follow a design contest

- (7) The negotiated procedure without prior publication may be used for public service contracts where the contract concerned—
- (a) follows a design contest organised in accordance with this Part, and
 - (b) is to be awarded, under the rules provided for in the design contest, to—
 - (i) the winner of the design contest, or
 - (ii) one of the winners of the design contest.

(8) Where paragraph (7)(b)(ii) applies, all winners must be invited to participate in the negotiation.

Additional ground relevant to new works or services which repeat similar ones

(9) The negotiated procedure without prior publication may be used for new works and services consisting of the repetition of similar works or services entrusted to the economic operator to which the same contracting authority awarded an original contract, provided that such works or services are in conformity with a basic project for which the original contract was awarded following a procedure in accordance with regulation 26(1) and (2).

(10) The basic project shall indicate the extent of possible additional works or services and the conditions under which they will be awarded.

(11) As soon as the first project is put up for tender, the possible use of this procedure shall be disclosed and the total estimated cost of subsequent works or services shall be taken into consideration by the contracting authority when it applies regulation 5.

(12) This procedure may be used only during the 3 years following the conclusion of the original contract.

SECTION 4

Techniques and Instruments for Electronic and Aggregated Procurement

Framework agreements

33.—(1) Contracting authorities may conclude framework agreements, provided that they apply the procedures provided for in this Part.

(2) In these regulations, “framework agreement” means an agreement between one or more contracting authorities and one or more economic operators, the purpose of which is to establish the terms governing contracts to be awarded during a given period, in particular with regard to price and, where appropriate, the quantity envisaged.

(3) The term of a framework agreement shall not exceed 4 years, save in exceptional cases duly justified, in particular by the subject-matter of the framework agreement.

(4) Contracts based on a framework agreement shall be awarded in accordance with the procedures laid down in this regulation.

(5) Those procedures may be applied only between those contracting authorities clearly identified for that purpose in the call for competition^{F136} ... and those economic operators party to the framework agreement as concluded.

(6) Contracts based on a framework agreement may under no circumstances entail substantial modifications to the terms laid down in that framework agreement, in particular in the case referred to in paragraph (7).

Awarding contracts based on a framework agreement

(7) Where a framework agreement is concluded with a single economic operator—

- (a) contracts based on that agreement shall be awarded within the limits laid down in the framework agreement; and
- (b) for the award of those contracts, contracting authorities may consult the economic operator which is party to the framework agreement in writing, requesting it to supplement its tender as necessary.

(8) Where a framework agreement is concluded with more than one economic operator, that framework agreement shall be performed in one of the following ways:—

- (a) following the terms and conditions of the framework agreement, without reopening competition, where it sets out—
 - (i) all the terms governing the provision of the works, services and supplies concerned, and
 - (ii) the objective conditions for determining which of the economic operators that are party to the framework agreement shall perform them, which conditions shall be indicated in the procurement documents for the framework agreement;
- (b) where the framework agreement sets out all the terms governing the provision of the works, services and supplies concerned—
 - (i) partly without reopening competition in accordance with sub-paragraph (a), and
 - (ii) partly through reopening competition amongst the economic operators which are party to the framework agreement,

where this possibility has been stipulated by the contracting authorities in the procurement documents for the framework agreement;

- (c) where not all the terms governing the provision of the works, services and supplies concerned are laid down in the framework agreement, through reopening competition amongst the economic operators which are party to the framework agreement.
- (9) For the purposes of paragraph (8)(b)—

Electronic auctions

35.—(1) Contracting authorities may use electronic auctions, in which—

- (a) new prices, revised downwards, or
- (b) new values concerning certain elements of tenders,

or both, are presented.

(2) Contracting authorities shall structure the electronic auction as a repetitive electronic process, which occurs after an initial full evaluation of the tenders, enabling them to be ranked using automatic evaluation methods.

When electronic auctions may and may not be used

(3) Public service contracts, and public works contracts, which have as their subject-matter intellectual performances (such as the design of works) which cannot be ranked using automatic evaluation methods, shall not be the subject of electronic auctions.

(4) In open or restricted procedures or competitive procedures with negotiation, contracting authorities may decide that the award of a public contract shall be preceded by an electronic auction when the content of the procurement documents, in particular the technical specifications, can be established with precision.

(5) In procurements where the content of the procurement documents, in particular the technical specifications, can be established with precision, an electronic auction may be held—

- (a) on the reopening of competition among the parties to a framework agreement as provided for in regulation 33(8)(b) or (c), and
- (b) on the opening for competition of contracts to be awarded under a dynamic purchasing system.

(6) The electronic auction shall be based on one of the following elements of the tenders:—

- (a) solely on prices where the contract is awarded on the basis of price only;

- (b) on prices or on the new values of the features of the tenders indicated in the procurement documents, or on both, where the contract is awarded—
 - (i) on the basis of the best price-quality ratio, or
 - (ii) to the tender with the lowest cost using a cost-effectiveness approach.

Preliminary requirements

(7) Contracting authorities which decide to hold an electronic auction shall state that fact in the contract notice ^{F142}....

(8) Where contracting authorities have decided to hold an electronic auction, the procurement documents shall include at least the following details:—

- (a) the features, the values for which will be the subject of electronic auction, provided that such features are quantifiable and can be expressed in figures or percentages;
- (b) any limits on the values which may be submitted, as they result from the specifications relating to the subject-matter of the contract;
- (c) the information which will be made available to tenderers in the course of the electronic auction and, where appropriate, when it will be made available to them;
- (d) the relevant information concerning the electronic auction process;
- (e) the conditions under which the tenderers will be able to bid and, in particular, the minimum differences which will, where appropriate, be required when bidding;
- (f) the relevant information concerning the electronic equipment used and the arrangements and technical specifications for connection.

Admissibility of tenders

(9) Before proceeding with an electronic auction, contracting authorities shall make a full initial evaluation of the tenders in accordance with the award criteria and with the weighting fixed for them.

(10) A tender shall be considered admissible where—

- (a) it has been submitted by a tenderer which has not been excluded under regulation 57 and which meets the selection criteria; and
- (b) it is in conformity with the technical specifications without being irregular, unacceptable or unsuitable.

(11) In particular, tenders—

- (a) which do not comply with the procurement documents,
- (b) which were received late,
- (c) where there is evidence of collusion or corruption, or
- (d) which have been found by the contracting authority to be abnormally low,

shall be considered irregular for the purposes of paragraph (10)(b).

(12) In particular—

- (a) tenders submitted by tenderers which do not have the required qualifications, and
- (b) tenders whose price exceeds the contracting authority's budget as determined and documented prior to the launching of the procurement procedure,

shall be considered unacceptable for the purposes of paragraph (10)(b).

^{F143}(13) For the purposes of paragraph (10)(b), a tender shall be considered not to be suitable where it is irrelevant to the contract, being manifestly incapable, without substantial changes,

Status: Point in time view as at 01/03/2024.

Changes to legislation: The Public Contracts Regulations 2015 is up to date with all changes known to be in force on or before 11 May 2024. of meeting the contracting authority's needs and requirements as specified in the procurement documents.]

Commencement and structure of the auction

(14) All tenderers that have submitted admissible tenders shall be invited simultaneously to participate in the electronic auction using, as of the date and time specified in the invitation, the connections in accordance with the instructions set out in the invitation.

(15) The electronic auction may take place in a number of successive phases.

(16) The electronic auction shall not start sooner than 2 working days after the date on which invitations are sent out.

(17) The invitation shall be accompanied by the outcome of a full evaluation of the relevant tender, carried out in accordance with the weighting provided for in regulation 67(9).

The formula to be used

(18) The invitation shall also state the mathematical formula to be used in the electronic auction to determine the automatic re-rankings on the basis of the new prices or new values submitted, or both.

(19) Except where the most economically advantageous offer is identified on the basis of price alone, that formula shall incorporate the weighting of all the criteria established to determine the most economically advantageous tender, as indicated in the notice used as a means of calling for competition or in other procurement documents.

(20) For the purposes of paragraph (19), any ranges of weightings shall be reduced beforehand to a specified value.

(21) Where variants are authorised in accordance with regulation 45, a separate formula shall be provided for each variant.

Communication of information

(22) Throughout each phase of an electronic auction the contracting authorities shall instantaneously communicate to all tenderers at least sufficient information to enable them to ascertain their relative rankings at any moment.

(23) Contracting authorities may, where this has been previously indicated, communicate other information concerning other prices or values submitted.

(24) Contracting authorities may also at any time announce the number of participants in the current phase of the auction.

(25) In no case, however, may contracting authorities disclose the identities of the tenderers during any phase of an electronic auction.

Closing the auction and awarding the contract

(26) Contracting authorities shall close an electronic auction in one or more of the following manners:—

- (a) at the previously indicated date and time;
- (b) when they receive no more new prices or new values which meet the requirements concerning minimum differences, provided that they have previously stated the time which they will allow to elapse after receiving the last submission before they close the electronic auction; or
- (c) when the previously indicated number of phases in the auction has been completed.

(27) Where contracting authorities intend to close an electronic auction in accordance with paragraph (26)(c), whether or not in combination with paragraph (26)(b), the invitation to take part in the auction shall indicate the timetable for each phase of the auction.

(28) After closing an electronic auction, contracting authorities shall award the contract in accordance with regulation 67 on the basis of the results of the electronic auction.

SECTION 5

Conduct of the Procedure

SUB-SECTION 5 Preparation

Preliminary market consultations

40.—(1) Before commencing a procurement procedure, contracting authorities may conduct market consultations with a view to preparing the procurement and informing economic operators of their procurement plans and requirements.

(2) For this purpose, contracting authorities may, for example, seek or accept advice from independent experts or authorities or from market participants.

(3) Such advice may be used in the planning and conduct of the procurement procedure, provided that it does not have the effect of distorting competition and does not result in a violation of the principles of non-discrimination and transparency.

Prior involvement of candidates or tenderers

41.—(1) Where a candidate or tenderer, or an undertaking related to a candidate or tenderer—

- (a) has advised the contracting authority, whether in the context of regulation 40 or not, or
- (b) has otherwise been involved in the preparation of the procurement procedure,

the contracting authority shall take appropriate measures to ensure that competition is not distorted by the participation of that candidate or tenderer.

(2) Such measures shall include—

- (a) the communication to the other candidates and tenderers of relevant information exchanged in the context of or resulting from the involvement of the candidate or tenderer in the preparation of the procurement procedure; and
- (b) the fixing of adequate time limits for the receipt of tenders.

(3) The candidate or tenderer concerned shall only be excluded from the procedure where there are no other means to ensure compliance with the duty to treat economic operators equally in accordance with regulation 18(1).

(5) The measures taken under this regulation shall be documented in the report referred to in regulation 84(1).

Technical specifications

Scope of the technical specifications

(2) The technical specifications shall lay down the characteristics required of works, services or supplies.

(6) In the case of any public contract, the required characteristics may also refer to—

- (a) the specific process or method of production or provision of the requested works, supplies or services, or
- (b) a specific process for another stage of its life cycle,

even where such factors do not form part of the characteristics' material substance provided that they are linked to the subject-matter of the contract and proportionate to its value and its objectives.

(7) The technical specifications may also specify whether the transfer of intellectual property rights will be required.

Formulating the technical specifications

(8) For all procurement which is intended for use by natural persons, whether the general public or staff of the contracting authority, the technical specifications shall, except in duly justified cases, be drawn up so as to take into account accessibility criteria for disabled persons or design for all users.

(9) Where mandatory accessibility requirements are [^{F146}imposed by [^{F147}assimilated law]], technical specifications shall, as far as accessibility criteria for disabled persons or design for all users are concerned, be defined by reference thereto.

(10) Technical specifications shall afford equal access of economic operators to the procurement procedure and shall not have the effect of creating unjustified obstacles to the opening up of public procurement to competition.

(11) Without prejudice to mandatory national technical rules, to the extent that they are compatible with [^{F148}assimilated law], the technical specifications shall be formulated in one of the following ways:—

- (a) in terms of performance or functional requirements, including environmental characteristics, provided that the parameters are sufficiently precise to allow tenderers to determine the subject-matter of the contract and to allow contracting authorities to award the contract;

Status: Point in time view as at 01/03/2024.

Changes to legislation: The Public Contracts Regulations 2015 is up to date with all changes known to be in force on or before 11 May 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (b) by reference to technical specifications and, in order of preference, to—
- (i) national standards transposing European standards,
 - (ii) European Technical Assessments,
 - (iii) common technical specifications,
 - (iv) international standards,
 - (v) other technical reference systems established by the European standardisation bodies, or
 - (vi) when none of the above exist, national standards, national technical approvals or national technical specifications relating to the design, calculation and execution of the works and use of the supplies,
- but each reference shall be accompanied by the words ‘or equivalent’;
- (c) in terms of performance or functional requirements as referred to in sub-paragraph (a), with reference to the technical specifications referred to in sub-paragraph (b) as a means of presuming conformity with such performance or functional requirements;
- (d) by reference to the technical specifications referred to in sub-paragraph (b) for certain characteristics, and by reference to the performance or functional requirements referred to in sub-paragraph (a) for other characteristics.

(12) Unless justified by the subject-matter of the contract, technical specifications shall not refer to a specific make or source, or a particular process which characterises the products or services provided by a specific economic operator, or to trade marks, patents, types or a specific origin or production with the effect of favouring or eliminating certain undertakings or certain products.

(13) But such reference is permitted on an exceptional basis, where a sufficiently precise and intelligible description of the subject-matter of the contract in accordance with paragraph (11) is not possible, in which case the reference shall be accompanied by the words “or equivalent”.

Applying the technical specifications

(14) Where a contracting authority uses the option of referring to the technical specifications referred to in paragraph (11)(b), it shall not reject a tender on the grounds that the works, supplies or services tendered for do not comply with the technical specifications to which it has referred, once the tenderer proves in its tender by any appropriate means, including the means of proof referred to in regulation 44, that the solutions proposed satisfy in an equivalent manner the requirements defined by the technical specifications.

(15) Where a contracting authority uses the option laid down in paragraph (11)(a) to formulate technical specifications in terms of performance or functional requirements, it shall not reject a tender for works, supplies or services which comply with a national standard transposing a European standard, a European technical approval, a common technical specification, an international standard or a technical reference system established by a European standardisation body, where those address the performance or functional requirements which it has laid down.

(16) In its tender, the tenderer shall prove by any appropriate means, including those referred to in regulation 44, that the work, supply or service in compliance with the standard meets the performance or functional requirements of the contracting authority.

Labels

43.—(1) Where contracting authorities intend to purchase works, supplies or services with specific environmental, social or other characteristics they may, in the technical specifications, the award criteria or the contract performance conditions, require a specific label as means of proof that the works, services or supplies correspond to the required characteristics, provided that all of the following conditions are fulfilled:—

- (a) the label requirements only concern criteria which are linked to the subject-matter of the contract and are appropriate to define characteristics of the works, supplies or services that are the subject-matter of the contract;
- (b) the label requirements are based on objectively verifiable and non-discriminatory criteria;
- (c) the labels are established in an open and transparent procedure in which all relevant stakeholders, including government bodies, consumers, social partners, manufacturers, distributors and non-governmental organisations, may participate;
- (d) the labels are accessible to all interested parties;
- (e) the label requirements are set by a third party over which the economic operator applying for the label cannot exercise a decisive influence.

(2) Where contracting authorities do not require the works, supplies or services to meet all of the label requirements, they shall indicate which label requirements are required.

(3) Contracting authorities requiring a specific label shall accept all labels that confirm that the works, supplies or services meet equivalent label requirements.

(4) Where an economic operator had demonstrably no possibility of obtaining the specific label indicated by the contracting authority, or an equivalent label, within the relevant time limits for reasons that are not attributable to that economic operator, the contracting authority shall accept other appropriate means of proof, which may include a technical dossier from the manufacturer, provided that the economic operator concerned proves that the works, supplies or services to be provided by it fulfil the requirements of the specific label or the specific requirements indicated by the contracting authority.

(5) Where a label fulfils the conditions mentioned in paragraph (1)(b), (c), (d) and (e) but also sets out requirements not linked to the subject-matter of the contract, contracting authorities shall not require the label as such but may define the technical specification by reference to those of the detailed specifications of that label, or, where necessary, parts of it, that are linked to the subject-matter of the contract and are appropriate to define characteristics of that subject-matter.

Test reports, certificates and other means of proof

44.—(1) Contracting authorities may require that economic operators provide a test report from a conformity assessment body or a certificate issued by such a body as means of proof of conformity with requirements or criteria set out in the technical specifications, the award criteria or the contract performance conditions.

(2) Where contracting authorities require the submission of certificates drawn up by a specific conformity assessment body, certificates from equivalent other conformity assessment bodies shall also be accepted by the contracting authorities.

(3) In paragraphs (1) and (2), “conformity assessment body” means a body that performs conformity assessment activities including calibration, testing, certification and inspection

(4) Contracting authorities shall accept appropriate means of proof other than those referred to in paragraphs (1) and (2), such as a technical dossier of the manufacturer, where the economic operator concerned had no access to the certificates or test reports referred to in paragraphs (1) and (2), or no possibility of obtaining them within the relevant time limits, provided that—

- (a) the lack of access is not attributable to the economic operator concerned, and
- (b) the economic operator concerned thereby proves that the works, supplies or services provided by it meet the requirements or criteria set out in the technical specifications, the award criteria or the contract performance conditions.

Variants

45.—(1) Contracting authorities may authorise or require tenderers to submit variants.

(2) Contracting authorities shall indicate, in the contract notice ^{F149} ..., whether or not they authorise or require variants.

(3) Variants shall not be authorised or required without such an indication and shall be linked to the subject-matter of the contract.

(4) Contracting authorities authorising or requiring variants shall state in the procurement documents the minimum requirements to be met by the variants and any specific requirements for their presentation, in particular whether variants may be submitted only where a tender which is not a variant has also been submitted.

(5) Contracting authorities shall ensure that the chosen award criteria can be applied to variants meeting those minimum requirements as well as to conforming tenders which are not variants.

(6) Only variants meeting the minimum requirements laid down by the contracting authorities shall be taken into consideration.

(7) In procedures for awarding public supply or service contracts, contracting authorities that have authorised or required variants shall not reject a variant on the sole ground that it would, where successful, lead to either a public service contract rather than a public supply contract or a public supply contract rather than a public service contract.

Division of contracts into lots

46.—(1) Contracting authorities may decide to award a contract in the form of separate lots and may determine the size and subject-matter of such lots.

(2) Contracting authorities shall provide an indication of the main reasons for their decision not to subdivide into lots, which shall be included in the procurement documents or the report referred to in regulation 84(1).

(3) Contracting authorities shall indicate, in the contract notice ^{F150}..., whether tenders may be submitted for one, for several or for all of the lots.

(5) Contracting authorities shall indicate in the procurement documents the objective and non-discriminatory criteria or rules they intend to apply for determining which lots will be awarded where the application of the award criteria would result in one tenderer being awarded more lots than the maximum number.

(6) Where more than one lot may be awarded to the same tenderer, contracting authorities may award contracts combining several or all lots where they have specified in the contract notice ^{F152}... that they reserve the possibility of doing so and indicate the lots or groups of lots that may be combined.

Setting time limits

47.—(1) When fixing the time limits for the receipt of tenders and requests to participate, contracting authorities shall take account of the complexity of the contract and the time required for drawing up tenders, without prejudice to the minimum time limits set out in regulations 27 to 31.

(3) Contracting authorities shall extend the time limits for the receipt of tenders so that all economic operators concerned may be aware of all the information needed to produce tenders in the following cases:—

- (a) where, for whatever reason, additional information, although requested by the economic operator in good time, is not supplied at the latest 6 days before the time limit fixed for the receipt of tenders;

- (a) where only minor amounts of taxes or social security contributions are unpaid; or
 - (b) where the economic operator was informed of the exact amount due following its breach of its obligations relating to the payment of taxes or social security contributions at such time that it did not have the possibility of fulfilling its obligations in a manner described in paragraph (5) before expiration of the deadline for requesting participation or, in open procedures, the deadline for submitting its tender.

Discretionary exclusions

(8) Contracting authorities may exclude from participation in a procurement procedure any economic operator in any of the following situations:—

- (a) where the contracting authority can demonstrate by any appropriate means a violation of applicable obligations referred to in regulation 56(2);
- (b) where the economic operator is bankrupt or is the subject of insolvency or winding-up proceedings, where its assets are being administered by a liquidator or by the court, where it is in an arrangement with creditors, where its business activities are suspended or it is in any analogous situation arising from a similar procedure under the laws and regulations of any State;

- (d) where the contracting authority has sufficiently plausible indications to conclude that the economic operator has entered into agreements with other economic operators aimed at distorting competition;
- (e) where a conflict of interest within the meaning of regulation 24 cannot be effectively remedied by other, less intrusive, measures;
- (f) where a distortion of competition from the prior involvement of the economic operator in the preparation of the procurement procedure, as referred to in regulation 41, cannot be remedied by other, less intrusive, measures;
- (g) where the economic operator has shown significant or persistent deficiencies in the performance of a substantive requirement under a prior public contract, a prior contract with a contracting entity, or a prior concession contract, which led to early termination of that prior contract, damages or other comparable sanctions;
- (h) where the economic operator—
 - (i) has been guilty of serious misrepresentation in supplying the information required for the verification of the absence of grounds for exclusion or the fulfilment of the selection criteria; or
 - (ii) has withheld such information or is not able to submit supporting documents required under regulation 59; or
- (i) where the economic operator has—
 - (i) undertaken to—
 - (aa) unduly influence the decision-making process of the contracting authority, or
 - (bb) obtain confidential information that may confer upon it undue advantages in the procurement procedure; or
 - (ii) negligently provided misleading information that may have a material influence on decisions concerning exclusion, selection or award.

Exclusion during procedure

(9) Contracting authorities shall exclude an economic operator where they become aware, at any time during a procurement procedure, that the economic operator is, in view of acts committed or omitted either before or during the procedure, in one of the situations referred to in paragraphs (1) to (3).

or omitted either before or during the procedure, in one of the situations referred to in paragraphs (4) or (8).

Duration of exclusion

(11) In the cases referred to in [^{F213} paragraphs (1) and (2)], the period during which the economic operator shall (subject to paragraphs (6), (7) and (14)) be excluded is 5 years from the date of the conviction.

(12) In the [^{F214} situations referred to in paragraph (8)], the period during which the economic operator may (subject to paragraph (14)) be excluded is 3 years from the date of the relevant event.

Self-cleaning

(13) Any economic operator that is in one of the situations referred to in paragraph (1) or (8) may provide evidence to the effect that measures taken by the economic operator are sufficient to demonstrate its reliability despite the existence of a relevant ground for exclusion.

(14) If the contracting authority considers such evidence to be sufficient, the economic operator concerned shall not be excluded from the procurement procedure.

(15) For that purpose, the economic operator shall prove that it has—

- (a) paid or undertaken to pay compensation in respect of any damage caused by the criminal offence or misconduct;
- (b) clarified the facts and circumstances in a comprehensive manner by actively collaborating with the investigating authorities; and
- (c) taken concrete technical, organisational and personnel measures that are appropriate to prevent further criminal offences or misconduct.

(16) The measures taken by the economic operator shall be evaluated taking into account the gravity and particular circumstances of the criminal offence or misconduct.

Selection criteria

General principles

General principles

- 58.**—(1) — Selection criteria may relate to—
- (a) suitability to pursue a professional activity;
 - (b) economic and financial standing;
 - (c) technical and professional ability.

Status: Point in time view as at 01/03/2024.

Changes to legislation: The Public Contracts Regulations 2015 is up to date with all changes known to be in force on or before 11 May 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

(2) Contracting authorities may impose on economic operators as requirements for participation only the criteria referred to in paragraphs (5) to (18).

(3) Contracting authorities shall limit any requirements to those that are appropriate to ensure that a candidate or tenderer has the legal and financial capacities and the technical and professional abilities to perform the contract to be awarded.

(4) All requirements shall be related and proportionate to the subject-matter of the contract.

^{F215}(5)

(6) In procurement procedures for services, in so far as economic operators have to possess a particular authorisation or to be members of a particular organisation in order to be able to perform in their country of origin the service concerned, contracting authorities may require them to prove that they hold such authorisation or membership.

Economic and financial standing

(7) With regard to economic and financial standing, contracting authorities may impose requirements ensuring that economic operators possess the necessary economic and financial capacity to perform the contract.

(8) In particular, contracting authorities may require that economic operators—

- (a) have a certain minimum yearly turnover, including a certain minimum turnover in the area covered by the contract;
- (b) provide information on their annual accounts showing the ratios, for example, between assets and liabilities; and
- (c) have an appropriate level of professional risk indemnity insurance.

(9) The minimum yearly turnover that economic operators are required to have shall not exceed twice the estimated contract value, except in duly justified cases, such as by reference to special risks attached to the nature of the works, services or supplies, in which case the contracting authority shall indicate their main reasons in the procurement documents or in the report referred to in regulation 84(1).

(10) Ratios, for example that between assets and liabilities, may be taken into consideration where the contracting authority specifies the methods and criteria for such consideration in the procurement documents, but such methods and criteria shall be transparent, objective and non-discriminatory.

Application to lots, framework agreements and dynamic purchasing systems

(11) Where a contract is divided into lots this regulation shall apply in relation to each individual lot.

(12) But the contracting authority may set the minimum yearly turnover that economic operators are required to have by reference to groups of lots in the event that the successful tenderer is awarded several lots to be executed at the same time.

(13) Where contracts based on a framework agreement are to be awarded following a reopening of competition, the maximum yearly turnover requirement referred to in paragraph (9) shall be calculated on the basis of the expected maximum size of specific contracts that will be performed at the same time, or, where it is not known, on the basis of the estimated value of the framework agreement.

(14) In the case of a dynamic purchasing system, the maximum yearly turnover requirement referred to in paragraph (9) shall be calculated on the basis of the expected maximum size of specific contracts to be awarded under that system.

Technical and professional ability

Changes to legislation: The Public Contracts Regulations 2015 is up to date with all changes known to be in force on or before 11 May 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

(15) With regard to technical and professional ability, contracting authorities may impose requirements ensuring that economic operators possess the necessary human and technical resources and experience to perform the contract to an appropriate quality standard.

(16) Contracting authorities may require, in particular, that economic operators have a sufficient level of experience demonstrated by suitable references from contracts performed in the past.

(17) A contracting authority may assume that an economic operator does not possess the required professional abilities where the contracting authority has established that the economic operator has conflicting interests which may negatively affect the performance of the contract.

(18) In procurement procedures for supplies requiring siting or installation work, or for services or works, the professional ability of economic operators to provide the service or to execute the installation or the work may be evaluated with regard to their skills, efficiency, experience and reliability.

Indicating requirements for participation

(19) Contracting authorities shall indicate the requirements for participation, which may be expressed as minimum levels of ability, together with the appropriate means of proof, in the contract notice ^{F216}

Reliance on the capacities of other entities

63.—(1) With regard to—

- (a) criteria relating to economic and financial standing as set out under regulation 58(7) to (14), and
- (b) criteria relating to technical and professional ability as set out under regulation 58(15) to (18),

an economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them, subject to the following provisions of this regulation.

(2) With regard to criteria relating to the educational and professional qualifications mentioned in regulation 60(9)(f), or to relevant professional experience, economic operators may however only rely on the capacities of other entities where those entities will perform the works or services for which these capacities are required.

(3) Where an economic operator wants to rely on the capacities of other entities, it shall prove to the contracting authority that it will have at its disposal the resources necessary, for example by producing a commitment by those entities to that effect.

(4) The contracting authority shall, in accordance with regulations 59 to 61, verify whether the entities on whose capacity the economic operator intends to rely fulfil the relevant selection criteria and whether there are grounds for exclusion under regulation 57, and—

- (a) the contracting authority shall require that the economic operator replaces an entity which does not meet a relevant selection criterion, or in respect of which there are compulsory grounds for exclusion; and
- (b) the contracting authority may require that the economic operator substitutes an entity in respect of which there are non-compulsory grounds for exclusion.

(5) Where an economic operator relies on the capacities of other entities with regard to criteria relating to economic and financial standing, the contracting authority may require that the economic operator and those entities be jointly liable for the execution of the contract.

(6) A group of economic operators within the meaning of regulation 19(3) may rely on the capacities of participants in the group or of other entities, and paragraphs (1) to (5) apply in relation to such a group in the same way that they apply in relation to an economic operator.

(7) In the case of works contracts, service contracts and siting or installation operations in the context of a supply contract, contracting authorities may require that certain critical tasks be performed directly by the tenderer itself or, where the tender is submitted by a group of economic operators within the meaning of regulation 19(3), by a participant in that group.

Reduction of the number of tenders and solutions

66.—(1) Where contracting authorities exercise the option of reducing the number of tenders to be negotiated in accordance with regulation 29(19) and (20) or of solutions to be discussed in accordance with regulation 30(12) and (13), they shall do so by applying the award criteria stated in the procurement documents.

(2) In the final stage, the number arrived at shall make for genuine competition in so far as there are enough tenders, solutions or qualified candidates.

Contract award criteria

67.—(1) Contracting authorities shall base the award of public contracts on the most economically advantageous tender assessed from the point of view of the contracting authority.

(2) That tender shall be identified on the basis of the price or cost, using a cost-effectiveness approach, such as life-cycle costing in accordance with regulation 68, and may include the best price-quality ratio, which shall be assessed on the basis of criteria, such as qualitative, environmental and/or social aspects, linked to the subject-matter of the public contract in question.

(3) Such criteria may comprise, for example—

- (a) quality, including technical merit, aesthetic and functional characteristics, accessibility, design for all users, social, environmental and innovative characteristics and trading and its conditions;
- (b) organisation, qualification and experience of staff assigned to performing the contract, where the quality of the staff assigned can have a significant impact on the level of performance of the contract; or
- (c) after-sales service and technical assistance, delivery conditions such as delivery date, delivery process and delivery period or period of completion.

(4) The cost element may also take the form of a fixed price or cost on the basis of which economic operators will compete on quality criteria only.

(5) Award criteria shall be considered to be linked to the subject-matter of the public contract where they relate to the works, supplies or services to be provided under that contract in any respect and at any stage of their life cycle, including factors involved in—

- (a) the specific process of production, provision or trading of those works, supplies or services, or
- (b) a specific process for another stage of their life cycle,

even where those factors do not form part of their material substance.

(6) Award criteria shall not have the effect of conferring an unrestricted freedom of choice on the contracting authority.

(7) Award criteria shall—

- (a) ensure the possibility of effective competition; and
- (b) be accompanied by specifications that allow the information provided by the tenderers to be effectively verified in order to assess how well the tenders meet the award criteria.

(8) In case of doubt, contracting authorities shall verify effectively the accuracy of the information and proof provided by the tenderers.

Weighting

(9) The contracting authority shall specify, in the procurement documents, the relative weighting which it gives to each of the criteria chosen to determine the most economically advantageous tender, except where this is identified on the basis of price alone.

Status: Point in time view as at 01/03/2024.

Changes to legislation: The Public Contracts Regulations 2015 is up to date with all changes known to be in force on or before 11 May 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

(10) Those weightings may be expressed by providing for a range with an appropriate maximum spread.

(11) Where weighting is not possible for objective reasons, the contracting authority shall indicate the criteria in decreasing order of importance.

Life-cycle costing

68.—(1) Life-cycle costing shall, to the extent relevant, cover part or all of the following costs over the life cycle of a product, service or works:—

- (a) costs, borne by the contracting authority or other users, such as—
 - (i) costs relating to acquisition,
 - (ii) costs of use, such as consumption of energy and other resources,
 - (iii) maintenance costs,
 - (iv) end of life costs, such as collection and recycling costs;
- (b) costs imputed to environmental externalities linked to the product, service or works during its life cycle, provided their monetary value can be determined and verified.

(2) The costs mentioned in paragraph (1)(b) may include the cost of emissions of greenhouse gases and of other pollutant emissions and other climate change mitigation costs.

(3) The method used for the assessment of costs imputed to environmental externalities shall fulfil all of the following conditions:—

- (a) it is based on objectively verifiable and non-discriminatory criteria and, in particular, where it has not been established for repeated or continuous application, it shall not unduly favour or disadvantage certain economic operators;
- (b) it is accessible to all interested parties;
- (c) the data required can be provided with reasonable effort by normally diligent economic operators ^{F234}

(4) Where contracting authorities assess costs using a life-cycle costing approach, they shall indicate in the procurement documents—

- (a) the data to be provided by the tenderers, and
- (b) the method which the contracting authority will use to determine the life-cycle costs on the basis of those data.

CHAPTER 4A

REGULATIONS UNDER THIS PART

Textual Amendments

- F266** Pt. 2 Ch. 4A inserted (31.12.2020) by [The Public Procurement \(Amendment etc.\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1319\)](#), regs. 1(2), **6(56)** (with Sch. paras. 3-5)

General provisions about regulations under this Part

84A.—(1) Regulations under this Part are to be made by statutory instrument.

(2) A statutory instrument containing regulations under regulation 3(5) (whether alone or with other provision) may not be made unless a draft of the instrument has been laid before and approved by a resolution of each House of Parliament.

(3) Any other statutory instrument containing regulations under this Part is subject to annulment in pursuance of a resolution of either House of Parliament.

(4) Subject to paragraph (5), Regulations may not be made under regulations 22A or 56 without the consent of the Welsh Ministers and a Northern Ireland Department.

(5) Regulations (“the amending regulations”) may be made under regulation 22A or 56 without such consent, but in such cases the amending regulations must amend regulation 22 or, as the case may be, make provision under regulation 56, in such a way as to avoid altering the effect of that regulation in so far as it applies to—

- (a) devolved Welsh authorities, where the Welsh Ministers have not consented to the making of the amending regulations;
- (b) devolved Northern Ireland authorities, where no Northern Ireland Department has consented to the making of the amending regulations.

(6) Without prejudice to paragraph (7), to the extent that the amending regulations are being made under regulation 22A, the duty imposed by paragraph (5) may be complied with by—

- (a) restructuring regulation 22 (so that, for example, different paragraphs apply to devolved Welsh authorities and other contracting authorities or utilities respectively, where the Welsh Ministers have not consented to the making of the amending regulations); and
- (b) amending the powers conferred by regulation 22A so that they refer to the relevant provisions in regulation 22 as so restructured.

(7) Regulations under this Part may make supplementary, incidental, transitional, transitory or saving provision.]

PART 3

REMEDIES

CHAPTER 5

FACILITATION OF REMEDIES

Scope of Chapter 5

85. This Chapter applies to contracts and framework agreements falling within the scope of Part 2.

Notices of decisions to award a contract or conclude a framework agreement

86.—(1) Subject to paragraphs (5) and (6), a contracting authority shall send to each candidate and tenderer a notice communicating its decision to award the contract or conclude the framework agreement.

Content of notices

- (2) Where it is to be sent to a tenderer, the notice referred to in paragraph (1) shall include—
- (a) the criteria for the award of the contract;
 - (b) the reasons for the decision, including the characteristics and relative advantages of the successful tender, the score (if any) obtained by—
 - (i) the tenderer which is to receive the notice; and
 - (ii) the tenderer—
 - (aa) to be awarded the contract, or
 - (bb) to become a party to the framework agreement,
- and anything required by paragraph (3);
- (c) the name of the tenderer—
 - (i) to be awarded the contract, or
 - (ii) to become a party to the framework agreement; and
 - (d) a precise statement of either—
 - (i) when, in accordance with regulation 87, the standstill period is expected to end and, if relevant, how the timing of its ending might be affected by any and, if so what, contingencies, or
 - (ii) the date before which the contracting authority will not, in conformity with regulation 87 enter into the contract or conclude the framework agreement.

Status: Point in time view as at 01/03/2024.

Changes to legislation: The Public Contracts Regulations 2015 is up to date with all changes known to be in force on or before 11 May 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

- (3) The reasons referred to in paragraph (2)(b) shall include the reason for any decision by the contracting authority that the economic operator did not meet the technical specifications—
- (a) in an equivalent manner as mentioned in regulation 42(14); or
 - (b) because compliance with a standard, approval, specification or system mentioned in regulation 42(15) does not address the performance or functional requirements laid down by the contracting authority.
- (4) Where it is to be sent to a candidate, the notice referred to in paragraph (1) shall include—
- (a) the reasons why the candidate was unsuccessful; and
 - (b) the information mentioned in paragraph (2), but as if the words “and relative advantages” were omitted from sub-paragraph (b).

Exemptions

- (5) A contracting authority need not comply with paragraph (1) in any of the following cases:—
- (a) where the contract or framework agreement is permitted by Part 2 to be awarded or concluded without prior publication of a contract notice;
 - (b) where the only tenderer is the one who is to be awarded the contract or who is to become a party to the framework agreement, and there are no candidates;
 - (c) where the contracting authority awards a contract under a framework agreement or a dynamic purchasing system.
- (6) A contracting authority may withhold any information to be provided in accordance with the preceding requirements of this regulation where the release of such information—
- (a) would impede law enforcement or would otherwise be contrary to the public interest;
 - (b) would prejudice the legitimate commercial interests of a particular economic operator, whether public or private; or
 - (c) might prejudice fair competition between economic operators.

Meaning of “candidate” and “tenderer”

- (7) In this regulation,—
- (a) “candidate” means a candidate, as defined in regulation 2(1), which—
 - (i) is not a tenderer, and
 - (ii) has not been informed of the rejection of its application and the reasons for it;
 - (b) “tenderer” means a tenderer, as defined in regulation 2(1), which has not been definitively excluded.
- (8) For the purposes of paragraph (7)(b), an exclusion is definitive if, and only if, the tenderer has been notified of the exclusion and either—
- (a) the exclusion has been held to be lawful in proceedings under Chapter 6; or
 - (b) the time limit for starting such proceedings has expired even on the assumption that the Court would have granted the maximum extension permitted by regulation 92(4) and (5).

Standstill period

87.—(1) Where regulation 86(1) applies, the contracting authority must not enter into the contract or conclude the framework agreement before the end of the standstill period.

(2) Where the contracting authority sends a regulation 86 notice to all the relevant economic operators by facsimile or electronic means, the standstill period ends at midnight at the end of the 10th day after the relevant sending date.

(3) Where the contracting authority sends a regulation 86 notice to all the relevant economic operators only by other means, the standstill period ends at whichever of the following occurs first:—

- (a) midnight at the end of the 15th day after the relevant sending date;
- (b) midnight at the end of 10th day after the date on which the last of the economic operators to receive such a notice receives it.

(4) In paragraphs (2) and (3), “the relevant sending date” means the date on which the regulation 86 notice is sent to the relevant economic operators, and if the notices are sent to different relevant economic operators on different dates, the relevant sending date is the date on which the last of the notices is sent.

(5) Where the contracting authority sends the regulation 86 notice to one or more of the relevant economic operators by facsimile or electronic means and to the others by other means, the standstill period ends at whichever of the following two times occurs latest:—

- (a) midnight at the end of the 10th day after the date on which the last notice is sent by facsimile or electronic means;
- (b) the time when whichever of the following occurs first:—
 - (i) midnight at the end of the 15th day after the date on which the last notice is sent by other means;
 - (ii) midnight at the end of the 10th day after the date on which the last of the economic operators to receive a notice sent by any such other means receives it.

(6) In this regulation—

“regulation 86 notice” means a notice given in accordance with regulation 86; and

“relevant economic operators” means economic operators to which regulation 86 requires a notice to be sent.

CHAPTER 6

APPLICATIONS TO THE COURT

Interpretation of Chapter 6

88.—(1) In this Chapter—

“claim form” includes, in Northern Ireland, the originating process by which the proceedings are commenced;

“contract”, except in regulation 103, means a public contract or a framework agreement;

“economic operator” has the meanings given by paragraph (2);

“grounds for ineffectiveness” has the meaning given to it by regulation 99;

“proceedings” means court proceedings taken for the purposes of regulation 91; and

“standstill period”, and references to its end, have the same meaning as in regulation 87.

(2) In regulations 89 and 90, “economic operator” has its usual meaning (in accordance with regulation 2(1)), but in the other provisions of [^{F267}this Chapter] “economic operator” has the narrower meaning of an economic operator (as defined by regulation 2(1)) to which a duty is owed in accordance with regulation 89 or 90

Enforcement of duties through the Court

91.—(1) A breach of the duty owed in accordance with regulation 89 or 90 is actionable by any economic operator which, in consequence, suffers, or risks suffering, loss or damage.

(2) Proceedings for that purpose must be started in the High Court, and regulations 92 to 104 apply to such proceedings.

General time limits for starting proceedings

92.—(1) This regulation limits the time within which proceedings may be started where the proceedings do not seek a declaration of ineffectiveness.

(2) Subject to paragraphs (3) to (5), such proceedings must be started within 30 days beginning with the date when the economic operator first knew or ought to have known that grounds for starting the proceedings had arisen.

(3) Paragraph (2) does not require proceedings to be started before the end of any of the following periods:—

Special time limits for seeking a declaration of ineffectiveness

- 93.**—(1) This regulation limits the time within which proceedings may be started where the proceedings seek a declaration of ineffectiveness.

Starting proceedings

94.—(1) Where proceedings are started, the economic operator must serve the claim form on the contracting authority within 7 days after the date of issue.

(2) Paragraph (3) applies where proceedings are started—

- (a) seeking a declaration of ineffectiveness; or
- (b) alleging a breach of regulation 87, 95 or 96(1)(b) where the contract has not been fully performed.

(3) In those circumstances, the economic operator must, as soon as practicable, send a copy of the claim form to each person, other than the contracting authority, who is a party to the contract in question.

(4) The contracting authority must, as soon as practicable, comply with any request from the economic operator for any information that the economic operator may reasonably require for the purpose of complying with paragraph (3).

(5) In this regulation, “serve” means serve in accordance with rules of court, and for the purposes of this regulation a claim form is deemed to be served on the day on which it is deemed by rules of court to be served.

Contract-making suspended by challenge to award decision

95.—(1) Where—

- (a) a claim form has been issued in respect of a contracting authority's decision to award the contract,
- (b) the contracting authority has become aware that the claim form has been issued and that it relates to that decision, and
- (c) the contract has not been entered into,

the contracting authority is required to refrain from entering into the contract.

(2) The requirement continues until any of the following occurs—

- (a) the Court brings the requirement to an end by interim order under regulation 96(1)(a);
- (b) the proceedings at first instance are determined, discontinued or otherwise disposed of and no order has been made continuing the requirement (for example in connection with an appeal or the possibility of an appeal).

(3) This regulation does not affect the obligations imposed by regulation 87.

- (ii) the determination of the design contest, in relation to which the breach of the duty owed in accordance with regulation 89 or 90 is alleged;
- (d) suspending the implementation of any decision or action taken by the contracting authority in the course of following such a procedure.
- (2) When deciding whether to make an order under paragraph (1)(a)—
 - (a) the Court must consider whether, if regulation 95(1) were not applicable, it would be appropriate to make an interim order requiring the contracting authority to refrain from entering into the contract; and
 - (b) only if the Court considers that it would not be appropriate to make such an interim order may it make an order under paragraph (1)(a).
- (3) If the Court considers that it would not be appropriate to make an interim order of the kind mentioned in paragraph (2)(a) in the absence of undertakings or conditions, it may require or impose such undertakings or conditions in relation to the requirement in regulation 95(1).
- (4) The Court may not make an order under paragraph (1)(a) or (b) or (3) before the end of the standstill period.

- (a) the Court is satisfied that a decision or action taken by a contracting authority was in breach of the duty owed in accordance with regulation 89 or 90; and
 - (b) the contract has already been entered into.
- (2) In those circumstances, the Court—
- (a) must, if it is satisfied that any of the grounds for ineffectiveness applies, make a declaration of ineffectiveness in respect of the contract unless regulation 100 requires the Court not to do so;
 - (b) must, where required by regulation 102, impose penalties in accordance with that regulation;
 - (c) may award damages to an economic operator which has suffered loss or damage as a consequence of the breach, regardless of whether the Court also acts as described in subparagraphs (a) and (b);

(d) must not order any other remedies.

(3) Paragraph (2)(d) is subject to regulation 103(3) and (9) (additional relief in respect of specific contracts where a framework agreement is ineffective) and does not prejudice any power of the Court under regulation 101(3) or 102(12) (orders which supplement a declaration of ineffectiveness or a contract-shortening order).

Grounds for ineffectiveness

99.—(1) There are three grounds for ineffectiveness.

The first ground

(2) Subject to paragraph (3), the first ground applies where the contract has been awarded without prior publication of a contract notice in any case in which Part 2 required the prior publication of a contract notice.

(3) The first ground does not apply if all the following apply:—

- (a) the contracting authority considered the award of the contract without prior publication of a contract notice to be permitted by Part 2;
- (b) the contracting authority has had published [^{F278}on the UK e-notification service] a voluntary transparency notice expressing its intention to enter into the contract; and
- (c) the contract has not been entered into before the end of a period of at least 10 days beginning with the day after the date on which the voluntary transparency notice was published [^{F279}on the UK e-notification service].

(4) In paragraph (3), “voluntary transparency notice” means a notice which ^{F280}... contains the following information—

- (a) the name and contact details of the contracting authority;
- (b) a description of the object of the contract;
- (c) a justification of the decision of the contracting authority to award the contract without prior publication of a contract notice;
- (d) the name and contact details of the economic operator to be awarded the contract; and
- (e) where appropriate, any other information which the contracting authority considers it useful to include.

The second ground

(5) The second ground applies where all the following apply—

- (a) the contract has been entered into in breach of any requirement imposed by—
 - (i) regulation 87 (the standstill period),
 - (ii) regulation 95 (contract-making suspended by challenge to award), or
 - (iii) regulation 96(1)(b) (interim order restoring or modifying a suspension originally imposed by regulation 95);
- (b) there has also been a breach of the duty owed to the economic operator in accordance with regulation 89 or 90 in respect of obligations other than those imposed by regulation 87 (the standstill period) and this Chapter;
- (c) the breach mentioned in sub-paragraph (a) has deprived the economic operator of the possibility of starting proceedings in respect of the breach mentioned in sub-paragraph (b), or pursuing them to a proper conclusion, before the contract was entered into; and
- (d) the breach mentioned in sub-paragraph (b) has affected the chances of the economic operator obtaining the contract.

Status: Point in time view as at 01/03/2024.

Changes to legislation: The Public Contracts Regulations 2015 is up to date with all changes known to be in force on or before 11 May 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

The third ground

- (6) Subject to paragraph (7), the third ground applies where all the following apply—
- (a) the contract is based on a framework agreement or was awarded under a dynamic purchasing system;
 - (b) the contract was awarded in breach of any requirement imposed by—
 - (i) regulation 33(11) (award of contracts based on framework agreements through re-opening of competition), or
 - (ii) regulation 34(21) to (24) (award of contracts under dynamic purchasing systems); and
 - (c) the estimated value of the contract is equal to or greater than the relevant threshold mentioned in regulation 5.
- (7) The third ground does not apply if all the following apply—
- (a) the contracting authority considered the award of the contract to be in accordance with the provisions mentioned in paragraph (6)(b)(i) or (ii);
 - (b) the contracting authority has, despite regulation 86(5)(c), voluntarily complied with the requirements set out in regulation 86(1) to (4); and
 - (c) the contract has not been entered into before the end of the standstill period.

- (a) the contracting authority or another party to the proceedings raises an issue under this regulation; and
- (b) the Court is satisfied that overriding reasons relating to a general interest require that the effects of the contract should be maintained.

(2) For that purpose, economic interests in the effectiveness of the contract may be considered as overriding reasons only if in exceptional circumstances ineffectiveness would lead to disproportionate consequences.

(3) However, economic interests directly linked to the contract cannot constitute overriding reasons relating to a general interest.

- (4) For that purpose, economic interests directly linked to the contract include—
- (a) the costs resulting from the delay in the execution of the contract;
 - (b) the costs resulting from the commencement of a new procurement procedure;
 - (c) the costs resulting from change of the economic operator performing the contract; and
 - (d) the costs of legal obligations resulting from the ineffectiveness.

(5) For the purposes of paragraph (1)(b), overriding reasons may be taken to require that the effects of the contract should be maintained even if they do not require the Court to refrain from shortening the duration of the contract by an order under regulation 102(3)(a).

The consequences of ineffectiveness

101.—(1) Where a declaration of ineffectiveness is made, the contract is to be considered to be prospectively, but not retrospectively, ineffective as from the time when the declaration is made and, accordingly, those obligations under the contract which at that time have yet to be performed are not to be performed.

(2) Paragraph (1) does not prevent the exercise of any power under which the orders or decisions of the Court may be stayed, but at the end of any period during which a declaration of ineffectiveness is stayed, the contract is then to be considered to have been ineffective as from the time when the declaration had been made.

(3) When making a declaration of ineffectiveness, or at any time after doing so, the Court may make any order that it thinks appropriate for addressing—

- (a) the implications of paragraph (1) or (2) for the particular circumstances of the case;
- (b) any consequential matters arising from the ineffectiveness.

(4) Such an order may, for example, address issues of restitution and compensation as between those parties to the contract who are parties to the proceedings so as to achieve an outcome which the Court considers to be just in all the circumstances.

(5) Paragraph (6) applies where the parties to the contract have, at any time before the declaration of ineffectiveness is made, agreed by contract any provisions for the purpose of regulating their mutual rights and obligations in the event of such a declaration being made.

(6) In those circumstances, the Court must not exercise its power to make an order under paragraph (3) in any way which is inconsistent with those provisions, unless and to the extent that the Court considers that those provisions are incompatible with the requirement in paragraph (1) or (2).

Penalties in addition to, or instead of, ineffectiveness

102.—(1) Where the Court makes a declaration of ineffectiveness, it must also order that the contracting authority pay a civil financial penalty of the amount specified in the order.

(2) Paragraph (3) applies where—

- (a) in proceedings for a declaration of ineffectiveness, the Court is satisfied that any of the grounds for ineffectiveness applies but does not make a declaration of ineffectiveness because regulation 100 requires it not to do so; or
- (b) in any proceedings, the Court is satisfied that the contract has been entered into in breach of any requirement imposed by regulation 87, 95 or 96(1)(b), and does not make a declaration of ineffectiveness (whether because none was sought or because the Court is not satisfied that any of the grounds for ineffectiveness applies).

(3) In those circumstances, the Court must order at least one, and may order both, of the following penalties:—

- (a) that the duration of the contract be shortened to the extent specified in the order;
- (b) that the contracting authority pay a civil financial penalty of the amount specified in the order.

(4) When the Court is considering what order to make under paragraph (1) or (3), the overriding consideration is that the penalties must be effective, proportionate and dissuasive.

Status: Point in time view as at 01/03/2024.

Changes to legislation: The Public Contracts Regulations 2015 is up to date with all changes known to be in force on or before 11 May 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

(5) In determining the appropriate order, the Court must take account of all the relevant factors, including—

- (a) the seriousness of the relevant breach of the duty owed in accordance with regulation 89 or 90;
- (b) the behaviour of the contracting authority;
- (c) where the order is to be made under paragraph (3), the extent to which the contract remains in force.

(6) Where more than one economic operator starts proceedings in relation to the same contract, paragraph (4) applies to the totality of penalties imposed in respect of the contract.

Civil financial penalties

(7) Subject to paragraph (8), where a contracting authority is ordered by the High Court of England and Wales to pay a civil financial penalty under this regulation—

- (a) the Court's order must state that the penalty is payable to the Minister for the Cabinet Office;
- (b) the Court must send a copy of the order to the Minister;
- (c) the contracting authority must pay the penalty to the Minister; and
- (d) the Minister must, on receipt of the penalty, pay it into the Consolidated Fund.

(8) Where the Minister for the Cabinet Office, or the Cabinet Office, is ordered to pay a civil financial penalty under this Chapter—

- (a) paragraph (7) does not apply; and
- (b) the Minister for the Cabinet Office must pay the penalty into the Consolidated Fund.

(9) Subject to paragraph (10), where a contracting authority is ordered by the High Court of Northern Ireland to pay a civil financial penalty under this regulation—

- (a) the Court's order must state that the penalty is payable to the Department of Finance and Personnel;
- (b) the Court must send a copy of the order to the Department;
- (c) the contracting authority must pay the penalty to the Department; and
- (d) the Department must, when it receives the penalty, pay it into the Consolidated Fund of Northern Ireland.

(10) Where the Department of Finance and Personnel is ordered to pay a civil financial penalty under this Chapter—

- (a) paragraph (9) does not apply; and
- (b) the Department must pay the penalty into the Consolidated Fund of Northern Ireland.

(11) Where a contracting authority is a non-Crown body—

- (a) any payment due under paragraph (7) may be enforced by the Minister for the Cabinet Office as a judgment debt due to the Minister; and
- (b) any payment due under paragraph (9) may be enforced by the Department of Finance and Personnel as a judgment debt due to it.

Contract shortening

(12) When making an order under paragraph (3)(a), or at any time after doing so, the Court may make any order that it thinks appropriate for addressing the consequences of the shortening of the duration of the contract.

(13) Such an order may, for example, address issues of restitution and compensation as between those parties to the contract who are parties to the proceedings so as to achieve an outcome which the Court considers to be just in all the circumstances.

(14) Paragraph (15) applies where the parties to the contract have, at any time before the order under paragraph (3)(a) is made, agreed by contract any provisions for the purpose of regulating their mutual rights and obligations in the event of such an order being made.

(15) In those circumstances, the Court must not exercise its power to make an order under paragraph (12) in any way which is inconsistent with those provisions, unless and to the extent that the Court considers that those provisions are incompatible with the primary order that is being made, or has been made, under paragraph (3)(a).

(16) In paragraph (3)(a), “duration of the contract” refers only to its prospective duration as from the time when the Court makes the order.

Ineffectiveness etc. in relation to specific contracts based on a framework agreement

103.—(1) In this regulation, “specific contract” means a contract which—

- (a) is based on the terms of a framework agreement; and
- (b) was entered into before a declaration of ineffectiveness (if any) was made in respect of the framework agreement.

(2) A specific contract is not to be considered to be ineffective merely because a declaration of ineffectiveness has been made in respect of the framework agreement.

(3) Where a declaration of ineffectiveness has been made in respect of the framework agreement, the Court must, subject to paragraph (5), make a separate declaration of ineffectiveness in respect of each relevant specific contract.

(4) For that purpose, a specific contract is relevant only if a claim for a declaration of ineffectiveness in respect of that specific contract has been made—

- (a) within the time limits mentioned in regulation 93 as applicable to the circumstances of the specific contract;
- (b) regardless of whether the claim was made at the same time as any claim for a declaration of ineffectiveness in respect of the framework agreement.

(5) Regulation 100 (general interest grounds for not making a declaration of ineffectiveness) applies for the purposes of paragraph (3), insofar as the overriding reasons relate specifically to the circumstances of the specific contract.

(6) This regulation does not prejudice the making of a declaration of ineffectiveness in relation to a specific contract in accordance with other provisions of this Part on the basis of—

- (a) the third ground of ineffectiveness set out in regulation 99(6) and (7); or
- (b) the second ground of ineffectiveness set out in regulation 99(5), where—
 - (i) the relevant breach of the kind mentioned in regulation 99(5)(a) is entering into the specific contract in breach of regulation 95 or 96(1)(b), and
 - (ii) the relevant breach of the kind mentioned in regulation 99(5)(b) relates specifically to the award of the specific contract and the procedure relating to that award, rather than to the award of the framework agreement and the procedure relating to it.

(7) A declaration of ineffectiveness must not be made in respect of a specific contract otherwise than in accordance with paragraph (3) or on a basis mentioned in paragraph (6).

(8) Where a declaration of ineffectiveness is made in respect of a specific contract in accordance with paragraph (3)—

- (a) regulation 101 (the consequences of ineffectiveness) applies;

Status: Point in time view as at 01/03/2024.

Changes to legislation: The Public Contracts Regulations 2015 is up to date with all changes known to be in force on or before 11 May 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

(b) regulation 102(1) (requirement to impose a civil financial penalty) does not apply.

(9) Where the Court refrains, by virtue of paragraph (5), from making a declaration of ineffectiveness which would otherwise have been required by paragraph (3), the Court must, subject to paragraph (10), order that the duration of the contract be shortened to the extent specified in the order.

(10) The extent by which the duration of the contract is to be shortened under paragraph (9) is the maximum extent, if any, which the Court considers to be possible having regard to what is required by the overriding reasons mentioned in paragraph (5).

(11) In paragraphs (9) and (10), “duration of the contract” refers only to its prospective duration as from the time when the Court makes the order.

Injunctions against the Crown

104. In proceedings against the Crown, the Court has power to grant an injunction despite section 21 of the Crown Proceedings Act 1947 ^{M35}.

Qualitative selection

107.—(1) Contracting authorities shall have regard to any guidance issued by the Minister for the Cabinet Office in relation to the qualitative selection of economic operators.

(2) In this regulation, “qualitative selection” means the processes by which, in accordance with regulations 57 to 65, contracting authorities—

- (a) select economic operators to participate in procurement procedures; and
 - (b) decide whether to exclude economic operators from such participation.

(2) In those circumstances, the contracting authority shall cause at least the following information to be published on Contracts Finder:—

- (a) the name of the contractor;
- (b) the date on which the contract was entered into;
- (c) the value of the contract.

(3) But the contracting authority may withhold information from publication where its release—

- (a) would impede law enforcement or would otherwise be contrary to the public interest,
- (b) would prejudice the legitimate commercial interests of a particular economic operator, whether public or private, or
- (c) might prejudice fair competition between economic operators.

(4) Contracting authorities shall comply with paragraph (2) within a reasonable time.

(5) But where a contracting authority [^{F290}submits, or intends to submit], a contract award notice to the [^{F291}UK e-notification service] for publication, the contracting authority shall not cause the information to be published on Contracts Finder [^{F292}before the notice is published on the UK e-notification service].

CHAPTER 8

BELOW-THRESHOLD PROCUREMENTS

Scope of Chapter 8

109.—(1) Subject to paragraphs (2) and (5), this Chapter applies to procurements by contracting authorities with respect to public contracts where Part 2 does not apply because the estimated value of the procurement is less than the relevant threshold mentioned in regulation 5.

(2) This Chapter does not apply in any of the following cases:—

- (a) where Part 2 would not have applied even if the estimated value of the procurement had been equal to or greater than the relevant threshold mentioned in regulation 5;
- (b) where the contracting authority is a central government authority and the procurement has a value [^{F296}inclusive] of VAT estimated to be less than [^{F297}£12,000];
- (c) where the contracting authority is—
 - (i) a sub-central contracting authority or an NHS Trust [^{F298}or an NHS Foundation Trust], and
 - (ii) the procurement has a value [^{F299}inclusive] of VAT estimated to be less than [^{F300}£30,000];

^{F301}(d)

(3) For the purposes of paragraph (2)(b) and (c) and regulation 111(2), the estimated value of the procurement shall be calculated on the basis set out in regulation 6(1) to (5), (7) to (10) and (16) to (19), but as if the reference to a call for competition in regulation 6(7) were a reference to the publication of information on Contracts Finder in accordance with regulation 110.

(4) A procurement shall not be subdivided with the effect of preventing it from falling within the scope of this Chapter, unless justified by objective reasons.

(5) Regulations 110 and 112 do not apply where the contracting authority is a maintained school [^{F302}, an Academy or a sixth form college corporation].

Publication of contract opportunities on Contracts Finder

110.—(1) Paragraph (2) applies where a contracting authority advertises a contract award opportunity.

(2) In those circumstances, the contracting authority shall publish information about the opportunity on Contracts Finder, regardless of what other means it uses to advertise the opportunity.

(3) Where a contracting authority is required by paragraph (2) to publish information on Contracts Finder, it shall do so within 24 hours of the time when it first advertises the contract award opportunity in any other way.

(4) A contracting authority may publish on Contracts Finder information about a contract award opportunity even if the contracting authority does not advertise the opportunity in any other way.

(5) For the purposes of this regulation—

- (a) a contracting authority advertises an opportunity if it does anything to put the opportunity in the public domain or bring the opportunity to the attention of economic operators generally or to any class or description of economic operators which is potentially open-ended, with a view to receiving responses from economic operators who wish to be considered for the award of the contract; and
- (b) accordingly, a contracting authority does not advertise an opportunity where it makes the opportunity available only to a number of particular economic operators who have been selected for that purpose (whether ad hoc or by virtue of their membership of some closed category such as a framework agreement), regardless of how it draws the opportunity to the attention of those economic operators.

(6) In this regulation, “contract award opportunity” means the opportunity to be awarded a public contract by a contracting authority, regardless of how specific the opportunity is.

^{F303}(7)

(8) The information to be published on Contracts Finder shall include at least the following:—

- (a) the time by which any interested economic operator must respond if it wishes to be considered;
- (b) how and to whom such an economic operator is to respond; and
- (c) any other requirements for participating in the procurement.

(9) For the purposes of paragraph (8)(a), the time shall be such as to allow the economic operators a sufficient but not disproportionate period of time within which to respond.

(10) The contracting authority shall ensure that the information remains published on Contracts Finder until the time mentioned in paragraph (8)(a).

(11) Paragraph (10) does not apply where the procedure is, for any reason, abandoned before that time.

Changes to legislation: The Public Contracts Regulations 2015 is up to date with all changes known to be in force on or before 11 May 2024. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details)

(12) Where a contracting authority publishes information on Contracts Finder under this regulation, the contracting authority shall—

- (a) by means of the internet, offer unrestricted and full direct access free of charge to any relevant contract documents; and
- (b) specify in the information published on Contracts Finder the internet address at which those documents are accessible.

(13) But paragraph (12)(a) does not require a contracting authority to provide such access where the access cannot be offered for a relevant reason.

(14) In paragraph (13), “relevant reason” means any reason which, in accordance with regulation 53(3) and (4), would have applied if the procurement had been covered by Part 2 and the relevant contract documents had been procurement documents.

(15) For the purposes of this regulation, a document is a relevant contract document if—

- (a) it contains information about the opportunity which goes beyond the information published on Contracts Finder, and
- (b) that information is intended by the contracting authority to be taken into account by those responding to the advertisement.

(16) In complying with this regulation, contracting authorities shall have regard to any guidance issued by the Minister for the Cabinet Office in relation to—

- (a) the form and manner in which information is to be published on Contracts Finder;
- (b) what is a sufficient but not disproportionate period of time for the purposes of paragraph (9).

111.—(1) A contracting authority shall not include a pre-qualification stage in a procurement.

(2) Where the relevant threshold for the purposes of regulation 109(1) is that mentioned in regulation (5)(1)(a) or (d), paragraph (1) of this regulation applies only if the estimated value of the procurement is less than the lower threshold mentioned in paragraph (3).

(3) The lower threshold is the threshold mentioned in—

- (a) regulation 5(1)(b) where the contracting authority is a central government authority;
- (b) regulation 5(1)(c) where the contracting authority is a sub-central contracting authority.

(4) In paragraph (1), “pre-qualification stage” means a stage in the procurement process during which the contracting authority assesses the suitability of candidates to perform a public contract for the purpose of reducing the number of candidates to a smaller number who are to proceed to a later stage of the process.

(8) Where a contracting authority conducts a procurement in a way which represents a reportable deviation from the guidance issued under paragraph (7), the contracting authority shall send to the Cabinet Office a report explaining the deviation.

- (c) might prejudice fair competition between economic operators.

(3) In complying with this regulation, contracting authorities shall have regard to any guidance issued by the Minister for the Cabinet Office in relation to—
